NOTIFICATIONS.

No. 849P.T.—The following Order in Council was notified in the *London Gazette* on the 12th August 1924, and is hereby published for information.

AT THE COURT AT BUCKINGHAM PALACE.

The 12th day of August, 1924.

PRESENT,

THE KING'S MOST EXCELLENT MAJESTY IN COUNCIL.

WHEREAS at Lausanne, on the 24th day of July, 1923, a Treaty of Peace with Turkey (hereinafter referred to as "The Treaty") was signed on behalf of His Majesty:

AND WHEREAS at Lausanne, on the same date, the conventions, protocols and declaration mentioned in the First Schedule to this Order were also signed on behalf of His Majesty, and at Paris on the 23rd day of November, 1923, there was also so signed a convention relating to the assessment and reparation of damage suffered in Turkey by the nationals of the contracting Powers and the protocol annexed thereto:

AND WHEREAS by the Treaty of Peace (Turkey) Act, 1924, it was provided that His Majesty might make such appointments, establish such offices, make such Orders in Council, and do such things as appeared to Him to be necessary for carrying out the Treaty and the said conventions, protocols and declaration, and for giving effect to any of the provisions thereof, and that any Order in Council made under that Act might provide for the imposition, by summary process or otherwise, of penalties in respect of breach of the provisions thereof, and might provide for granting exemption from stamp duty in cases where such exemption was required under the Treaty, and for conferring on courts within His Majesty's Dominions jurisdiction in cases where, under the convention respecting Conditions of Residence and Business and Jurisdiction such courts are alone to have jurisdiction:

AND WHEREAS the Treaty contains the Articles set out in the first column of Part I of the Second Schedule to this Order (a translation whereof is, for the purpose of convenience, set forth in the second column thereof), and the last mentioned convention contains the Article set out in the first column of Part II of that Schedule (a translation whereof is, for the purpose of convenience, set forth in the second column thereof), and it is expedient that for the purposes of giving effect thereto the provisions hereinafter contained shall have effect:

AND WHEREAS by sections 4 and 9 of the Indian Enemy Trading Act, 1915 (XIV of 1915) and Government of India notification No. 6055W.11, dated 22nd July, 1916, issued under that Act and by Section 7 of the Indian Enemy Trading Act, 1916 (X of 1916) it was provided that the custodians of enemy property appointed under the Indian Enemy Trading Act, 1915, should, subject to the provisions therein mentioned, hold any money paid to and any property vested in them under those Acts, and should deal with the same in such a manner as the Governor-General in Council might direct.

AND WHEREAS by treaty, grant, usage, suffrance, or other lawful means His Majesty has power and jurisdiction in territories and in regard to persons in India outside British India, and is pleased by virtue of and in exercise of the powers vested in Him by the Foreign Jurisdiction Act, 1890, and all other powers enabling Him in this behalf, to extend the provisions of this Order to such territories or persons.

NOW, THEREFORE, His Majesty, by and with the advice of His Privy Council, is pleased to order, and it is hereby ordered as follows:—

1. The Articles of the Treaty set out in Part I of the Second Schedule to this Order shall have full force and effect as law, and for the purpose of carrying out the said Articles the following provisions shall have effect:—

(*i*) A custodian of enemy property shall, on the direction of the Governor-General in Council, pay or transfer any money held by him or property vested in him under the Indian Enemy Trading Acts, 1915 and 1916, to any person to whom it is payable or transferable under the Treaty.

(*ii*) The competent authority for the purposes of Article 70 of the Treaty, in so far as it applies to money or other property in India shall be the custodian of enemy property appointed for the area in which such money or other property is situated or if no such custodian has been appointed, the Governor General in Council.

(*iii*) All decisions of the Mixed Arbitral Tribunal constituted under Section V of Part III of the Treaty, if within the jurisdiction of that tribunal, shall be final and conclusive and binding on all courts, and any award of the Mixed Arbitral Tribunal may be enforced in the principal Civil Court of original jurisdiction of the place where the money or other property is situated in the same manner as a decree obtained in that Court to the same effect.

(*iv*) For the purpose of enforcing the attendance of witnesses before the Mixed Arbitral Tribunal, wherever sitting, whether within or without His Majesty's Dominions, and compelling the production before the tribunal of documents, a Secretary of the Government of India shall have power to issue orders which shall have the like effect as if the proceedings before the tribunal were an action in a court and the order were a formal process issued by that court in the due exercise of its jurisdiction, and disobedience to any such order shall be punishable under the Indian Penal Code (Act XLV of 1860).

(*v*) The Controller of Patents and Designs shall have power as from the coming into force of the Treaty in cases where patents and designs are revived under the provisions of Article 87 of the Treaty, to impose such conditions as he may deem reasonably necessary for the protection of the rights of third parties who have exploited or made use of patents or designs during the time whilst they had lapsed.

2. The agreement contained in Article 16 of the Convention respecting Conditions of Residence and Business and Jurisdiction, set out in Part II of the Second Schedule to this Order, shall have full force and effect as law, and for the purpose of carrying out the said agreement the following provisions shall have effect :—

(i) In all cases where, in pursuance of the agreement contained in the said Article 16, courts established in British territory are to have jurisdiction, His Majesty's Supreme Court of Judicature in England shall be the court having such jurisdiction, except where the case is one where, apart from this provision, some other court within His Majesty's Dominions would have jurisdiction :

Provided that where, as respects any case jurisdiction as to which is so conferred on His Majesty's Supreme Court of Judicature in England, on application being made to the Supreme Court of Cyprus, or to a superior court in any other part of His Majesty's Dominions which may from time to time be authorised for the purpose by an Order in Council under the Treaty of Peace (Turkey) Act, 1924, it is made to appear to that court that the case could be more conveniently tried in that court than in His Majesty's Supreme Court of Judicature in England, the Supreme Court of Cyprus, or such other superior court as aforesaid, shall have jurisdiction in the matters, subject to the following qualifications, that is to say :—

(*a*) where proceedings have been instituted in His Majesty's Supreme Court of Judicature in England, no such application shall be made without the leave of that court :

(*b*) where the matter is one with respect to which the Supreme Court of Cyprus or the superior court of any other part of His Majesty's Dominions, has not jurisdiction in relation to persons domiciled in Cyprus or that other part as the case may be, nothing in this Article shall authorise applications to be made to, or confer jurisdiction on, that supreme court or superior court.

(ii) The law to be administered in His Majesty's Supreme Court of Judicature in England, or the Supreme Court of Cyprus or other such superior court as aforesaid, in any case where jurisdiction is conferred on the court by this Article, shall be the law which would have been applicable to the case under Article 90 of the Ottoman Order in Council, 1910, had the case been tried by a court established by and acting under that Order.

3. The Interpretation Act, 1889, applies for the interpretation of this Order in like manner as it applies for the interpretation of an Act of Parliament, and as if this Order were an Act of Parliament.

4. This Order shall apply to India, and shall be deemed to have come into operation as from the date when the Treaty of Peace came into force, that is to say the sixth day of August, nineteen hundred and twenty-four.

5. This Order may be cited as "The India Peace Treaty (Turkey) Order, 1924."

XI. Protocol relating to signature by the Serb-Croat-Slovene State.

SECOND SCHEDULE.

PART I.

ARTICLES OF THE TREATY.

Article 57.

Sur le territoire des Hautes Parties contractantes, les délais de présentation de coupons d'intérêts afférents aux emprunts et avances de la Dette Publique Ottomane et des emprunts ottomans de 1855, 1891 et 1894 gagés sur le tribut d'Egypte, et les délais de présentation des titres desdits emprunts sortis au tirage en vue de leur remboursement, seront considérés comme ayant été suspendus depuis le 29 octobre 1914 jusqu'à l'expiration de trois mois après la mise en vigueur du présent Traité.

Article 58.

La Turquie convient également de ne pas demander au Gouvernement britannique ni à ses ressortissants la restitution des sommes payées pour les bâtiments de guerre qui avaient été commandés en Angleterre par le Gouvernement ottoman et qui ont été réquisitionnés par le Gouvernement britannique en 1914; elle renonce à toute réclamation de ce chef.

PARTIE III.

CLAUSES ECONOMIQUES.

Article 64.

Dans la présente Partie, l'expression "Puissances alliées" s'entend des Puissances contractantes autres que la Turquie; les termes "ressortissants alliés" comprennent les personnes physiques, les sociétés, associations et établissements, ressortissant aux Puissances contractantes autres que la Turquie, ou à un Etat ou territoire sous le protectorat d'une desdites Puissances.

Article 57.

Limits of time fixed for the presentation of coupons of or claims for interest upon the loans and advances of the Ottoman Public Debt and the Turkish Loans of 1855, 1891 and 1894 secured on the Egyptian tribute, and the limits of time fixed for the presentation of securities of these loans drawn for repayment, shall, on the territory of the High Contracting Parties, be considered as having been suspended from the 29th October 1914, until three months after the coming into force of the preasent Treaty.

Article 58.

Turkey also agrees not to claim from the British Government or its nationals the repayment of the sums paid for the warships ordered in England by the Ottoman Government which were requisitioned by the British Government in 1914, and renounces all claims in the matter.

PART III.

ECONOMIC CLAUSES.

Article 64.

In this part, the expression "Allied Powers" means the Contracting Powers other than Turkey.

The term "Allied nationals" includes physical persons, companies and associations of the Contracting Powers other than Turkey, or of a State or territory under the protection of one of the said Powers.

Les dispositions de la présente Partie relatives au "ressortissants alliés" profiteront aux personnes qui, sans avoir la nationalité des Puissances alliées, ont, en raison de la protection dont elles étaient, en fait, l'objet de la part de ces Puissances, reçu des authorités ottomanes le même traitement que les ressortissants alliés et ont, de ce chef, subi des dommages.

SECTION I.

BIENS, DROITS ET INTÉRÊTS.

Article 65.

Les biens, droits et intérêts, qui existent encore et pourront être identifiés sur les territoires restés turcs à la date de la mise en vigueur du présent Traité, et qui appartiennent à des personnes étant, au 29 octobre 1914, ressortissants alliés, seront immédiatement restitués aux ayants droit, dans l'état où ils se trouvent.

Réciproquement, les biens, droits et intérêts, qui existent encore et pourront être identifiés sur les territoires placés sous la souveraineté ou le protectorat des Puissances alliées au 29 octobre 1914, ou sur des territoires détachés de l'Empire ottoman à la suite des guerres balkaniques et placés aujourd'hui sous la souveraineté desdites Puissances, et qui appartiennent à des ressortissants turcs, seront immédiatement restitués aux ayants droit, dans l'état où ils se trouvent. Il en sera de même des biens, droits et intérêts qui appartiennent à des ressortissants turcs sur les territoires détachés de l'Empire ottoman en vertu du présent Traité et qui auraient été l'objet de liquidations ou autres measures exceptionnelles quelconques de la part des autorités des Puissances alliées.

Tous biens, droits et intérêts, qui sont situés sur un territoire détaché de l'Empire ottoman en vertu du présent Traité et qui, après avoir été l'objet d'une measure exceptionnelle de guerre par le Gouvernement ottoman, sont actuellement entre les mains de la Puissance contractante exercant l'autorité sur ledit territoire, et qui peuvent être identifiés, seront restitués à leur légitime propriétaire, dans l'état où ils se trouvent. Il en sera de même des biens immobiliers qui auraient été liquidés par la Puissance contractante exercant l'autorité sur ledit territoire. Toutes autres revendications entre particuliers seront soumises à la jurisdiction compétente locale

Tous litiges relatifs à l'identité ou à la restitution des biens réclamés seront soumis au Tribunal Arbitral Mixte prévu dans la Section V de la présente Partie.

Article 66.

Pour l'exécution des dispositions de l'Article 65, alinéas 1 et 2, les Hautes Parties contractantes remettront, par la procédure la plus rapide, les ayants droit en la possession de leurs biens, droits et intérêts, libres des charges ou servitudes

The provisions of this Part relating to "Allied Nationals" shall benefit persons who, without having the nationality of one of the Allied Powers, have, in consequence of the protection which they in fact enjoyed at the hands of these Powers, received from the Ottoman authorities the same treatment as Allied nationals, and have, on this account, been prejudiced.

SECTION I.

PROPERTY, RIGHTS AND INTERESTS.

Article 65.

Property, rights and interests which still exist and can be identified in territories remaining Turkish at the date of the coming into force of the present Treaty, and which belong to persons who, on the 29th October 1914, were Allied nationals, shall be immediately restored to the owners in their existing state.

Reciprocally, property, rights and interests which still exist and can be identified in territories subject to the sovereignty or protectorate of the Allied Powers on the 29th October 1914, or in territories detached from the Ottoman Empire after the Balkan wars and subject to-day to the sovereignty of any such Power, and which belong to Turkish nationals shall be immediately restored to the owners in their existing state. The same provision shall apply to property, rights and interests which belong to Turkish nationals in territories detached from the Ottoman Empire under the present Treaty, and which may have been subjected to liquidation or any other exceptional measure whatever on the part of the authorities of the Allied Powers.

All property, rights and interests situated in territory detached from the Ottoman Empire under the present Treaty, which, after having been subjected by the Ottoman Government to an exceptional war measure, are now in the hands of the Contracting Power exercising authority over the said territory, and which can be identified, shall be restored to their legitimate owners, in their existing state. The same provision shall apply to immovable property which may have been liquidated by the Contracting Power exercising authority over the said territory. All other claims between individuals shall be submitted to the competent local courts.

All disputes relating to the identity or the restitution of property to which a claim is made shall be submitted to the Mixed Arbitral Tribunal provided for in Section V of this Part.

Article 66.

In order to give effect to the provisions of the first and second paragraphs of Article 65 the High Contracting Parties will, by the most rapid procedure, restore the owners to the possession of their property, rights and interests free from

dont ceux-ci auraient été grevés sans le consentement desdits ayants droit. Il appartiendra au Gouvernement de la Puissance effectuant la restitution, de pourvoir à l'indemnisation des tiers qui auraient acquis directement ou indirectement dudit Gouvernement et qui se trouveraient lésés par cette restitution. Les différends pouvant s'élever au sujet de cette indemnisation seront de la compétence des tribunaux de droit commun.

Dans tous les autres cas, il appartiendra aux tiers lésés d'agir contre qui de droit pour être indemnisés

A cet effet, tous actes de disposition ou autres mesures exceptionnelles de guerre auxquelles les Hautes Parties contractantes auraient procédé à l'égard des biens, droits et intérêts ennemis, seront immédiatement levés et arrêtés s'il s'agit d'une liquidation non encore terminée. Les propriétaires réclamants recevront satisfaction par la restitution immédiate de leurs biens, droits et intérêts, dès que ceux-ci auront été identifiés.

Au cas où, à la date de la signature du présent Traité, les biens, droits et intérêts, dont la restitution est prévue par l'Article 65, se trouveraient avoir été liquidés par les autorités de l'une des Hautes Parties contractantes, celle-ci se trouvera libérée de l'obligation de restituer lesdits biens, droits et intérêts par le payement à leur propriétaire du produit de la liquidation. Au cas où, sur la demande du propriétaire, le Tribunal Arbitral Mixte prévu à la Section V estimerait que la liquidation n'a pas été effectuée dans des conditions assurant la réalisation d'un juste prix, il pourra, à défaut d'accord entre les parties, augmenter le produit de la liquidation de telle somme qu'il jugera équitable. Lesdits biens, droits et intérêts seront restitués si le payement n'est pas effectué dans un délai de deux mois à compter de l'accord avec le propriétaire ou de la décision du Tribunal Arbitral Mixte visé ci-dessus.

Article 70.

Les demandes fondées sur les Articles 65, 66 et 69 devront être introduites auprès des autorités compétentes dans le délai de six mois, et, à défaut d'accord, auprès du Tribunal Arbitral Mixte dans le délai de douze mois à partir de la mise en vigueur du présent Traité.

Article 71.

L'Empire britannique, la France, l'Italie, la Roumanie et l'Etat serbe-croate-slovène, ou leurs ressortissants, ayant introduit des réclamations ou actions auprès du Gouvernement ottoman au sujet de leurs biens, droits et intérêts antérieurement au 29 octobre 1914, les dispositions de la présente Section ne porteront point préjudice à ces réclamations ou actions. Il en

any burdens or encumbrances with which such property, rights and interests may have been charged without the consent of the said owners. It will be the duty of the Government of the Power effecting the restitution to provide for the compensation of third parties who may have acquired the property directly or indirectly from the said Government and who may be injured by this restitution. Disputes which may arise in connection with such compensation shall be dealt with by the ordinary courts.

In all other cases it will be open to any third parties who may be injured to take action against whoever is responsible, in order to obtain compensation.

In order to give effect to these provisions all acts of transfer or other exceptional war measures, which the High Contracting Parties may have carried out in respect of enemy property, rights and interests, shall be immediately cancelled and stayed when liquidation has not yet been completed. Owners who make claims shall be satisfied by the immediate restitution of their property, rights and interests as soon as these shall have been identified.

When at the date of the signature of the present Treaty the property, rights and interests the restitution of which is provided for in Article 65 have been liquidated by the authorities of one of the High Contracting Parties, that Party shall be discharged from the obligation to restore the said property, rights and interests by payment of the proceeds of the liquidation to the owner. If, on application being made by the owner, the Mixed Arbitral Tribunal provided for by Section V finds that the liquidation was not effected in such conditions as to ensure the realisation of a fair price, it will have the power, in default of agreement between the parties, to order the addition to the proceeds of the liquidation of such amount as it shall consider equitable. The said property, rights and interests shall be restored if the payment is not made within two months from the agreement with the owner or from the decision of the Mixed Arbitral Tribunal mentioned above.

Article 70.

Claims based on Articles 65, 66 and 69 must be lodged with the competent authorities within six months, and, in default of agreement, with the Mixed Arbitral Tribunal within twelve months, from the coming into force of the present Treaty.

Article 71.

The British Empire, France, Italy, Roumania and the Serb-Croat-Slovene State or their nationals having begun claims or suits with regard to their property, rights and interests against the Ottoman Government before the 29th October, 1914, the provisions of this Section will not prejudice such claims or suits. Claims or suits begun against the British

sera de même des réclamations ou actions introduites, auprès des Gouvernements britannique, français, italien, roumain et serbe-croate-slovène par le Gouvernement ottoman ou ses ressortissants. Ces réclamations ou actions seront poursuivies auprès du Gouvernement turc et auprès des autres Gouvernements visés au présent Article dans les mêmes conditions, tout en tenant compte de l'abolition des Capitulations.

SECTION II.

CONTRATS ET PRESCRIPTIONS.

Article 73.

Restent en vigueur, sous réserve des dispositions qui y sont contenues ainsi que des stipulations du présent Traité, les contrats appartenant aux catégories indiquées ci-après, conclus entre parties devenues par la suite ennemies telles qu'elles sont définies à l'Article 82 et antérieurement à la date indiquée audit Article.

(*a*) Les contrats ayant pour objet une vente immobilière encore que la vente elle-même n'ait pas encore été régulièrement réalisée si, en fait, la livraison a été effectuée avant la date à laquelle les parties sont devenues ennemies aux termes de l'Article 82 ;

(*b*) Les baux, contrats de location et promesses de location passés entre particuliers ;

(*c*) Les contrats passés entre particuliers relatifs à l'exploitation de mines, de forêts ou de domaines agricoles ;

(*d*) Les contrats d'hypothèque, de gage et de nantissement ;

(*e*) Les contrats constitutifs de sociétés, sans que cette disposition s'applique aux sociétés en nom collectif ne constituant pas, d'après la loi qui les régit, une personnalité distincte de celle des parties (*partnerships*) ;

(*f*) Les contrats, quel qu'en soit l'objet, passés entre les particuliers ou sociétés et l'Etat, les provinces, municipalités ou autres personnes juridiques administratives analogues ;

(*g*) Les contrats relatifs au statut familial ;

(*h*) Les contrats relatifs à des donations ou à des libéralités de quelque nature que ce soit.

Le présent Article ne pourra être invoqué pour donner à des contrats une autre valeur que celle qu'ils avaient par eux-mêmes lorsqu'ils ont été conclus.

Il ne s'appliquera pas aux contrats de concession.

Article 74.

Les contrats d'assurance sont régis par les dispositions prévues par l'Annexe à la présente Section.

French, Italian, Roumanian or Serb-Croat Slovene Governments by the Ottoman Government or its nationals will similarly not be prejudiced. These claims or suits will be continued against the Turkish Government and against the other Governments mentioned in this Article under the conditions existing before the 29th October 1914, due regard being had to the abolition of the Capitulations.

SECTION II.

CONTRACTS AND PRESCRIPTIONS.

Article 73.

The following classes of contracts concluded, before the date mentioned in article 82, between persons who thereafter became enemies as defined in that article, remain in force subject to the provisions of the contracts and to the stipulations of the present Treaty :—

(*a*) Contracts for the sale of real property, even if all formalities may not have been concluded, provided that delivery did in fact take place before the date on which the parties became enemies as defined in article 82.

(*b*) Leases and agreements for leases of land and houses entered into between individuals.

(*c*) Contracts between individuals regarding the exploitation of mines, forests or agricultural estates.

(*d*) Contracts of mortgage, pledge or lien.

(*e*) Contracts constituting companies, excepting "sociétés en nom collectif" which do not constitute, under the law to which they are subject, an entity separate from that of the persons of which they are composed (partnerships).

(*f*) Contracts, whatever may be their purpose, concluded between individuals or companies and the State, provinces, municipalities or other similar juridicial persons charged with administrative functions.

(*g*) Contracts relating to family status.

(*h*) Contracts relating to gifts or bounties of any kind whatever.

This article cannot be invoked in order to give to contracts a validity different from that which they had in themselves when they were concluded.

It does not apply to concessionary contracts.

Article 74.

Insurance contracts are governed by the provisions of the annex to this Section.

Article 75.

Les contrats, autres que ceux énumérés aux Articles 73 et 74 et antres que les contrats de concession, passés entre personnes devenues ultérieurement ennemies, seront considérés comme ayant été annulés à partir de la date à laquelle les parties sont devenues ennemies.

Toutefois, chacune des parties au contrat pourra en réclamer l'exécution jusqu'à l'expiration d'un délai de trois mois à partir de la mise en vigueur du présent Traité, à la condition de verser à l'autre partie, s'il y a lieu, une indemnité correspondant à la différence entre les conditions du moment où le contrat a été conclu et celles du moment où son maintien est réclamé. Cette indemnité, à défaut d'accord entre les parties, sera fixée par le Tribunal Arbitral Mixte

Article 76.

Est confirmée la validité de toutes transactions intervenues avant la mise en vigueur du présent Traité entre les ressortissants des Puissances contractantes, parties aux contrats indiqués aux Articles 73 à 75, et ayant pour objet notamment la résiliation, le maintieu, les modalités d'exécution ou la modification de ces contrats, y compris les accords portant sur la monnaie de payement ou sur le taux de change.

Article 77.

Restent en vigueur et soumis au droit commun les contrats entre ressortissants alliés et turcs conclus postérieurement au 30 octobre 1918.

Restent également en vigueur et soumis au droit commun les contrats dûment intervenus avec le Gouvernement de Constantinople postérieurement au 30 octobre 1918 jusqu'au 16 mars 1920.

Tous contrats et arrangements dûment conclus postérieurement au 16 mars 1920 avec le Gouvernement de Constantinople et intéressant les territoires demeurés sous l'autorité effective dudit Gouvernement seront soumis à l'approbation de la Grande Assemblée Nationale de Turquie sur la demande des intéressés présentée dans un délai de trois mois, à compter de la mise en vigueur du présent Traité. Les payments effectués en vertu de ces contrats seront dûment portés au crédit de la partie qui les aurait effectués.

Au cas où l'approbation ne serait pas accordée la partie intéressée aura droit, s'il y a lieu, à une indemnité correspondant au dommage direct effectivement subi et qui, à défaut d'accord amiable, sera fixée par le Tribunal Arbitral Mixte.

Les dispositions du présent Article ne sont applicables ni aux contrats de concession ni aux transferts de concessions.

Article 75.

Contracts other than those specified in Articles 73 and 74 and other than concessionary contracts, which were entered into between persons who subsequently became enemies, shall be considered as having been annulled as from the date on which the parties became enemies.

Nevertheless, either of the parties to the contract shall have power, within three months from the coming into force of the present Treaty, to require the execution of the contract, on condition of paying, where the circumstances demand it, to the other party compensation calculated according to the difference between the conditions prevailing at the time when the contract was concluded and those prevailing at the time when its maintenance is required. In default of agreement between the parties, this compensation shall be fixed by the Mixed Arbitral Tribunal.

Article 76.

The validity of all compromises entered into before the coming into force of the present Treaty between nationals of the Contracting Powers, parties to contracts specified in Articles 73 to 75, particularly those providing for the cancellation, the maintenance, the methods of execution, or the modification of such contracts, including agreements relating to the currency of payment or the rate of exchange, is confirmed.

Article 77.

Contracts between Allied and Turkish nationals concluded after the 30th October, 1918, remain in force and will be governed by the ordinary law.

Contracts duly concluded with the Constantinople Government between the 30th October, 1918, and the 16th March, 1920, also remain in force and will be governed by the ordinary law.

All contracts and arrangements duly concluded after the 16th march, 1920, with the Constantinople Government concerning territories which remained under the effective control of the said Government, shall be submitted to the Grand National Assembly of Turkey for approval, if the parties concerned make application within three months from the coming into force of the present Treaty. Payments made under such contracts shall be duly credited to the party who has made them.

If approval is not granted, the party concerned shall, if the circumstances demand it, be entitled to compensation corresponding to the direct loss which has been actually suffered ; such compensation, in default of an amicable agreement, shall be fixed by the Mixed Arbitral Tribunal.

The provisions of this Article are not applicable either to concessionary contracts or to transfers of concessions.

Article 78.

Tous les différends déjà existants, ou pouvant s'élever avant l'expiration du délai de six mois prévu ci-après, au sujet des contrats autres que les contrats de concession intervenus entre parties devenues par la suite ennemies, seront réglés par le Tribunal Arbitral Mixte, à l'exception des différends qui, par application des lois des Puissances neutres, seraient de la compétence des tribunaux nationaux de ces Puissances. En ce dernier cas, ces différends seront réglés par ces tribunaux nationaux à l'exclusion du Tribunal Arbitral Mixte. Les plaintes relatives aux différends, qui, en vertu du présent Article, sont de la compétence du Tribunal Arbitral Mixte, devront être présentées audit Tribunal dans un délai de six mois à compter de la date de constitution de ce Tribunal.

Ce délai expiré, les différends qui n'auraient pas été soumis au Tribunal Arbitral Mixte seront réglés par les juridictions compétentes d'après le droit commun.

Les dispositions du présent Article ne sont pas applicables lorsque toutes les parties au contrat résidaient dans le même pays pendant la guerre et y disposaient librement de leurs personnes et de leurs biens, ni lorsqu'il s'agit d'un différend au sujet duquel un jugement a été rendu par un tribunal compétent antérieurement à la date à laquelle les parties sont devenues ennemies.

Article 79.

Sur le territoire des Hautes parties contractantes, dans les rapports entre ennemis, tous délais quelconques de prescription, de péremption ou forclusion de procédure, qu'ils aient commencé à courir avant le début de la guerre ou après, seront considérés comme ayant été suspendus depuis le 29 octobre 1914 jusqu'à l'expiration de trois mois après la mise en vigueur du présent Traité.

Cette disposition s'applique notamment aux délais de présentation de coupons d'intérêts et de dividendes, et de présentation, en vue du remboursement, des valeurs sorties au tirage ou remboursables à tout autre titre.

En ce qui concerne la Roumanie, les délais ci-dessus seront considérés comme ayant été suspendus à partir du 27 août 1916.

Article 80.

Dans les rapports entre ennemis, aucun effet de commerce émis avant la guerre ne sera considéré comme invalide par le seul fait de n'avoir pas été présenté pour acceptation ou pour payement dans les délais voulus, ni pour défaut d'avis aux tireurs ou aux endosseurs de non-acceptation ou de non-payement, ni en raison du défaut de protêt ni pour défaut d'accomplissement d'une formalité quel-conque pendant la guerre.

Si la période pendant laquelle un effet de commerce aurait dû être présenté à l'acceptation ou au payement, ou pendant

Article 78.

All disputes which already exist, or may arise within the period of six months mentioned below, relating to contracts, other than concessionary contracts, between parties who subsequently became enemies, shall be determined by the Mixed Arbitral Tribunal, with the exception of disputes which, in accordance with the laws of neutral Powers, are within the competence of the national courts of those Powers. In the latter case, such disputes shall be determined by the said national courts, to the exclusion of the Mixed Arbitral Tribunal. Applications relating to disputes which, under this Article, are within the competence of the Mixed Arbitral Tribunal, must be presented to the said Tribunal within a period of six months from the date of its establishment.

After the expiration of this period disputes which have not been submitted to the Mixed Arbitral Tribunal shall be determined by the competent courts in accordance with the ordinary law.

The provisions of this Article do not apply to cases in which all the parties to the contract resided in the same country during the war and there freely disposed of their persons and their property, nor to disputes in respect of which judgment was given by a competent court before the date on which the parties became enemies.

Article 79.

All periods whatever of prescription or limitation of right of action, whether they began to run before or after the outbreak of war, shall be treated, in the territory of the High Contracting Parties so far as regards relations between enemies, as having been suspended from the 29th October, 1914, until the expiration of three months after the coming into force of the present Treaty.

This provision applies, in particular, to periods of time allowed for the presentation of interest or dividend coupons, or for the presentation for payment of securities drawn for redemption or repayable on any other ground.

As regards Roumania, the abovementioned periods shall be considered as having been suspended as from the 27th August, 1916.

Article 80.

As between enemies no negotiable instrument made before the war shall be deemed to have become invalid by reason only of failure within the required time to present the instrument for acceptance or payment, or to give notice of non-acceptance or non-payment to drawers or endorsers, or to protest the instrument, nor by reason of failure to complete any formality during the war.

When the period within which a negotiable instrument should have been presented for acceptance or payment, or within

laquelle l'avis de non-acceptation ou de non-payement aurait du être donné aux tireurs ou endosseurs, ou pendant laquelle il aurait dû être protesté, est échue pendant la guerre, et si la partie qui aurait dû présenter ou protester l'effet ou donner avis de la non-acceptation ou du non-payement ne l'a pas fait pendant la guerre, il lui sera accordé trois mois après la mise en vigueur du présent Traité pour présenter l'effet, donner avis de non-acceptation ou de non-payement ou dresser protêt.

Article 81.

Les ventes effectuées pendant la guerre en réalisation de nantissements ou d'hypothèques constitués avant la guerre et garantissant des dettes devenues exigibles, seront réputées acquises, encore que toutes les formalités requises pour avertir le débiteur n'aient pu être observées et sous réserve expresse du droit dudit débiteur d'assigner le créancier devant le Tribunal Arbitral Mixte en reddition de comptes à peine de tous dommages et intérêts.

Le Tribunal aura pour mission d'apurer les comptes entre les parties, de vérifier les conditions dans lesquelles le bien donné en nantissement ou en hypothèque a été vendu et de mettre à la charge du créancier la réparation du préjudice qu'aurait subi le débiteur par suite de la vente, si le créancier a agi de mauvaise foi, ou s'il n'a pas fait toutes diligences en son pouvoir pour eviter de recourir à la vente, ou pour que celle-ci soit effectuée dans des conditions assurant la réalisation d'un juste prix.

La présente disposition ne sera applicable qu'entre ennemes et ne s'étendra pas aux opérations ci-dessus visées qui auraient été effectuées postérieurement au 1 mai 1923.

Article 82.

Au sens de la présente Section, les personnes parties à un contrat seront considérées comme ennemies à partir de la date à laquelle le commerce entre elles sera devenu impossible en fait ou aura été interdit ou sera devenu illégal en vertu des lois, décrets ou règlements auxquels une de ces parties était soumise.

Par dérogation aux Articles 73 à 75, 79 et 80, seront soumis au droit commun les contrats conclus sur le territoire de l'une des Hautes Parties contractantes entre personnes ennemies (y compris les sociétés) ou leurs agents, si ce territoire était pays ennemi pour l'un des contractants qui y est resté pendant la guerre en y pouvant librement disposer de sa personne et de ses biens.

ANNEXE.

1.—ASSURANCE SUR LA VIE.

§ 1.

Les contrats d'assurances sur la vie, passés entre un assureur et une personne

which notice of non-acceptance or non-payment should have been given to the drawers or endorsers, or within which the instrument should have been protested, has expired during the war, and when the party who should have presented or protested the instrument or given notice of non-acceptance or non-payment, has failed to do so during the war, a period of three months from the coming into force of the present Treaty shall be allowed within which the presentation, notice of non-acceptance or non-payment, or protest may be made.

Article 81.

Sales effected during the war in order to realise pledges or mortgages created before the war as security for debts which have become payable, shall be deemed valid, although it may not have been possible to perform all the formalities required for notifying the debtor, subject to the express right of the said debtor to summon the creditor before the Mixed Arbitral Tribunal to render accounts, failing which the creditor will be liable to be cast in damages.

It shall be the duty of the Mixed Arbitral Tribunal to settle the accounts between the parties to investigate the conditions under which the property pledged or mortgaged was sold, and to order the creditor to make good any loss suffered by the debtor as a result of the sale if the creditor acted in bad faith or if he did not take all steps in his power to avoid having recourse to a sale or to cause the sale to be conducted in such conditions as to ensure the realisation of a fair price.

The present provision is applicable only between enemies and does not extend to transactions referred to above which may have been carried out after the 1st May, 1923.

Article 82.

For the purposes of the present Section, the parties to a contract shall be regarded as enemies from the date on which trading between them became impossible in fact or was prohibited or became unlawful under laws, orders or regulations to which one of the parties was subject.

By way of exception to Articles 73—75, 79 and 80, contracts shall be governed by the ordinary law if they were concluded within the territory of one of the High Contracting Parties between enemies (including companies) or their agents, if this territory was an enemy country for one of the contracting parties who remained there during the war and was there able to dispose freely of his person and property.

ANNEX.

I. LIFE ASSURANCE.

Paragraph 1.

Life assurance contracts entered into between an insurer and a person who

devenue par la suite ennemie, ne seront pas considérés comme annulés par l'ouverture des hostilités ou par le fait que la personne est devenue ennemie.

Toute somme assurée devenue effectivement exigible pendant la guerre, aux termes d'un contrat qui, en vertu de l'alinea précédent, n'est pas considéré comme annulé, sera recouvrable après la guerre. Cette somme sera augmentée des intérêts à 5 p. o/o l'an depuis la date de son exigibilité jusqu'au jour du payement.

Si le contrat est devenu caduc pendant la guerre par suite du non-payement des primes, ou s'il est devenu sans effet par suite du non-accomplissement des clauses du contrat, l'assuré ou ses représentants ou ayants droit auront le droit, à tout moment, pendant douze mois à dater du jour de la mise en vigueur du present Traité, de réclamer à l'assureur la valeur de rachat de la police au jour de sa caducité ou de son annulation, augmentée des intérêts à 5 p. o/o l'an.

Les ressortissants turcs dont les contrats d'assurance sur la vie, souscrits antérieurement au 29 octobre 1914, ont été annulés ou réduits, antérieurement au présent Traité, pour non-payement des primes, conformément aux dispositions desdits contrats, auront la faculté pendant un délai de trois mois, à compter de la mise en vigueur du présent Traité, et s'ils sont alors vivants, de rétablir leurs polices pour le plein du capital assuré. A cet effet, ils devront, après avoir passé devant le médecin de la Compagnie une visite médicale jugée satisfaisante par celle-ci, verser les primes arriérées augmentées des intérêts composés à 5 p. o/o.

§ 2.

Il est entendu que les contrats d'assurances sur la vie, souscrits en monnaie autre que la livre turque, conclus avant le 29 octobre 1914 entre les sociétés actuellement ressortissantes d'une Puissance alliée et les ressortissants turcs, pour lesquels des primes ont été payées antérieurement et postérieurement au 18 novembre 1915, ou même seulement avant cette date, seront réglés : 1° en arrêtant les droits de l'assuré, conformément aux conditions générales de la police, pour la période antérieure au 18 novembre 1915, dans la monnaie stipulée au contrat, telle qu'elle a cours dans le pays dont cette monnaie émane (par exemple, toute somme stipulée en francs, en francs or, ou en francs effectifs, sera payée en francs français) ; 2° en livres turques papier—la livre turque étant censée valoir le pair d'avant-guerre—pour la période postérieure au 18 novembre 1915.

Si les ressortissants turcs dont les contrats sont conclus dans une monnaie autre que la monnaie turque, justifient avoir continué depuis le 18 novembre 1915 à acquitter leurs primes en la monnaie stipulée aux contrats, lesdits contrats seront réglés dans cette même monnaie, telle qu'elle a cours dans le pays dont elle émane, même pour la période postérieure au 18 novembre 1915.

subsequently became an enemy shall not be deemed to have been dissolved by the outbreak of war or by the fact of the person becoming an enemy.

Every sum which, during the war, became due upon a contract deemed not to have been dissolved in accordance with the preceding paragraph, shall be recoverable after the war. This sum shall be increased by interest at 5 per cent. per annum from the date of its becoming due up to the day of payment.

If the contract has lapsed during the war, owing to non-payment of premiums or has become void from breach of the conditions of the contract, the assured, or his representatives, or the persons entitled, shall have the right at any moment within twelve months from the coming into force of the present Treaty to claim from the insurer the surrender value of the policy at the date of its lapse or annulation, together with interest at 5 per cent. per annum.

Turkish nationals whose life insurance contracts entered into before the 29th October 1914, have been cancelled or reduced before the Treaty for non-payment of premiums in accordance with the provisions of the said contracts, shall have the right, within three months from the coming into force of the present Treaty, if they are still alive, to restore their policies for the whole of the amount assured. For this purpose they must, after having undergone a medical examination by the doctor of the company, the result of which the company considers satisfactory, pay the premiums in arrear with compound interest at 5 per cent.

Paragraph 2.

It is understood that life assurance contracts in money other than the Turkish pound, entered into before the 29th October 1914, between companies possessing the nationality of an Allied Power and Turkish nationals, in respect of which the premiums have been paid before and after the 18th November 1915, or even only before that date, shall be regulated, first, by determining the rights of the assured in accordance with the general conditions of the policy for the period before the 18th November 1915, in the currency stipulated in the contract at the current rate in its country of origin (for example, every amount stipulated in francs, in gold francs or in "francs effectifs" will be paid in French francs), secondly, for the period after the 18th November 1915, in Turkish pounds paper—the Turkish pound being taken at the pre-war par value.

If Turkish nationals whose contracts were entered into in currency other than Turkish currency show that they have continued to pay their premiums since the 18th November 1915, in the currency stipulated in the contracts, the said contracts shall be settled in the same currency at the current rate in its country of origin, even for the period after the 18th November 1915.

Les ressortissants turcs dont les contrats, conclus avant le 29 octobre 1914, dans une monnaie autre que la monnaie turque, avec des sociétés actuellement ressortissantes d'une Puissance alliée sont, par suite du payement des primes, encore en vigueur, auront la faculté, pendant un delai de trois mois à compter de la mise en vigueur du présent Traité, de rétablir leurs polices pour le plein du capital dans la monnaie stipulée dans leur contrat telle qu'elle a cours dans le pays dont elle émane. A cet effet, ils devront verser en cette monnaie les primes échues depuis le 18 novembre 1915. Par contre, les primes effectivement versées par eux en livres turques papier depuis ladite date leur seront remboursées dans la même monnaie.

§ 3.

En ce qui concerne les assurances contractées en livres turques, le règlement sera fait en livres turques papier.

§ 4.

Les dispositions des paragraphes 2 et 3 ne seront pas applicables aux assurés qui, par une convention expresse, auront déjà regularisé avec la société d'assurance la valorisation de leurs polices et le mode de payement de leurs primes, ni a ceux dont les polices seront définitivement réglées à la mise en vigueur du présent Traité.

§ 5.

Pour l'application des paragraphes précédents seront considérés comme contrats d'assurance sur la vie les contrats d'assurance qui se basent sur les probabilités de la vi humaine combinées avec le taux d'intérêt pour le calcul des engagements réciproques des deux parties.

II.—ASSURANCES MARITIMES.

§ 6

Ne sont pas considérés comme annulés, réserve des dispositions qui y sont contenues, les contrats d'assurance maritime au cas où le risque avait commencé à courir avant que les parties fussent devenues ennemies et à la condition qu'il ne s'agisse pas de couvrir des sinistres résultant d'actes de guerre accomplis par la Puissance à laquelle ressortit l'assureur ou par les alliés de cette Puissance.

III.—ASSURANCE CONTRE L'INCENDIE ET AUTRES ASSURANCES.

§ 7.

Ne sont pas considérés comme annulés, sous la réserve énoncée au paragraphe précédent, les contrats d'assurance contre l'incendie ainsi que tous autres contrats d'assurance.

Turkish nationals whose contracts, entered into before the 29th October, 1914, in currency other than Turkish currency with companies possessing the nationality of an Allied Power are owing to payment of premiums, still in force, shall have the right within three months after the coming into force of the present Treaty to restore their policies for the full amount, in the currency stipulated in their contract at the current rate in its country of origin. For this purpose they must pay in this currency the premiums which have become due since the 18th November 1915. On the other hand, the premiums actually paid by them in Turkish pounds paper since that date will be repaid to them in the same currency.

Paragraph 3.

As regards insurances in Turkish pounds, settlement shall be made in Turkish pounds paper.

Paragraph 4.

The provisions of paragraphs 2 and 3 do not apply to policy holders who, by an express agreement, have already settled with the insurance companies the fixation of the value of their policies and the method of payment of their premiums, nor to those whose policies shall have been finally settled at the date of the coming into force of the present Treaty.

Paragraph 5.

For the purposes of the preceding paragraphs, insurance contracts shall be considered as contracts of life insurance when they depend on the probabilities of human life, combined with the rate of interest, for the calculation of the reciprocal engagement between the two parties.

II.—MARINE INSURANCE.

Paragraph 6.

Subject to the provisions therein contained, contracts of marine insurance will not be deemed to have been dissolved where the risk had attached before the parties became enemies, but the policy shall not be deemed to cover losses due to belligerent action by the Power of which the insurer was a national or by the allies of that Power.

III.—FIRE AND OTHER INSURANCES.

Paragraph 7.

Subject to the reserve contained in the preceding paragraph, fire insurance contracts and all other forms of insurance contracts are not deemed to be dissolved.

SECTION III.

DETTES.

Article 84.

Les Hautes Parties contractantes sont d'accord pour reconnaître que les dettes exigibles avant la guerre, ou devenues exigibles pendant la guerre, en vertu de contrats passés avant la guerre, et restées impayées par suite de la guerre doivent être réglées et payées dans les conditions prévues aux contrats et dans la monnaie convenue, telle qu'elle a cours dans le pays où elle est émise.

Sans préjudice des dispositions de l'Annexe à la Section II de la présente Partie, il est entendu qu'au cas où des payments à effectuer en vertu d'un contrat d'avant-guerre seraient la représentation de sommes perçues en tout ou en partie au cours de la guerre dans une monnaie autre que celle indiquée au dit contrat, ces payements pourront être effectués par le versement, dans la monnaie où elles ont été perçues, des sommes effectivement perçues. Cette disposition ne portera pas atteinte aux stipulations contraires qui, avant la mise en vigueur du présent Traité, seraient intervenues à l'amiable entre les parties intéressées.

Article 85.

La Dette Publique Ottomane est, d'un commun accord, laissée en dehors de la présente Section et des autres Sections de la présente Partie (Clauses Economiques).

SECTION IV.

PROPRIETE INDUSTRIELLE, LITTERAIRE OU ARTISTIQUE.

Article 86.

Sous réserve des stipulations du présent Traité, les droits de propriété industrielle, littéraire ou artistique, tels qu'ils existaient au 1 août 1914 conformément à la législation de chacun des pays contractants seront rétablis ou restaurés à partir de la mise en vigueur du présent Traité, dans les territoires des Hautes Parties contractantes, en faveur des personnes qui en étaient bénéficiaires au moment où l'état de guerre a commencé d'exister, ou de leurs ayants droit. De meme, les droits qui, si la guerre n'avail pas eu lieu, auraient pu être acquis pendant la durée de la guerre, à la suite d'une demande légale faite pour la protection de la propriété industrielle ou de la publication d'une œuvre littéraire ou artistique, seront reconnus et rétablis en faveur des personnes qui y auraient des titres à partir de la mise en vigueur du présent Traité.

Sans préjudice des droits qui doivent être restaurés en vertu de la disposition ci-dessus, tous actes (y compris l'octroi de licences) faits en vertu des mesures spéciales qui auraient été prises pendant

SECTION III.

DEBTS.

Article 84.

The High Contracting parties are in agreement in recognising that debts which were payable before the war or which became payable during the war under contracts entered into before the war, and which remained unpaid owing to the war, must be settled and paid, in accordance with the provisions of the contracts, in the currency agreed upon, at the rate current in its country of origin.

Without prejudice to the provisions of the Annex to Section II of this part, it is agreed that where payments to be made under a pre-war contract are represented by sums collected during the war in whole or in part in a currency other than that mentioned in the said contract, such payments can be made by handing over the sums actually collected, in the currency in which they were collected. This provision shall not affect settlements inconsistent with the foregoing provisions arrived at by voluntary agreement between the parties before the coming into force of the present Treaty.

Article 85.

The Ottoman Public Debt is by general agreement left outside the scope of this Section and of the other Sections of this Part (Economic Clauses).

SECTION IV.

INDUSTRIAL, LITERARY AND ARTISTIC PROPERTY.

Article 86.

Subject to the stipulations of the present Treaty, rights of industrial, literary and artistic property as they existed on the 1st August 1914, in accordance with the law of each of the contracting countries, shall be re-established or restored as from the coming into force of the present Treaty in the territories of the High Contracting Parties in favour of the persons entitled to the benefit of them at the moment when the state of war commenced, or of their legal representatives Equally, rights which, but for the war, could have been acquired during the war, by means of an application legally made for the protection of industrial property or of the publication of a literary or artistic work, shall be recognised and established in favour of those persons who would have been entitled thereto, from the coming into force of the present Treaty.

Without prejudice to the rights which are required to be restored in accordance with the above provision, all acts (including the grant of licences) done by virtue of the special measures taken during the

la guerre par une autorité législative, exécutive ou administrative d'une Puissance alliée à l'égard des droits des ressortissants ottomans en matière de propriété industrielle, littéraire ou artistique, demeureront valables et consinueront à avoir leurs pleins effets. Cette stipulation s'appliquera *mutatis mutandis* aux mesures correspondantes des autorités turques prises à l'égerd des droits des ressortissants d'une Puissance alliée quelconque.

Article 87.

Un délai minimum d'une année, à partir de la mise en vigueur du présent Traité, sans surtaxe ni pénalité d'aucune sorte, sera accordé aux ressortissants turcs sur le territoire de chacune des autres Puissances contractantes et aux ressorissants de ces Puissances en Turquie pour accomplir tout acte, remplir toute formalité, payer toute taxe et généralement satisfaire à toute obligation prescrite par les lois et les règlements de chaque Etat pour conserver ou obtenir les droits de propriété industrielle déjà acquis au 1 août 1914 ou qui, si la guerre n'avait pas eu lieu, auraient pu être acquis depuis cette date, à la suite d'une demande faite, avant la guerre ou pendant sa durée, ainsi que pour y former opposition.

Les droits de propriété industrielle qui auraient été frappés de déchéance par suite d'un défaut d'accomplissement d'un acte, d'exécution d'une formalité ou de payement d'une taxe, seront remis en vigueur, sous la réserve toutefois, en ce qui concerne les brevets et dessins, que chaque Puissance pourra prendre les mesures qu'elle jugerait équitablement nécessaires pour la sauvegarde des droits des tiers qui auraient exploité ou employé des brevets ou des dessins pendant le temps où ils étaient frappés de déchéance.

La période compris entre le 1 août 1914 et la date de la mise en vigeur du présent Traité, n'entrera pas en ligne de compte dans le délai prévu pour la mise en exploitation d'un brevet ou pour l'usage de marques de fabrique ou de commerce ou de dessins, et il est convenu on outre qu'aucun brevet, marque de fabrique ou de commerce, ou dessin qui était encore en vigueur au 1 août 1914 ne pourra être frappé de déchéance ou d'annulation, du seul chef de non-exploitation ou de non-usage avant l'expiration d'un délai de deux ans à partir de la mise en vigueur dñ présen Traité.

Article 88.

Aucune action ne pourra être intentée ni aucune revendication exércée,, d'une part, par des ressortissants turcs ou par des personnes résident ou exerçant leur industrie en Turquie, et, d'autre part, par des ressortissants des Puissances alliées ou des personnes résidant ou exerçant leur industrie sur le territoire de ces Puissances, ni par les tiers auxquels ces personnes auraient cédé leurs droits pendant la guerre, à raison de faits qui se seraient

war by a legislative, executive or administrative authority of an Allied Power in regard to the rights of Turkish nationals in respect of industrial, literary or artistic property, shall remain in force and continue to have their full effect. This provision applies *mutadis mutandis* to corresponding measures taken by Turkish authorities in regard to the rights of the nationals of any Allied Power.

Article 87.

A minimum of one year from the coming into force of the present Treaty shall be granted, without surtax or penalty of any kind, to Turkish nationals in the territory of each of the other Contracting Powers, and to the nationals of these Powers in Turkey, within which they may accomplish any act, fulfil any formality, pay any fees, and generally satisfy any obligation prescribed by the laws and regulations of the respective States for preserving or obtaining or opposing the grant of rights to industrial property which had already been acquired on the 1st August, 1914, or which, but for the war, might have been acquired since that date by means of an application made before or during the war.

Rights to industrial property which have lapsed by reason of any failure to accomplish any act, fulfil any formality, or pay any fees shall be revived, but subject, in the case of patents and designs, to the adoption of such measures as each power may deem reasonably necessary for the protection of the rights of third parties who have exploited or made use of patents or designs since they had lapsed.

The period from the 1st August 1914 until the coming into force of the present Treaty shall be excluded in calculating the time within which a patent has to be exploited or a trade-mark or design used, and it is further agreed that no patent, trade-mark or design in force on the 1st August 1914, shall be subject to revocation or cancellation by reason only of the failure to exploit such patent or use such trade-mark or design, for two years after the coming into force of the present Treaty.

Article 88.

No action shall be brought and no claim made on the one hand by Turkish nationals or persons residing or carrying on business in Turkey, and on the other hand by nationals of the Allied Powers or persons residing or carrying on their business in the territory of these powers, nor by third parties having derived title during the war from such persons, by reason of any occurrence which has taken place within the territory of the other

produits sur le territoire de l'autre partie, entre la date de l'état de guerre et celle de la mise en vigueur du présent Traité et qui auraient pu être considérés comme portant atteinte à des droits de propriété industrielle ou de propriété littéraire ou artistique ayant existé à un moment quelconque pendant la guerre ou qui seront rétablis conformément à l'Article 86.

Parmi les faits ci-dessus visés, sont compris l'utilisation par les Gouvernements des Hautes Parties contractantes ou par toute personne pour le compte de ces Gouvernements ou avec leur assentiment de droits de propriété industrielle, littéraire ou artistique, aussi bien que la vente, la mise en vente ou l'emploi de produits, appareils, articles ou objets quelconques auxquels s'appliqueraient ces droits.

Article 89.

Les contrats de licence d'exploitation de droits de propriété industrielle ou de reproduction d'œuvres littéraires ou artistiques, conclus avant l'état de guerre entre les ressortissants des Puissances alliées ou des personnes résidant sur leurs territoires ou y exerçant leur industrie d'une part, et des ressortissants ottomans, d'autre part, seront considérés comme résiliés à dater de l'état de guerre entre la Turquie et la Puissance alliée. Mais, dans tous les cas, le bénéficiaire primitif d'un contrat de ce genre aura le droit, dans un délai de six mois à dater de la mise en vigueur du présent Traité, d'exiger du titulaire des droits la concession d'une nouvelle licence dont les conditions, à défaut d'entente entre les parties, seront fixées par le Tribunal Arbitral Mixte prévu à la Section V de la présente Partie. Le Tribunal pourra, s'il y a lieu, fixer alors le montant des redevances qui lui paraîtrait justifié en raison de l'utilisation des droits pendant la guerre.

Article 90.

Les habitants des territoires détachés de la Turquie en vertu du présent Traité conserveront, nonobstant cette séparation et le changement de nationalité qui en résultera, la pleine et entière jouissance en Turquie de tous les droits de propriété industrielle et de propriété littéraire et artistique, dont ils étaient titulaires, suivant la législation ottomane, au moment de ce transfert.

Les droits de propriété industrielle littéraire et artistique en vigueur sur les territoires détachés de la Turquie en vertu du présent Traité au moment de cette séparation ou qui seront rétablis ou restaurés par l'application de l'Article 86, seront reconnus par l'Etat auqel sera transferé ledit territoire et demeureront en vigueur sur ce territoire pour la durée qui leur sera accordée suivant la législation ottomane.

party, between the date of the beginning of a state of war and that of the coming into force of the present Treaty, which might be held to constitute an infringement of rights of industrial property or rights of literary or artistic property either existing at any time during the war or revived under the provisions of Article 86.

Among the occurrences referred to above are included the use by the Governments or the High Contracting Parties, or by any person acting on their behalf, or with their consent, of rights of industrial, literary or artistic property, as well as the sale, the offering for sale or the use of products, apparatus, or any articles whatsoever to which these rights apply.

Article 89.

Licences for the use of industrial property, or for the reproduction of literary or artistic works, granted before the war by or to nationals of the Allied Powers or persons residing in their territories, or carrying on business therein, on the one hand, to or by Turkish nationals on the other hand, shall be considered as cancelled as from the date of the beginning of a state of war between Turkey and the Allied Power concerned. But in any case the former beneficiary of a licence of this kind shall have the right within a period of six months from the coming into force of the present Treaty to require from the proprietor of the rights the grant of a new licence, the conditions of which, in default of agreement between the parties, shall be fixed by the mixed Arbitrail Tribunal referred to in Section V of this Part. The Tribunal shall have the power, where the circumstances demand it, to fix at the same time the amount which it considers fair payment for the use of the property during the war.

Article 90.

The inhabitants of territories detached from Turkey under the present Treaty, shall, notwithstanding this transfer and the change of nationality consequent thereon, continue in complete enjoyment in Turkey of all the rights in industrial, literary and artistic property to which they were entitled under Ottoman law at the time of transfer.

Rights of industrial, literary and artistic property which are in existence in territories detached from Turkey under the present Treaty at the time of separation, or which are re-established or restored by the provisions of Article 86, shall be recognised by the State to which the said territory is transfered, and shall remain in existence in that territory for the same period of time as that which they would have enjoyed under Ottoman law.

SECTION V.

TRIBUNAL ARBITRAL MIXTE.

Article 92.

Un Tribunal Arbitral Mixte sera constitué entre chacune des Puissances Alliées, d'une part, et la Turquie, d'autre part, dans le délai de trois mois à dater de la mise en vigueur du présent Traité.

Chacun de ces tribunaux sera composé de trois membres, dont deux respectivement nommés par chacun des Gouvernements intéressés, qui auront la faculté de désigner plusieurs personnes parmi lesquelles ils choisiront celle appelée à siéger selon les cas, comme membre du Tribunal. Le Président sera nommé après accord entre les deux Gouvernements intéressés.

Au cas où cet accord ne serait pas réalisé dans le délai de deux mois à compter de la mise en vigueur du présent Traité, ledit Président sera désigné, à la demande d'un des Gouvernements intéressés, parmi les personnes ressortissant à des Puissances demeurées neutres pendant la guerre, par le Président de la Cour permanante de Justice Internationale de la Haye.

Si, dans ledit délai de deux mois, un des Gouvernements intéressés ne nomme pas le membre devant le représenter au Tribunal, il appartiendra au Conseil de la Société des Nations de procéder à la nomination de ce membre, à la demande de l'autre Gouvernement intéressé.

En cas de décès ou de démission d'un membre du Tribunal ou si un membre du Tribunal se trouve, pour une raison quelconque, dans l'impossibilité de remplir ses fonctions, il sera pourvu à son remplacement selon le mode fixé pour sa nomination, le délai de deux mois qui est prevu commen Cant à courir du jour de décès, de la démission ou de l'impossibilité dûment constatée.

Article 93.

Les Tribunaux Arbitraux Mixtes auront leur siège à Constantinople. Si le nombre et la nature des affaires le justifient, les Gouvernements intéressés auront la faculté de créer dans chaque Tribunal une ou plusieurs sections supplémentaires, dont le siège pourra être fixé dans tel lieu qu'il appartiendra. Chacune de ces sections sera composée d'un Vice-Président et de deux membres nommés comme il est dit à l'Article 92, alinéas 2 à 5.

Chaque Gouvernement désignera un ou plusieurs agents pour le représenter devant le Tribunal.

Si, après trois ans à compter de la constitution d'un Tribunal Arbitral Mixte ou d'une de ses Sections, ce Tribunal ou cette Section n'a pas achevé ses travaux et si la Puissance, sur le territoire de laquelle ledit Tribunal ou ladite Section a son siège, le demande, ce siège sera transféré hors de ce territoire.

SECTION V.

MIXED ARBITRAL TRIBUNAL.

Article 92.

Within three months from the date of the coming into force of the present Treaty, a Mixed Arbitral Tribunal shall be established between each of the Allied powers, on the one hand, and Turkey, on the other hand.

Each of these Tribunals shall be composed of three members, two being appointed respectively by each of the Governments concerned, who shall be entitled to designate several persons from whom, according to the case in question, they will choose one to sit as a member of the Tribunal. The president shall be choosen by agreement between the two Governments concerned.

In case of failure to reach agreement within two months from the coming into force of the present Treaty, the president shall be appointed, upon the request of one of the Governments concerned, from among nationals of Powers which remained neutral during the war, by the President of the Permanent Court of International Justice at The Hague.

If within the said period of two months one of the Governments concerned does not appoint a member to represent it on the Tribunal, the Council of the League of Nations will have power to proceed to the appointment of such member upon the request of the other Government concerned.

If a member of the Tribunal should die or resign or for any reason become unable to perform his duties, he shall be replaced by the method laid down for his appointment, the above period of two months running from the date of death, resignation or inability as duly verified.

Article 93.

The seat of the Mixed Arbitral Tribunals shall be at Constantinople. If the number and character of the cases justify it, the Governments concerned shall be entitled to create in each Tribunal one or more additional Sections, the seat of which shall be in whatever place may be convenient. Each of these Sections shall be composed of a vice-president and two members appointed as laid down in the second, third, fourth and fifth paragraphs of Article 92.

Each Government shall appoint one or more agents to represent it before the Tribunal.

If, after three years from the establishment of a Mixed Arbitral Tribunal, or of one of its Sections, such Tribunal or Section has not finished its work, and if the Power on whose territory such Tribunal or Section has its seat so requests, the seat shall be removed from such territory.

Article 94.

Les Tribunaux Arbitraux Mixtes, créés en vertu des Articles 92 et 93, jugeront les différends qui sont de leur competence en vertu du présent Traité.

La décision de la majorité des membres sera celle du Tribunal.

Les Hautes Parties contractantes conviennent de considérer les décisions des Tribunaux Arbitraux Mixtes comme définitives, et de les rendre obligatoires pour leurs ressortissants et d'en assurer l'exécution sur leurs territoires dès que la notification des sentences leur sera parvenue, sans qu'il soit besoin d'aucune procédure d'*exequatur*.

Les Hautes Parties contractantes s'engagent en outre à ce que leurs tribunaux et autorités prêtent directement aux Tribunaux Arbitraux Mixtes toute l'aide qui sera en leur pouvoir, spécialement en ce qui concerne la transmission des notifications et la réunion des preuves.

Article 95.

Les Tribunaux Arbitraux Mixtes seront guidés par la justice, l'équité et la bonne foi.

Chaque Tribunal fixera la langue à employer devant lui en prescrivant les traductions nécessaires pour assurer la parfaite intelligence des affaires ; il établira les règles et les délais de la procédure à suivre devant lui. Les règles devront observer les principes suivants :

1. La procédure comportera respectivement la production d'un mémoire et d'un contre-mémoire, avec faculté de présenter une réplique et une contre-réplique. Si l'une des parties demande à présenter ou à faire présenter des observations orales, elle y sera autorisée sous réserve de la faculté accordée, en pareil cas, à l'autre partie d'y procéder également.

2. Le Tribunal aura tout pouvoir d'ordonner des enquêtes, des productions de pièces, des expertises, de procéder à des descentes sur lieux, de requérir tous renseignements, d'entendre tous témoins et de demander aux parties ou à leurs représentants toutes explications verbales ou écrites.

3. Sauf stipulation contraire dans le présent Traité, aucune réclamation ne sera admise après l'expiration du délai de six mois à compter de la constitution du Tribunal, si ce n'est sur autorisation spéciale donnée par une décision du dit Tribunal et exceptionellement justifiée par des raisons de distance ou de force majeure.

Article 94.

The Mixed Arbitral Tribunals established pursuant to Articles 92 and 93 shall decide all questions within their competence under the present Treaty.

Decisions shall be taken by a majority.

The High Contracting Parties agree to regard the decisions of the Mixed Arbitral Tribunals as final and conclusive, and to render them binding upon their nationals, and to ensure their enforcement in their respective territories as soon as the decisions of the Tribunals are notified to them, without it being necessary to have them declared executory.

The High Contracting Parties further undertake that their Tribunals and authorities shall directly assist the Mixed Arbitral Tribunals in every way that is in their power, particularly as regards the transmission of notices and the collection of evidence.

Article 95.

The Mixed Arbitral Tribunals shall be guided by justice, equity and good faith.

Each Tribunal will determine the language to be used before it, and shall order such translations to be made as are necessary to ensure that the proceedings are completely understood; it will lay down rules and time limits for the procedure to be observed. These rules must be based on the following principles :—

1 The procedure shall include the presentation of a memorial and a counter-memorial respectively, with the option of presenting a reply and a rejoinder. If either of the parties asks for leave to present an oral argument he will be permitted to do so; in such case the other party will have the same right.

2. The Tribunal shall have full power to order enquiries, the production of documents, and expert examinations, to make a view, to demand any information, to hear any witnesses and to ask the parties or their representatives for any verbal or written explanations.

3 Subject to any contrary provision in the present Treaty, no claim shall be admitted after the expiry of a period of six months from the establishment of the Tribunal, except upon express authority contained in a decision of the said Tribunal and justified as an exceptional measure by considerations relating to distance or *force majeure*.

4. Il sera du devoir du Tribunal de tenir chaque semaine, sauf pendant les périodes de vacances qui n'excéderont pas huit semaines en totalité pendant l'année, le nombre d'audiences nécessaire pour assurer la prompte expédition des affaires.
5. Les jugements devront toujours être rendus au plus tard deux mois après la clôture des débats, qui comportera la mise de l'affaire au délibéré du Tribunal.
6. Les débats oraux, lorsque l'affaire en comportera, et, dans tous les cas, le prononcé des jugements auront lieu en audience publique.
7. Chaque Tribunal Arbitral Mixte aura la faculté, s'il le juge utile à la bonne expédition des affaires, de tenir une ou plusieurs audiences hors de son siège.

Article 96.

Les Gouvernements intéressés désigneront d'un commun accord un Secrétaire général pour chaque Tribunal, et lui adjoindront chacun un ou plusieurs Secrétaires. Le Secrétaire général et les Secrétaires seront sous le ordres du Tribunal qui, avec l'agrément des Gouvernements intéressés, pourra engager toutes personnes dont le concours lui serait nécessaire.

Le Secrétariat de chaque Tribunal aura ses bureaux à Constantinople ; il appartiendra aux Gouvernements intéressés de créer des bureaux annexés en tel autre lieu qu'il appartiendra.

Chaque Tribunal conservera, dans son Secrétariat, les archives, pièces et documents des affaires qui lui auront été soumises et, à l expiration de son mandat, en effectuera le dépôt dans les archives du Gouvernement où il aura eu son siège. Ces archives seront toujours ouvertes aux Gouvernements intéressés.

Article 97.

Chaque Gouvernement payera les honoraires du membre du Tribunal Arbitral Mixte qu'il nomme, ainsi que ceux de tout agent et secrétaire qu'il désignera.

Les honoraires du Président et ceux du Secrétaire général seront fixés d'accord entre les Gouvernements intéressés, et ces honoraires, ainsi que les dépenses communes du Tribunal, seront payés par moitié par les deux Gouvernements.

Article 137.

Sauf stipulations contraires entre les Hautes Parties contractantes, les décisions prises ou les ordres donnés depuis le 30 octobre 1918 jusqu'à la mise en vigueur

4. It shall be the duty of the Tribunal to hold as many sittings each week as may be needed for the prompt despatch of its business, except during vacations, which shall not exceed a total of eight weeks a year.
5. Judgment must always be given within at most two months from the end of the hearing, after which the Tribunal will at once proceed to consider its judgment.
6. Oral arguments, if any, shall be heard in public, and in all cases judgment shall be delivered in public.
7. Each Mixed Arbitral Tribunal shall be entitled to hold sittings elsewhere than in the place where its seat is established, if it considers it advantageous for the despatch of business.

Article 96.

The Governments concerned shall appoint by agreement a Secretary-General for each Tribunal, and shall each attach to him one or more Secretaries. The Secretary-General and the Secretaries shall be under the orders of the Tribunal, which with the consent of the Governments concerned shall be entitled to engage any persons whose assistance it may need.

The Secretariat of each Tribunal shall have its offices at Constantinople. The Governments concerned shall have power to establish additional offices in such other places as may be convenient.

Each Tribunal shall keep in its Secretariat the records, papers and documents relating to the cases submitted to it, and upon the completion of its duties it shall deposit them in the archives of the Government of the country where its seat is established. These archives shall always be accessible to the Governments concerned.

Article 97.

Each Government shall pay the emoluments of the member of the Mixed Arbitral Tribunal whom it appoints, as well as those of any agent or secretary appointed by it.

The emoluments of the President and those of the Secretary-General shall be fixed by agreement between the Governments concerned, and these emoluments and the general expenses of the Tribunal shall be paid in equal shares by the two Governments.

Article 137.

Subject to any agreements concluded between the High Contracting Parties, the decisions taken and orders issued since the 30th October, 1918, until the coming into

du present Traité, par ou d'accord avec les autorités des Puissances ayant occupé Constantinople et concernant les biens, droits et intérêts de leurs ressortissants, des étrangers ou des ressortissants turcs et les rapports des uns et des autres avec les autorités de la Turquie, seront réputés acquis et ne pourront donner lieu à aucune réclamation contre ces Puissances ou leurs autorités.

Toutes autres réclamations en raison d'un préjudice subi par suite des décisions ou orders ci-dessus visés, seront soumis au Tribunal Arbitral Mixte.

Article 138.

En matière judiciaire seront réputés acquis, sans prejudice des dispositions des paragraphes IV et VI de la Déclaration en date de ce jour relative à l'amnistie, les décisions et ordres rendus en Turquie, depuis le 30 octobre 1918 jusqu'à la mise en vigueur du présent Traité, par tous juges, tribunaux ou autorités des Puissances ayant occupé Constantinople, ainsi que par la Commission Judiciaire Mixte provisoire constituée le 8 décembre 1921, ensemble les mesures d'exécution.

Toutefois, dans le cas où une réclamation serait présentée par un particulier en réparation d'un prejudice subi par lui au profit d'un autre particulier en raison d'une décision judiciaire émanant en matière civile d'un tribunal militaire ou de police, cette réclamation sera soumise à l'examen du Tribunal Arbitral Mixte, qui pourra, s'il y a lieu, imposer le payement d'une indemnité et même ordonner une restitution.

Article 140.

Les prises maritimes respectivement effectuées au cours de la guerre entre la Turquie et les autres Puissances contractantes et antérieures au 30 octobre 1918, ne donneront lieu de part et d'autre à aucune réclamation. Il en sera de même des saisies qui, postérieurement à cette date, auraient été, pour violation de l'armistice, effectuées par les Puissances ayant occupé Constantinople.

Il est entendu qu'aussi bien de la part des Gouvernements des Puissances ayant occupé Constantinople et de leurs ressortissants que de la part du Gouvernement turc et de ses ressortissants, aucune réclamation ne sera présentée relativement aux embarcations de tous genres, navires de faible tonnage, yachts et allèges, dont lesdits Gouvernements ont, les uns ou les autres, disposé depuis le 29 octobre 1914 jusqu'au 1 janvier 1923 dans leurs ports respectifs ou dans les ports occupés par eux. Toutefois, cette disposition ne portera pas atteinte aux dispositions du paragraphe VI de la Déclaration en date de ce jour relative à l'amnistie, non plus qu'aux revendications que des particuliers pourraient faire valoir contre d'autres particuliers en vertu de droits antérieurs au 29 octobre 1914.

force of the present Treaty, by or in agreement with the authorities of the Powers who have occupied Constantinople, and concerning the property, rights and interests of their nationals, of foreigners or of Turkish nationals, and the relations of such persons with the authorities of Turkey, shall be regarded as definitive and shall give rise to no claim against these powers or their authorities.

All other claims arising from injury suffered in consequence of any such decisions or orders shall be submitted to the Mixed Arbitral Tribunal.

Article 138.

In judicial matters, the decisions given and orders issued in Turkey from the 30th October, 1918, until the coming into force of the present Treaty by all judges, courts of authorities of the Powers who have occupied Constantinople, or, by the Provisional Mixed Judicial Commission established on the 8th December, 1921, as well as the measures taken in execution of such decisions or orders, shall be regarded as definitive, without prejudice, however, to the terms of paragraphs IV and VI of the Amnesty Declaration dated this day.

Nevertheless, in the event of a claim being presented by a private person in respect of damage suffered by him in consequence of a judicial decision in favour of another private person given in a civil matter by a military or police-court this claim shall be brought before the Mixed Arbitral Tribunal, which may in a proper case, order the payment of compensation or even restitution of the property in question.

Article 140.

Prizes made during the war between Turkey and the other Contracting Powers prior to the 30th October, 1918, shall give rise to no claim on either side. The same shall apply to seizures effected after that date, for violation of the armistice, by the Powers who have occupied Constantinople.

It is understood that no claim shall be made, either by the Governments of the powers who have occupied Constantinople or their nationals, or by the Turkish Government or its nationals, respecting small craft of all kinds, vessels of light tonnage, yachts and lighters which any of the said Governments may, between the 29th October, 1914, until the 1st January, 1923, have disposed of in their own harbours or in harbours occupied by them. Nevertheless, this stipulation does not prejudice the terms of paragraph VI of the Amnesty Declaration, dated this day, nor the claims which private persons may be able to establish against other private persons in virtue of rights held before the 29th October, 1914.

PART II.

Convention relative à l'Etablissement et à la Compétence judiciaire.

Article 16.

En matière de statut personnel, c'est-à-dire pour toutes les questions concernant le mariage et la communauté conjugale, le divorce, la séparation de corps, la dot, la paternité, la filiation, l'adoption, la capacité des personnes, la majorité, la tutelle, la curatelle, l'interdiction; en matières mobilières, le droit de succession testamentaire ou *ab intestat*, partages et liquidations; et, en général, le droit de famille, il est entendu entre la Turquie et les autres Puissances contractantes que seront seuls compétents vis-à-vis des ressortissants non mussulmans desdites Puissances, établis ou se trouvant en Turquie, les tribunaux nationaux ou autres autorités nationales siégeant dans le pays auquel ressortit la partie dont le statut personnel est en cause.

La présente disposition ne porte pas atteinte aux attributions spéciales des consuls en matière d'état civil d'après le droit international ou les accords particuliers qui pourront intervenir, non plus qu'au droit des tribunaux turcs de requérir et recevoir les preuves relatives aux questions reconnues ci-dessus comme etant de la compétence des tribunaux, nationaux ou autres autorités nationales des parties en cause.

Par dérogation à l'alinéa premier, les tribunaux turcs pourront également être compétents dans les questions visées audit alinéa, si toutes les parties en cause se soumettent par écrit à la jurisdiction de ces tribunaux, lesquels statueront d'après la loi nationale des parties.

PART II.

Convention respecting Conditions of Residence and Business and Jurisdiction.

Article 16.

In matters of personal status, *i.e.*, all questions relating to marriage, conjugal rights, divorce, judicial separation, dower, paternity, affiliation, adoption, capacity, majority, guardianship, trusteeship and interdiction; in matters relating to succession to personality, whether by will or on intestacy, and the distribution and winding up of estates; and family law in general, it is agreed between Turkey and the other Contracting Powers that, as regards non-Moslem nationals of such Powers in Turkey the national tribunals or other competent national authorities established in the country of which the party whose personals status is in question is a national will alone have jurisdiction.

The present stipulation does not affect the special attributions of consuls in matters of status in accordance with international law or special agreements which may be concluded, nor the right of Turkish courts to request and received evidence respecting matters acknowledged above as being within the competence of the national tribunals or authorities of the parties concerned.

By way of exception to the first paragraph of this Article, the Turkish courts will also have jurisdiction in the matters referred to therein, if all the parties to the case submit in writing to the jurisdiction of the said courts. In such case the Turkish courts will apply the national law of the parties.

NOTIFICATION.

CUSTOMS DUTIES.

Simla, the 15th September 1924.

No. 4257.—In exercise of the power conferred by section 23 of the Sea Customs Act, 1878 (VIII of 1878), the Governor General in Council is pleased to exempt galvanised latex spouts used on rubber plantations for insertion in rubber trees from the import duty leviable thereon under Schedule II to the Indian Tariff Act, 1894 (VIII of 1894).

A. R. LOFTUS TOTTENHAM,
Joint Secretary to the Government of India.

DEPARTMENT OF COMMERCE.

RESOLUTION.

Simla, the 20th September 1924.

No. 47-T. (5).—As announced in the Legislative Assembly on the 15th March last, in view of the Resolution adopted by the Assembly recommending on economic grounds the

imposition of a countervailing duty on South African coal imported into India, the Government of India decided to refer to the Tariff Board for investigation the question whether the Indian coal trade is in need of protection either against coal from South Africa or against imports of foreign coal generally, and if so, whether, having regard to all the interests concerned, protection should be accorded to it.

2. Imports of coal into India are relatively small, and are steadily diminishing in quantity. The average production of coal in India during the last three years has been about 19 million tons per annum. Imports during the same period were :—

	Thousands of tons.
1921-22	1,489
1922-23	882
1923-24	592

The returns for the first four months of the present year, 1924-25, show a further rapid decrease in imports as compared with the first three months of previous years, *viz.*—

	Thousands of tons.
1922 April to June	404
1923 Ditto	245
1924 Ditto	128

Total imports in the two years preceding the war were :—

	Thousands of tons.
1912-13	643
1913-14	532

Total imports have thus now fallen to pre-war level.

3. At the same time, export of coal from India to other countries have seriously contracted. Export figures for the years before and after the war are :—

	Thousands of tons.
1912-13	879
1913-14	722
1920-21	1,143
1921-22	113
1922-23	98

During the present year, there has been some recovery, exports for the four months ending the 31st July last amounting to 80,000 tons.

4. It is evident from these figures that the competition from which the Indian coal industry is now suffering is not so much in the Indian market as in overseas markets, such as Colombo and Singapore. It is also evident that overseas markets cannot be recovered by the protection of the Indian market. They can only be recovered by improving and grading the quality of coal for export, and by reducing the cost of production and transport. At the same time, it is possible that the measures which are necessary to recover the overseas market, may be sufficient, without further protection, to enable Indian coal to meet competition in the home market.

5. The grading and transport of coal are highly technical subjects, with which the Tariff Board is not fully equipped to deal. The Government of India have, therefore, decided to appoint an expert Committe, representative of the interests concerned, to consider this side of the question, with the following terms of reference :

"To enquire and report

(1) generally what measures can be taken by Government, by the coal trade by the railways and by the ports, whether singly or in combination, to stimulate the export of suitable coal from Calcutta to Indian and foreign ports ; and

(2) in particular, whether effective measures can be taken for the pooling and grading of Indian coal for export and for bunkering, and how the cost of such measures should be met."

6. The Committee will be composed as follows :—

President.

F. Noyce. Esq., C.S.I., C.B.E., I.C.S.

Members.

The Chief Mining Engineer to the Railway Board.
F. C. Legge, Esq., C.B.E., Director of Wagon Interchange.
S. C. Stuart-Williams, Esq., Chairman, Calcutta Port Trust.
A. A. F. Bray, Esq., Chairman, Indian Mining Association.
W. C. Banerjee, Esq., Vice-Chairman, Indian Mining Federation.
Sir Rajendra Nath Mookerjee, K.C.I.E., K.C.V.O., of Messrs. Martin & Co., Calcutta.
The Hon'ble Mr. J. W. A. Bell of Messrs. Mackinnon Mackenzie & Co., Calcutta.

Secretary.

H. P. V. Townend, Esq., I.C.S.

It is hoped that a Committee so composed will be able to devise practical measures, acceptable to all interests concerned, for achieving the objects in view.

7. The Committee will hold its enquiry at Calcutta. It may find it necessary to tour in the coalfields, but for visits to other ports the Government of India think that sub-committees might be appointed. But this question will be left to the decision of the Committee itself. The Committee will assemble in October, and report to the Government of India at the earliest possible date.

8. The recommendations of the Committee will necessarily influence the Tariff Board's investigation of the question whether the Indian coal trade is in need of protection. The Government of India, therefore, after consulting the Tariff Board, have decided to postpone this reference to the Tariff Board until after the Committee has reported.

ORDER.—Ordered that a copy of the above resolution be communicated to all Local Governments and Administrations, the Director-General of Commercial Intelligence, the Indian Trade Commissioner, London, the Finance, Railway and Industries and Labour Departments and the Secretary, Tariff Board.

Ordered also that it be published in the *Gazette of India.*

LEGISLATIVE DEPARTMENT.

The following Bill was introduced in the Legislative Assembly on the 15th September 1924 :—

No. 29 of 1924.

A Bill to repeal certain enactments whereby breaches of contract by labourers are made punishable under the criminal law.

WHEREAS it is expedient to repeal certain enactments whereby breaches of contract by labourers are made punishable under the criminal law ; It is hereby enacted as follows :—

Short title and commencement.

1. (*1*) This Act may be called the Workmen's Breach of Contract (Repealing) Act, 1924.

(*2*) It shall come into force on the first day of April 1926.

Repeals

2. The enactments mentioned in the Schedule are hereby repealed to the extent specified in the fourth column thereof.

THE SCHEDULE.

ENACTMENTS REPEALED.

(*See section 2.*)

Year.	No.	Short title.	Extent of repeal.
1859	XIII	The Workman's Breach of Contract Act, 1859.	The whole.
1860	XLV	The Indian Penal Code ...	Sections 490 and 492.
1897	XIV	The Indian Short Titles Act, 1897.	So much of the Schedule as relates to the Workman's Breach of Contract Act, 1859.
1920	XII	The Workman's Breach of Contract (Amendment) Act, 1920.	The whole.
,,	XXXVIII	The Devolution Act, 1920 ...	So much of the First Schedule as relates to the Workman's Breach of Contract Act, 1859.

STATEMENT OF OBJECTS AND REASONS.

On the 20th February 1923, Mr. K. C. Neogi asked for leave to introduce a Bill in the Legislative Assembly to repeal the Workman's Breach of Contract Act, 1859, as amended by Act XII of 1920. The motion, which was finally rejected by the Assembly, was opposed by Government on the ground that though the Act might not be necessary as an all-India measure, Local Governments must be at liberty to place before their own legislatures some measure to give protection, where necessary, to employers and industrialists in particular areas and in particular circumstances. It was also pointed out that time must be given to employers and industrialists to adjust themselves to the changed conditions which would follow when the Act was repealed. An undertaking was, however, given that Government would take the necessary steps to repeal the Act with effect from 1926. This Bill is intended to give effect to that undertaking, and seeks to repeal with effect from 1st April 1926, the Act of 1859. An opportunity has at the same time been taken of repealing sections 490 and 492 of the Indian Penal Code which deal with cognate matters as their repeal seems to be a logical development of the repeal of the Act of 1859.

Notice.

THE Bengal and Madras Service Family Pension Fund which is provisionally managed and assisted by Government has for its object the provision of monthly pensions for the maintenance of the widows and children of subscribers and is open, with certain exceptions, to all active and pensioned members of the Uncovenanted Service of Government (except those serving under the Government of Bombay), and to Local Fund servants earning pensions from Government. Some of the special features of the fund are—(1) that widowed daughters incapable of remarriage or children labouring under such mental or bodily infirmities as incapacitate them from earning their livelihood or preclude the possibility of marriage (in case of a daughter) are admitted to its benefits ; and (2) that subscribers to the Widows' and Daughters' branches are entitled to a refund of 30 per cent. of the premia paid, should the nominees predecease them after five years of admission. The second quinquennial valuation of the fund has been completed by the Actuary to the Government of India and his report discloses very favourable results. For forms of application and rules of the Fund apply to the Accountant-General, Central Revenues, Imperial Secretariat Buildings, Calcutta.

Instructions re entrance to Colombo Harbour.

No. 389 (third publication).—

The Master Attendant, Colombo, has given notice, dated the 18th August 1924, that the Commanders of vessels approaching Colombo Harbour during the south-west monsoon, or any time with westerly or south-westerly wind, are hereby requested to get their vessels to the northward sufficiently to open the northern entrance (say, about $\frac{1}{2}$ or $\frac{3}{4}$ mile south of Oonagalla Buoy) and head in between east and south-east, bringing wind and sea on starboard quarter. The Pilot will then board on port side, and be enabled to tow his boat alongside coming in.

In the north-east monsoon vessels should head in similarly, "giving a lee" on starboard side.

FINAL FORECAST OF THE JUTE CROP, 1924.

Consolidated statement for Bengal, Bihar and Orissa, and Assam.

Area.—The estimated area for the three Provinces is 2,732,703 acres, a decrease of 54,805 acres, as compared with last year's revised returns. Since the Preliminary Forecast the Collector of Rangpur has agreed to revise his figures, increasing the area for Rangpur from 245,894 acres to 270,000 acres.

Yield.—It is estimated that the crop will yield 8,044,892 bales of jute, *i.e.*, less than last year's revised total by 428,563 bales.

Remarks.—Last year's estimates for all the three Provinces have been revised by the respective Directors of Agriculture. The revised acreage figures for last year are based, as far as possible, on actual arrivals in the season 1923-24.

The consolidated returns are as follows :—

Province.	Area in acres.			Yield in bales.

DEPARTMENT OF AGRICULTURE, BENGAL.

Final Forecast of the Jute Crop of Bengal for 1924.

(NOTE.—On an average of the five years ending 1922-23, the area under jute to which this forecast relates represents some 86·5 per cent. of the total area under jute in British India.)

Season.—In the preliminary forecast it was indicated that the season had not been uniformly favourable, and similar conditions have continued in the interval. In South-Eastern Bengal, following drought and then excessive rain, an early rise of the rivers caused premature cutting of some lowland jute, the tracts chiefly affected being parts of Tippera, Dacca, and Faridpur. In other portions of South-Eastern Bengal, however, the crop approximates to normal, this being particularly true of Western Mymensingh and the *bogi* tract in the Dacca district.

In North Bengal and in the Presidency Division conditions may be described as uniformly favourable throughout, and in some portions of the former tract, notably Rangpur district, there is exceptionally good jute.

In Burdwan Division the crop is fair.

This year there has been ample steeping water from the commencement of the season and reports indicate a larger proportion of clean jute in consequence.

Condition of the crop.—As described above, in South-Eastern Bengal, excepting Western Mymensingh and portions of Dacca and Faridpur, the crop is not good. In Northern Bengal and the Presidency, favourable conditions have been reflected in a good crop; while the Burdwan Division is fair.

Acreage.—The area under jute is 2,390,103 acres, a decrease of 54,305 acres, or 2·2 per cent., as compared with last year. The area for Rangpur district has been increased from 245,894 acres to 270,000 acres since the preliminary forecast was issued. Several other minor alterations have also been made by Collectors. The decreased area is partly the result of low prices last year and partly also of unfavourable conditions at sowing time.

Outturn.—As in previous years, the percentage figures are calculated on the basis of divisional normals which remain as follows :—Dacca and Chittagong 3·7 each, Rajshahi 3·5, Presidency and Burdwan 3·2 bales per acre.

The total outturn of the crop is estimated at 7,239,865 bales of 400 lbs., as against 7,534,055 bales (revised) in last year's forecast, a decrease of 294,190 bales.

APPENDIX I.

Final Forecast of the Jute Crop of Bengal, 1924.

District.	Estimated area under jute.		Estimated outturn as a percentage of the normal yield per unit of area.		Estimated total yield.		Date by which harvesting generally commenced and whether that date was early, normal or late.	Remarks by District Officers.
	Last year.	This year.	Last year.	This year.	Last year.	This year.		
1	2	3	4	5	6	7	8	9
	Acres.	Acres.			Bales.	Bales.		
24-Parganas ..	36,697*	42,000	75	78	89,058*	105,380	Middle of August: Normal.	Unfavourable weather condition and the damage done by insects account for the decrease in yield from the normal.
Nadia ..	72,335*	72,335	79	93·75	183,170*	217,005	First week of September: Normal.	The sowing was somewhat late in the Sadar and Ranaghat subdivisions, but owing to subsequent favourable weather the crop thrived well and the yield expected is almost the normal.
Murshidabad ..	13,434*	13,983	75	71	32,240*	31,797	End of August: Late	The increase in area is due to the fact that many plots were sown after the publication of the preliminary forecast. As the weather was not favourable from the beginning and the crop was consequently sown very late in most places, the outturn is estimated to be less than last year.
Jessore ..	71,876*	81,641	98	92	225,403*	240,723	End of August: Normal.	The increase in area is due to the high price of the crop last year. The outturn is below the normal owing to damage caused by insect pests and to want of timely rainfall
Khulna ..	17,199*	20,315	85	100	46,782*	65,008	End of August Normal.	The increase in area is due to expectation of a better price this year. The season was also a favourable one.
Burdwan ..	3,036*	2,141	76·8	62·02	7,472*	4,240	End of August: Normal.	The decrease in area as compared with the preliminary forecast is due to unfavourable weather conditions and to damage caused by drought and insect pest in the Kalna subdivision.
Midnapore ..	5,274*	2,310	50	56	8,437*	4,158	End of September: Late.	The decrease in area compared with last year was due to drought at sowing time. The increase as compared with preliminary forecast is due to subsequent rain.
Hooghly ..	14,761*	11,125	78	64·37	36,926*	22,936	First week of September: Late.	The decrease in area is due to failure of the crop in many places owing to drought. Late and irregular distribution of rainfall and preponderance of weeds and attack of insect pests in places account for a poor crop, and so a low outturn.
Howrah ..	7,226*	4,638	70	60	16,258*	8,943	First week of September: Very late.	The late harvesting is due to late sowing on account of severe drought at the beginning and unfavourable weather subsequently.
Rajshahi ..	85,990*	93,000	79	100	237,761*	325,500	August: Normal ..	The weather was not uniformly favourable at the beginning. But the condition has improved since then and the yield is estimated at 100 per cent.
Dinajpur ..	63,750*	62,200	80	87·2	178,500*	189,945	By the beginning of August: Normal.	The outturn is better than last year owing to rainfall in July and August which were favourable to the growth of the crop.

DEPARTMENT OF AGRICULTURE, BIHAR AND ORISSA.

Final Forecast of the Jute Crop of Bihar and Orissa, 1924.

(NOTE.—On an average of the five years ending 1922-23, the area under jute to which the Bihar and Orissa forecast relates represents about 7·3 per cent. of the total area under jute in British India.)

Acreage.—The final district returns of the seven jute growing districts of the Province show an area under jute of 212,200 acres, as against the finally revised figure of 223, 200 acres of last year. The decrease in area is due mainly to want of sufficient rain at the sowing time and excessive rain later on in Bihar and the general insufficiency of rainfall throughout the greater part of growing season in Orissa.

Weather conditions.—In March light rain fell in the jute districts except Bhagalpur, Purnea and Cuttack; the fall was below the normal everywhere. In April and May there was light rain in all the jute districts; the fall was above the normal in Bhagalpur and the Santhal Parganas in April and in Cuttack in May, but below the normal elsewhere. In June there was moderate rainfall everywhere except in Cuttack and Balasore, where the fall was light. In July the rainfall was above the normal everywhere except in Cuttack and Balasore, where it was again below the normal. In August the rainfall was above the normal except in Bhagalpur and Purnea; where it was slightly below the normal.

Outturn.—In the important jute districts of Purnea and Cuttack, the outturn of the crop has been reported as 65 and 75 per cent., of normal, respectively. Champaran and the Santal Parganas each reports a crop of 95 per cent. Bhagalpur, Muzaffarpur and Balasore report 75, 50 and 44 per cent., respectively.

On the basis of the area and percentage outturn reported by the District Officers, and taking three bales as the normal outturn per acre, the total gross outturn of the crop for the Province this year comes to 422,289 bales or, in round numbers, 422,300 bales, against 528,200 bales, the revised final estimate for last year.

The average import of raw jute into this Province from Nepal during the last three years was equivalent to 58,838 bales. This figure, added to the figure for the Province arrived at, gives a total for Bihar and Orissa of 481,127 bales or, in round numbers, 481,100 bales, against 600,600 bales, the revised figure for last year.

DEPARTMENT OF AGRICULTURE, ASSAM.

Final Forecast of the Jute Crop of Assam, 1924.

(NOTE.—On the average of the five years ending 1922-23, the area under jute in Assam represents 4·9 per cent. of the total area under jute in British India.)

Season.—The weather at the beginning of the season was, as reported in the preliminary forecast, generally dry throughout the province, affecting the area and growth of the crop to a large extent. Later rainfall was, however, satisfactory; but considerable damage was done to the crop by flood in Goalpara, Kamrup, Sibsagar and Garo Hills. Damage to a certain extent was also caused by hailstorms in Goalpara and by insects in Darrang, Nowgong, Goalpara and Kamrup.

Area.—The area under jute has been reported by the Deputy Commissioners to be 130,400 acres, against the final figure of 119,900 acres of last year and 119,300 acres of the preliminary forecast of this year. The increase is generally due to the extension of cultivation on account of the high price of jute. The areas reported in the preliminary forecast have been revised in four districts, one showing a decrease and three showing increases.

Outturn.—The outturn per acre is estimated to be 71 per cent. of the normal against 81 per cent. of the previous year. Taking 3·5 bales of 400 lbs. of jute fibre as the normal yield per acre, the total produce of the crop in this province this year is calculated to be 323,900 bales, against the revised figure of 338,800 bales of last year or a decrease of about 4 per cent.

Director of Agriculture, Assam.

	Acres.	Acres.	Acres.						
Cachar ..	300	300	300	52	70	500	700	August: Normal ..	The weather was dry at the beginning which retarded the sowing of the crop, but subsequent rainfall did good. The outturn is below normal for late sowing and for want of fertility in the soil.
Sylhet ..	17,900	13,600	13,500	70	64	33,300	30,200	Beginning of August: Normal.	The extremely dry weather at the sowing time is responsible for the decrease in area and the low outturn.
Goalpara ..	50,000	44,600	52,200	70	65	109,300	118,800	Middle of July: Normal.	The increase in area is due to extension of cultivation. The character of the weather from June to August was not good. Insects and hail-storms did some damage and later on two subsequent heavy floods did considerable damage to the crop, hence the outturn appears to be lower than that of last year.
Kamrup ..	12,700	10,200	10,800	85	80	30,300	30,200	Beginning of August: Normal.	The increase in area is due to extension of cultivation. Weather from June to August was not favourable on account of excessive rain. Outturn falls below normal as the growth of the crop was affected by drought at the beginning and some damage was done subsequently by grass-hoppers and flood in some localities.
Darrang ..	9,300	13,600	10,200	80	70	38,100	25,000	Middle of July: Early	The decrease in area is due to unfavourable weather at the sowing time. The character of the weather was not favourable to the growth of the crop and considerable injury in several places was done to the crop by insects. The outturn is therefore lower than that of last year.
Nowgong ..	14,700	33,500	30,400	100	80	117,200	110,300	Beginning of July: Early.	The increase in area is due to the extension of cultivation following last year's good market. The weather which at first was too dry improved considerably, but there was a shortage of rain in July and August. Insects also caused some damage. The fall in outturn is due to shortage of rain and insects.
Sibsagar ..	300	300	300	80	80	800	800	Middle of August: Normal.	The character of the weather was not very favourable and some damage was also done by flood. The outturn, therefore, is below normal.
Lakhimpur ..	200	200	100	74	77	500	300	Ditto ..	The character of the weather was not favourable, and hence the decrease in area. Heavy rainfall also retarded the growth of the crop causing the outturn to fall below normal.
Garo Hills (Plains).	4,600	3,600	3,600	70	60	8,800	7,600	End of July: Normal	The growth of the crop was badly affected owing to drought in the first part of June and floods in the first part of July. The outturn is therefore expected to be lower than that of last year.
Total ..	110,000	119,900	130,400	81	71	338,800	323,900

RESOLUTION REVIEWING THE REPORTS ON THE WORKING OF DISTRICT BOARDS IN BENGAL PRESIDENCY DURING THE YEAR 1922-23.

GOVERNMENT OF BENGAL.

LOCAL SELF-GOVERNMENT DEPARTMENT.

CALCUTTA, THE 26TH SEPTEMBER 1924.

RESOLUTION—No. 4214L.S.-G.

READ—

The reports of the Commissioners of Divisions on the working of District Boards in Bengal during the year 1922-23.

The number of District Boards rose from 25 to 26 owing to the formation of a District Board in the district of Darjeeling, with effect from 1st April 1922. The total number of members increased from 554 to 616 of which 286 were nominated and 330 elected against 268 and 286 respectively in the previous year. The increase was due partly to the constitution of the Darjeeling District Board and partly to the fact that some District Boards were enlarged and given an elective majority.

2. **Local Boards.**—The number of Local Boards rose from 75 to 82. Three new Local Boards were created in the Darjeeling district, two in the Bogra district, one at Jhargram by the subdivision of the Midnapore Sadar Local Board and another at Lalbagh in the district of Murshidabad. It has, however, since been decided not to establish new Local Boards pending a careful definition of the functions of the three rural authorities, viz., the District Board, Local Board and Union Board, and a proposal for the establishment of a Local Board at Bolpur in the district of Birbhum was negatived. The number of Local Board members rose from 984 in the previous year to 1,206.

3. **Village Self-Government.**—Up to the end of the year over 2,000 Union Boards were sanctioned by Government of which nearly 1,300 were in working order. The sanction had to be withdrawn or kept in abeyance in the case of certain unions on account of the apathy and opposition of the people to these institutions. But the influences which hampered the growth and development of Union Boards during the preceding year were decidedly on the wane. In some unions there was opposition to the realisation of the union rates in the early part of the year. The pay of the chaukidars was in consequence greatly in arrear and tahsildars had to be appointed under section 54 of the Bengal Village Self-Government Act. The situation, however, improved during the latter part of the year and proposals for the establishment of several new boards were received after the close of the year.

Great interest appears to be taken in the Union Board elections, especially in the district of Dacca where it is reported that 29 candidates fought for six seats and 90 per cent. of the voters appeared at the polling stations. This is a good sign, as hitherto lack of interest on the part of the electorate has been one of the main obstacles to the success of the Union Board system.

The Union Boards which have been established so far have been handicapped for want of funds and have not been able, except in a few cases, to undertake the improvement of water supply or any other sanitary measures on a large scale. With a view therefore to augment their resources Government in 1921 laid down that the main purpose of the augmentation grant received by District Boards every year should be to supplement the resources of Union Boards and develop village sanitation and measures of public health, and District Boards were directed to distribute a substantial portion of this among the Union Boards under them. The figures for 1922-23 shows that out of a grant of more than Rs. 4½ lakhs received by District Boards in districts where Union Boards have been established only about a lakh and a half was given to Union Boards. Government, while viewing with regret the failure of District Boards to observe the condition

which was attached to this grant, trust that they will in future distribute the major portion of this grant to Union Boards in view of the fact that progress in village sanitation and the improvement of the rural water supply must depend largely on the activities of the village authorities.

Under the existing law District Boards have power to advance loans to Union Boards and it is hoped that in view of the acute scarcity of water prevailing in the rural areas, District Boards will largely utilise this power and make loans to Union Boards in addition to the grants which they are expected to make from the proceeds of the Public Works Cess and the augmentation grant, for the improvement of water supply. The Local Authorities Loans Act also empowers Union Boards to raise funds by means of loans.

In spite of their limited resources the Union Boards generally showed increased interest in their work. The provision of a pure water supply received the attention of a large number of Union Boards, while a few others spent money on dispensaries and schools and distributed quinine. Some evinced greater interest in the improvement of the village roads and drainage. It is also reported that there has been marked improvement in the service by Union Boards of processes issued by the Civil and Criminal Courts. On the other hand, the work of many Union Boards left considerable room for improvement. Frequently there was apathy on the part of members while in some cases party faction was rife. In the Dacca district village roads and some tanks and wells which had been transferred to Union Boards for maintenance had to be re-transferred to the control of Local Boards as the Union Boards failed to maintain them properly. On the whole, however, the year marked a distinct advance in the development of these self-governing institutions, many of which have already established themselves as an integral part of the system of Local Self-Government. It is hoped that these village authorities will gradually acquire greater resources and that as local improvements thereby become possible, the capacity for public service will develop in the masses of Bengal.

4. **Finance of District Boards.**—The receipts amounted to Rs. 127 lakhs against Rs. 116·5 lakhs in 1921-22, the increase being mainly due to greater receipts under Local Rates, Medical, Railways, Civil works and Debt heads. The disbursements, however, fell from Rs. 123 lakhs to Rs. 120 lakhs. The closing balance amounted to Rs. 36 lakhs (of which Rs. 23·3 lakhs were in cash) against Rs. 28·2 lakhs in 1921-22.

5. **Taxation.**—The incidence was 2 annas 7 pies a head per annum varying in different districts from 1 anna 6 pies to 8 annas 2 pies.

6. **Education.**—The expenditure rose from Rs. 28·4 lakhs to Rs. 29·3 lakhs of which Government contributed Rs. 16·9 lakhs, while school fees yielded Rs. 4 lakhs. District Boards from their own funds contributed Rs. 11·3 lakhs.

The number of upper and lower primary schools increased from 39,688 to 40,152 of which 3,229 were entirely maintained by the boards, while the rest received grants-in-aid. Nine thousand five hundred and seventy-two of these institutions were girls' schools against 9,495 in 1921-22 and 9,142 in 1920-21.

Schemes for the expansion of primary education on the lines suggested by Mr. Biss received the attention of the Hooghly District Board but only a small number of Union Boards is reported to have been in earnest in the matter of raising the required sum either by taxation or local contribution. In Birbhum Mr. Biss explained before a conference of presidents, vice-presidents and secretaries of Union Boards the necessity and the probable cost of his scheme of free primary education. Several union schools under this scheme were established in the Mymensingh, Rajshahi and Rangpur districts and three similar schools are reported to have been started in the Benodpur Union under the Noakhali District Board, while the Pabna District Board selected one union for the purpose of giving effect to the scheme, as an experimental measure. The scheme continued to work throughout the year in the Raruli, Bagerhat and Tala Union Boards in the Khulna district. The latter two Union Boards succeeded in raising an educational cess, while the former got an offer of an annual contribution of Rs. 500 from the local Educational Society. Two more Union Boards in the same district have applied for the introduction of the scheme within their jurisdiction. It is gratifying to find that the opposition at first offered to the scheme in some places has since subsided and that the people are realizing its benefits.

The weaving schools in the Burdwan Division continued to receive special attention, but the zeal and enthusiasm

with which the Midnapore Weaving School was established is said to have declined. Special arrangements were made by Government to provide funds for a small working capital to the successful students of the peripatetic weaving school at Suri and the Director of Industries sanctioned a grant of Rs. 2,000 for a hostel for this school. The Khulna Technical School which teaches carpentry and blacksmith's and tinsmith's work is justifying itself and becoming more popular. The number of boys increased from 30 to 38 and the sale proceeds of articles manufactured there rose from Rs. 3,468 to Rs. 5,895. The Mymensingh Technical School continued to specialise in carpentry, cane and bamboo work, brass casting and blacksmith's and fitter's work, but the number of artisan pupils attending the school fell from 57 to 53. In Bakarganj a peripatetic weaving instructor and two assistants were at first appointed to teach the people up-to-date methods of weaving and dyeing, but two regular weaving schools were subsequently opened in police-station Gournadi in which improved methods of cotton weaving and jute weaving were taught. Instruction was also given to the local weavers in their homes. The industrial school at Rajshahi and the weaving school at Pabna are reported to have made good progress. All the passed students of the latter school were supplied with fly-shuttle looms from the deposits made by them out of their earnings during the period of training, while Government granted loans to five of them for starting work during the current year.

7. **Public Health and Medical relief.**—The expenditure under these heads aggregated Rs. 15·25 lakhs against Rs. 13·7 lakhs of the preceding year. Medical relief was provided primarily through 344 dispensaries maintained by the boards and 282 in receipt of grants-in-aid as against 322 and 249 in 1921-22. Twenty-two new dispensaries were established during the year. One Ayurvedic subsidized dispensary was opened at Sarankhola in the Khulna district and the Murshidabad District Board continued its contribution towards a similar dispensary at Berhampore. The Ayurvedic dispensary at Jessore continued to do good work and it is reported that this system of treatment was greatly appreciated by the local people. The Faridpur District Board maintained one Homœopathic dispensary at Madhukhali. The scheme for subsidizing private practitioners with the object of enabling them to establish themselves in unhealthy tracts where medical aid is not easily available, because it is poorly remunerated, received the attention of some of the District Boards. In the Burdwan Division the year marked a new epoch in the establishment of new dispensaries at thana headquarters as also of Union Board dispensaries.

Arrangements were made by almost all the District Boards to provide medical relief to the people in the interior of the districts during epidemics by engaging doctors who distributed medicines free, treated cases, disinfected wells and took measures to prevent the spread of cholera and small-pox and other infectious diseases. An outbreak of cholera in the Dinajpur district was checked by the use of anti-cholera vaccine. In the flood-affected area in Rajshahi, thirty-six centres were opened to provide medical and sanitary aid to the local people and sixty persons specially appointed for the purpose disinfected all the wells and tanks in the affected areas. As a result of this precaution no epidemic of any kind broke out after the flood.

Although steps were taken in several districts to combat *Kala-azar* the District Boards and other local authorities do not appear to have fully realised the extent to which this disease has spread in the Province. The recent *Kala-azar* survey, which has been carried out in 13 districts, shows that 23 per cent. of the villages examined have been found infected with this disease. The existence of foci of intense *Kala-azar* infection has been brought to light in the districts of Burdwan and Jessore and specially in the Barasat subdivision of the 24-Parganas. Similarly, villages in the districts of Hooghly and Howrah where the disease has been previously unknown or unrecognized have recently been found to be heavily infected. Government consider it of primary importance that energetic steps should be taken to stamp out this disease and as an effective remedial measure has been found this is no impracticable vision if the District Boards are prepared to train a sufficient number of medical men in the diagnosis and treatment of the disease.

The system of free vaccination was in force in several districts. In some districts vaccination work which had hitherto been under the Civil Surgeon of the district was transferred to the District Boards. In Midnapore the

vaccination work was carried on by a staff of vaccinators under the Health Officer who reported that the general attitude of the people towards vaccination was not satisfactory.

8. **Veterinary.**—Compared with the preceding year the charges under this head increased by Rs. 14,000 without taking into account the expenditure incurred by the Darjeeling District Board. The public appreciated the services of veterinary assistants and asked for their assistance whenever there was an outbreak. Much depends on the power of these officers to convince ignorant people of the advantage of scientific treatment. After the last flood cattle disease broke out in Rajshahi in an epidemic form all over the affected area but measures were immediately taken to arrest the further progress of the disease. The Birbhum District Board with its slender means could not cope successfully with the large number of cattle epidemics that broke out in the district. It is gratifying to note, however, that some Union Boards in the district came forward to assist the District Board in this matter. The Hooghly District Board, for financial reasons resolved to abolish one of their two veterinary assistants—a retrograde step, which Government must strongly deprecate.

9. **Civil Works.**—The total expenditure under this head, which includes the sums spent on water supply and drainage, rose from Rs. 55·9 lakhs to Rs. 57·34 lakhs, the expenditure (Rs. 34·78 lakhs) on communications alone showing an increase of Rs. 2 lakhs. The 24-Parganas District Board spent Rs. 39,000 on the metalling of the Stevenson-Moore Road and the Balakhali-Bibirhat Road and Rs. 68,000 on the construction of two other important roads, viz., the Hasnanbad-Hingulgani Road and the Maslandpore-Khaspore Road, besides a sum of Rs. 67,000 on the repair of village roads. This Board also spent Rs. 22,500 for the construction of bridges and culverts. In the district of Khulna the toll-bar bridge at Benerpota was completed and the construction of an iron bridge (185 feet long) over the Morrelganj khal in the Bagerhat subdivision was taken up during the year. The District Board also spent nearly Rs. 12,000 on the construction of roads in accordance with a quinquennial programme. There were, however, large lapses of budget allotments for public works in the 24-Parganas (34·7 per cent.), Burdwan (24 per cent.) and Midnapore (21·56 per cent.) districts. In the 24-Parganas district the lapses are said to be due to the tardy allotment of the Magrahat interest money. In Burdwan they are attributed mainly to the failure of supply of quartz stone metal from the quarry at Rupnarainpur, insufficient supply of wagons, labour unrest and absorption of labour at high rates by three large industrial concerns in the district, while in Midnapore they were due to the fact that plans and estimates had not been prepared in time and to the want of contractors to work at the board's rates. It is satisfactory to note that the percentage of lapses fell from 33·7 to 15·1 in Jessore and that no part of the allotment lapsed in the Nadia and Chittagong districts. The districts of Bankura, Hooghly and Howrah were visited by a severe flood which affected their roads very badly and put a very severe strain on their slender resources. It will take some time before the damaged roads can be put in a satisfactory state of repair and efficiency.

10. **Water supply.**—The expenditure under this head, which rose from Rs. 5·14 lakhs in 1921-22 to Rs. 5·33 lakhs, was mainly incurred on sinking wells and excavating and clearing tanks. Despite the suggestion made from time to time that capital works of this kind should be financed from loans, the whole amount was met from current revenue. It is, however, gratifying to find that the District Board of Khulna applied for a loan of Rs. 40,000 in order to enable it to finance a scheme for the removal of the scarcity of drinking water. As the loan was paid towards the close of the year, no expenditure could be incurred out of it. It is hoped that the example of the Khulna District Board will act as a stimulus to other District Boards, as it is not only impossible to meet from the current revenue the enormous sums required for the provision of an adequate supply of pure water, but it is unfair that the present generation should be saddled with the entire expenditure on projects, the benefits of which posterity will to a great measure enjoy.

The excavation of tanks is reported to be a task of difficulty in tracts near rivers and khals with saline water. Experience shows that in such tracts the water of tanks, the sites of which were selected after careful examination, became saline shortly after excavation.

The Chairman of the Faridpur District Board observes that reinforced concrete

wells have been very successful in sandy soil and the people of *chur* lands are showing in a remarkable degree their willingness to carry the rings and sink them at their own cost, provided the Board can supply the rings. The system of granting loans without interest to enable owners of old insanitary tanks to re-excavate them has also been much appreciated by the people of this district. The same system has also been adopted by the Noakhali District Board. In Bakarganj a triennial programme covering the excavation of 46 new tanks has been drawn up and approved by the Board. It is satisfactory to note that Union Boards in the districts of Burdwan, Birbhum and Hooghly carried out works for the improvement of water supply.

Government regret to observe that although the provision of an adequate supply of pure water in rural areas is mainly a concern of the local authorities, District Boards have not fulfilled their obligation in this respect. The inadequate expenditure on water supply was brought to the notice of District Boards and at the District Board conference last year the delegates adopted a resolution to the effect that at least 33 per cent. of the Public Works Cess should be spent by District Boards on rural water supply and sanitation. It is hoped that an earnest effort will be made by all District Boards to give effect to this resolution. Government desire to impress on the District Boards the magnitude of the problem of rural water supply. There are as many as 84,981 villages in the province and even if each village has to be provided with at least one satisfactory source of water supply, the capital and maintenance cost involved will be an enormous one. It is thus obviously impossible either for Government or for District Boards to attempt directly to provide each village with a sufficient supply of pure water, and even if the means were forthcoming neither the Provincial Government nor the District Board would be in a position to tackle the problem successfully, except through the agency of smaller units, such as the Union Board. The ultimate solution of the problem, therefore, lies in the formation of Union Boards throughout the rural area and it is hoped that in the interest of sanitation and public health, the establishment of these smaller local bodies will be greatly accelerated.

Tube wells furnish a generally reliable and a comparatively inexpensive source of water supply. Government are convinced that there is scope for the wider use of this method of water supply in rural areas and they trust that the practicability of sinking tube wells will be carefully considered by every District and Union Boards.

11. **Closing balance.**—The actual closing balance rose from Rs. 17·1 lakhs to Rs. 23·3 lakhs. There were heavy balances in the 24-Parganas (Rs. 3,53,890), Midnapore (Rs. 3,37,290), and Burdwan (Rs. 3,35,457). The heavy balance at the credit of the 24-Parganas District Board is attributed to the unspent balance under "Civil Works", non-payment of the interest of the Magrahat drainage loan and the unspent balance of the Government contribution for the Jaboona drainage scheme while those in Midnapore and Burdwan are partly due to increased income from cess and partly to less expenditure under "Civil Works". The large balance in Midnapore was also swollen by the Government contribution for education. In Mymensingh the balance rose from Rs. 50,533 to Rs. 2,22,248 which indicates some want of foresight or enterprize.

General remarks.—Except in the case of the 24-Parganas, where work was disorganized owing to disputes about the election of the new Board and the delay in the confirmation of the present Chairman, the administration of the District Boards by non-official Chairman, so far as their funds permitted, was on the whole satisfactory. Most of the non-official Chairmen showed keen interest in their work and devoted a considerable part of their time to the discharge of their onerous duties, even at the sacrifice of their professional interest. The members also evinced greater interest in the affairs of the Board. It is reported from one district that the meetings, which commence as a rule at about 2 or 3 p.m. often go on to a late hour of the night. Althouth the Boards have done a great deal of useful work during the year under review, their funds in most cases proved utterly inadequate to meet the many pressing demands upon their resources. The twenty-six District Boards of the province are primarily responsible for the health and convenience of a population of more than 42 millions in an area of 70,000 square miles. Their revenue in 1922-23 was a little more than 115 lakhs, which allows an expenditure of 4 annas 1 pie per head. With this paltry sum it is obviously impossible

to provide every facility for water supply, drainage, improved communications, education, sanitation and medical relief, etc., for which people in the urban areas pay nearly fifteen times as much. The question of augmenting the resources of District Boards was considered more than once at the annual conference of representatives of District Boards. The conference was opposed to any increase in the land cess but approved the proposal to levy a tax on carriages, including motor vehicles and upon persons attending melas as well as upon the owners of such melas. It also proposed that District Boards should be empowered to levy license fees on private markets. A Bill providing for these measures as well as other matters was introduced into the Legislative Council in August 1923. The income of District Boards will be slightly increased, if and when this Bill is passed into law, but the amount expected to be realized from these petty taxes will obviously be insufficient to meet the many pressing needs of the people. The remedy lies in the organization of local resources for which ample scope is afforded by Union Boards. The Bengal Village Self-Government Act was enacted with the express purpose of creating village organizations to deal with sanitation, rural water supply and such other village problems. It is hoped that the District Boards in districts, where Union Boards have not yet been formed, will realize this fact and make every endeavour to establish and develop Union Boards, as it is obviously impossible to protect the rural population from pestilence and disease without organising them into small village communities.

The Governor desires particularly to express his appreciation of the good work done by the following gentlemen and to thank them for their services :—

DEPARTMENT OF AGRICULTURE, BENGAL.

First Forecast of the Winter Rice Crop of Bengal, 1924-25.

(NOTE.—On an average of the five years ending 1922-23, the area under winter rice in Bengal has represented some 19·0 per cent. of the total area under rice in British India.)

Character of the season.—The weather at the beginning of the season was unfavourable for preparatory tillage and for sowing of broadcast paddy, which generally commenced late. From the latter part of April to the early part of May good weather prevailed, and agricultural operations were correspondingly facilitated thereby, but the subsequent hot-dry weather retarded the germination of broadcast paddy and delayed the sowing of seed-beds for transplanted paddy specially in West Bengal districts. With the break of the monsoon in the middle of June, the prospects of deep water paddy have revived in East and North Bengal, but elsewhere insufficient rainfall hampered field operations. Excessive rain and sudden rise of rivers in July and August have caused damage to deep-water paddy in certain low-lying tracts of East Bengal. Transplantation of winter paddy progressed favourably during these two months, although more rain was required in West Bengal. The rainfall during the early part of September was evenly distributed throughout the Province with the result that the growth of the crop has greatly improved especially in West Bengal. On the whole the crop is expected to be a fairly satisfactory one in East and West Bengal, while in Northern Bengal a normal crop is anticipated.

Acreage.—According to the figures returned by the District Officers, the total area under winter rice is 15,430,500 acres as compared with 14,383,000 and 14,954,400 acres in the corresponding and final forecasts of last year.

Outturn.—From the summary of the district returns appended, it will be seen that nine districts expect a normal crop, seven districts 95 to 83, six districts 85 to 70, and the rest below 75 per cent. of the normal crop. According to the above estimates the provincial outturn works up to 87 per cent. as against 84 and 85 per cent. of the normal estimated respectively in the first and the final forecasts of last year.

Director of Agriculture, Bengal (offg.).

APPENDIX I.

First Forecast of the Winter Rice Crop of Bengal, 1924-25.

District.	Estimated normal area under winter rice.	Estimated area under winter rice.		Estimated outturn as a percentage of the normal yield per unit of area.		Date by which the sowing of broadcasted winter rice commenced this year and whether that date was early, normal, or late.	Date by which the transplanting of winter rice commenced this year and whether that date was early, normal or late.	Remarks by District Officers.
		Last year (1923-24).	This year (1924-25).	Last year.	This year.			
	Acres.	Acres.	Acres.					
24-Parganas ...	840,600	743,100	709,600	83	75	End of April to end of June. Normal.	Middle of July to beginning of August. Late.	The decrease in area is due to want of rain and sowing of jute on lands previously sown with *aman* paddy. The weather has been unfavourable on the whole. The outturn is expected to fall below the normal for want of sufficient and timely rain.
Nadia ...	136,800	154,300	107,900	50	67	End of July. Late.	Beginning of August. Late.	The decrease in area is due to want of timely rain at the time of transplantation. The weather was not favourable at sowing time but has now become favourable. Damage by drought to the extent of 5 per cent. is reported from Ranaghat subdivision. The outturn is expected to fall below the normal for want of seasonable rain.
Murshidabad ...	351,400	214,000	278,400	58	92	End of June to middle of July. Normal in some places and late in others.	Middle of July to August. Generally late.	The increase in area is due to favourable weather at sowing time. The weather has been favourable and the growth of the crop good on the whole. The outturn is anticipated to fall a little below the normal owing to early cessation of rain.
Jessore ...	658,800	498,000	493,000	75	75	May. Normal	July. Late ...	The decrease in area is due to untimely rain. The character of weather is favourable and its effects on the crops are fair. Slight damage by flood is reported from some places.
Khulna ...	800,000	744,500	722,700	92	100	Middle of June. Normal.	Last part of July. Normal.	The decrease in area is due to submerging of *bil* areas preventing transplantation notably in thana Mollahat. The weather has been seasonable. The effect of weather on the crop is good. Slight damage by flood and insect has been reported.
Burdwan ...	731,100	653,700	735,100	75	100	End of May. Normal.	End of July. Late.	The increase in area is due to favourable monsoon. The weather was unfavourable for early sowing but since the end of July an ideal weather for the growth of paddy prevailed. The crop was affected in the beginning by drought, but the condition has improved with the break of monsoon.
Birbhum ...	604,700	441,200	446,100	50	67	June. Normal	July. Normal.	The increase in area is due to better rainfall in comparison with last year. The weather has generally been favourable though in certain places the crop suffered from bad weather at sowing time. The outturn is expected to fall below the normal for want of rain at the time of transplantation.
Bankura ...	644,300	595,000	550,000	75	75	.....	25th July. Late.	The decrease in area is due to late rainfall. The weather at present is good though there was scanty rainfall in the beginning. The outturn is expected to be below the normal owing to late transplantation.
Midnapore ...	1,537,100	1,530,000	1,450,000	83	83	July. Late ...	End of August. Late.	The decrease in area is due to protracted drought during sowing time. The weather is now fair and the outturn is hopeful.
Hooghly ...	352,100	199,400	182,400	75	67	June and July. Late.	July and August. Late.	The decrease in area as compared with that of last year is due to unfavourable weather condition at the sowing time and inadequate rainfall at the time of transplantation. The weather has now become favourable. The outturn is apprehended to fall below the normal owing to want of sufficient rainfall.
Howrah ...	117,000	94,500	92,700	53	75	Middle of July. Late.	End of July. Late.	The decrease in area is due to late monsoon. The weather was not favourable at the sowing time but has now become favourable. Some damage has been caused by drought.
Rajshahi ...	822,700	675,000	693,900	58	100	April. Normal.	July. Normal	The increase in area is due to favourable weather at sowing time. The weather has been fairly favourable. The outturn is expected to be normal.
Dinajpur ...	1,035,300	700,000	937,700	45	87	First part of June.	First week of July. Early.	The increase in area is due to favourable weather condition this year. The weather has been favourable and the growth of the crops fair.

Jalpaiguri ...	467,400	387,500	406,500	83	100	End of April. Normal.	First week of July.	The increase in area is due to favourable weather at sowing time. The weather has been favourable and a normal outturn is expected.
Darjeeling ...	30,800	25,100	25,500	92	100	15th June ...	.....	The increase in area is due to timely rain. The weather has been favourable.
Rangpur ...	692,000	435,600	575,600	68	100	Middle of May. Normal.	Middle of June. Normal.	The increase in area as compared with that of last year is due to sufficient rainfall at the sowing time. The weather has been favourable and hence a bumper crop is expected.
Bogra ...	361,200	267,200	331,000	49	100	April. Late	July. Normal	The increase both in area and outturn is due to seasonable rainfall.
Pabna ...	404,200	396,100	397,100	67	83	Latter part of April. Late.	.....	The weather was not quite favourable at the sowing time and the continued drought for some time after the sowing retarded the growth of the crop. The outturn is expected to fall below the normal and damage to the extent of about two annas of the crop has been caused by drought and sudden rise of rivers.
Malda ...	304,000	170,000	266,000	55	100	Middle of May. Normal.	Middle of July. Normal.	The increase in area is due to timely rainfall. The weather condition has been favourable. The outturn is expected to be normal.
Dacca ...	2 672,400	681,800	691,500	100	88	April. Normal	August. Late	The slight increase in area is due to corresponding decrease in area under jute. The weather was favourable at the beginning, but subsequently sudden rise of water retarded the growth of the crop and caused some damage. The outturn is therefore expected to fall below the normal.
Mymensingh ...	1,455,500	1,327,800	1,331,500	75	75	April to June. Normal.	July to August	The weather has been generally fair. It was wet at sowing time. Subsequently it was very dry for some time and afterwards it has been too wet. Damage to the extent of 10 per cent. is reported from the Netrakona subdivision.
Faridpur ...	759,900	700,200	702,000	94	80	March and April. Normal.	.....	The sowing was late in some places owing to drought. Subsequently the condition was favourable. The outturn is anticipated to fall below the normal due to sudden rise of water and heavy rains.
Bakarganj ...	1,300,000	1,372,000	1,374,000	100	100	April and May. Normal.	August. Late	The increase in area is due to more reclamation of new *chars* and forests. The weather was not favourable at sowing time for want of regular distribution of rain. The seedlings have suffered much by the flood and heavy rains which have also caused much damage to the broadcasted winter rice. The weather has not been favourable and a normal outturn is expected.
Chittagong ...	425,000	429,000	429,000	92	92	Last part of April to July. Normal.	August. Normal.	The weather has now been unfavourable; some damage has been caused by floods and hence the outturn is apprehended to fall below the normal.
Tippera ...	787,000	795,800	814,600	92	75	April Late	Ditto ...	The increase in area is due to decrease in area under jute cultivation owing to unfavourable weather condition. Damage to the extent of about three annas has been caused partly by drought and flood and partly by water hyacinth. The outturn is expected to fall below the normal.
Noakhali ...	705,000	630,500	643,000	100	83	April and May. Normal.	July and August. Normal.	The increase in area is due to timely rainfall. Weather was favourable in the beginning. Some damage was done to the crop in the Feni subdivision by floods.
Chittagong Hill Tracts.	50,000	43,400	43,700	83	67	Third week of June. Late.	Last week of July. Late.	The weather condition was promising early in the season and its effect on the crop is good. Damage to the extent of eight annas has been caused by floods. Hence the outturn is expected to be below the normal.

DEPARTMENT OF AGRICULTURE, BENGAL.

Second Forecast of the Cotton Crops of Bengal, 1924-25.

[NOTE.—On an average of the five years ending 1922-23, the area under the cotton crops in Bengal has represented some 0·2 per cent. of the total area under cotton in India.]

There are two crops—early and late. The "early" crop is chiefly grown in the Chittagong Hill Tracts and in the Tripura State and to a small extent in other districts. The "late" crop is grown in Bankura and Midnapore.

Character of the season.—As reported in the first forecast, the weather at the outset was not generally favourable owing to unequal distribution of rainfall. Subsequent rainfall generally improved the prospects of the crop and the present condition is reported to be fairly satisfactory on the whole.

Area sown.—The area sown with the early crop is reported to be 75,347 acres this year against 69,003 acres reported in the corresponding forecast of last year.

Of the late crop, an area of 857 acres is reported to have been sown this year against 1,837 acres reported in the corresponding forecast of last year.

Owing to high price, a larger area was put under the early crop this year.

CHAS. A. BENTLEY, *Director of Public Health, Bengal.*

CALCUTTA, *the 25th September 1924*

DISTRICT REPORTS ON WEATHER AND CROPS.

For the week ending on the 24th September 1924.

Summary.—During the week the rainfall was generally moderate to heavy in North and East Bengal while in West Bengal the fall was only light and scattered. Reaping of autumn paddy continues in places in West Bengal districts. Transplantation of winter paddy seedlings is almost over and weeding continues favourably. Cutting, steeping and washing of jute are much advanced. The standing crops are thriving well. Cultivation of lands for *rabi* crops has commenced in some districts. The average price of common rice for the Province has risen by about 3·68 per cent. as compared with that of the previous week.

NOTIFICATION.

No. 11259A.—The 26th September 1924.—Whereas the Commissioners appointed under rule 36 (*2*) (*a*) of the Bengal Electoral Rules to enquire into the petition presented by Babu Amulya Dhone Addy against the election of Mr. Byomkesh Chakravarti to the Bengal Legislative Council for the Bengal National Chamber of Commerce Constituency have, after due enquiry, reported to the Governor that the election of Mr. Byomkesh Chakravarti should be declared null and void and that Babu Amulya Dhone Addy should be declared to be duly elected;

Now, therefore, in exercise of the power conferred by rule 45 (*3*) of the said rules, the Governor is pleased to declare in accordance with the report of the Commissioners, the election of Mr. Byomkesh Chakravarti to be void and further declares Babu Amulya Dhone Addy to be the candidate duly elected.

The Governor is further pleased to order that, in accordance with the recommendations of the said Commissioners, Mr. Byomkesh Chakravarti shall bear all the costs of the petitioner.

The following report of the said Commissioners is published in accordance with the provision of rule 45 (*3*) of the said rules.

A. N. MOBERLY,
Chief Secretary to the Government of Bengal (offg.).

In the Court of the Commissioners appointed under Rule 36 (2) (a) of the Bengal Election Rules.

Election Case No. 45 of 1924.

Amulya Dhone Addy

versus

Byomkesh Chakravarti.

Report.

This election petition has come up again from the Bengal National Chamber of Commerce Special Constituency. A number of firms are members of the Bengal National Chamber of Commerce. When the electoral roll was prepared 118 firms or companies were put on the electoral roll of this Special Constituency while 62 persons were entered by their names as electors. In the general election which took place in November 1923, Mr. Byomkesh Chakravarti and Raja Reshee Case Law were declared duly elected.

Raja Reshee Case Law was accepted as having been duly elected. Mr. Amulya Dhone Addy, one of the defeated candidates, contested the election of Mr. Byomkesh Chakravarti on the ground, among others, that his name was not registered on the electoral roll of the constituency and that firms and companies were not 'persons' and were not entitled to be registered as electors within the meaning of the Bengal Election Rules and Regulations. It may be mentioned that Mr. Chakravarti's name did not appear on the electoral roll, though the Bengal National Bank, Limited, of which he is a director, was on the roll. After a prolonged hearing we came to the conclusion that the Legislature intended that it was a natural person who should have the right to be on the roll and to be entitled to vote or nominate or be a candidate. We held that the election of Mr. Chakravarti was null and void, and we recommended that there should be a fresh election to fill the vacancy so caused.

In accordance with our report the election of Mr. Chakravarti was declared void by a notification in the *Calcutta Gazettes*, dated the 19th March 1924. Thereafter by notification in the Gazette, dated the 28th April 1924, His Excellency the Governor called upon the constituency to elect a member to the Legislative Council on or before the 20th June 1924, in the vacancy caused thereby. Twelveth May 1924 was fixed for the last date for submission of nominations, and the 13th May 1924 as the date for scrutiny of nominations for the bye-election. No one had moved in the meantime for a revision of the defective electoral roll. On the 9th May, however, the Honorary Secretary to the Chamber wrote to the Registering Authority and he moved the Government for a revision of the electoral roll under the proviso to sub-rule (4) of rule 9 of the Bengal Electoral Rules. He mentioned that this had been done in the case of the Bengal Chamber of Commerce. He asked for instructions if the bye-election should be postponed. The reply of the Government, dated the 12th May, was that orders for a revision of the electoral roll were under issue, but that the bye-election will not be postponed but will proceed on the existing roll.

Four candidates submitted their nomination papers. At the scrutiny on the 13th May, Mr. Addy took objection to the validity of the nomination papers filed by Mr. Chakravarti and Mr. W. C. Banerjee on the grounds mentioned in our report, but the Returning Officer overruled the objection and accepted the nominations of all the four candidates, viz., Byomkesh Chakravarti, Amulya Dhone Addy, Muralidhar Roy and W. C. Banerjee. The Returning Officer issued ballot papers to firms and companies entered on the electoral roll. It appears that on the 19th May at the instance of Mr. Addy the Returning Officer asked for the interpretation by His Excellency the Governor of the term "elector" in the Regulations and on the 26th May 1924, the Government replied giving His Excellency's decision which was in accordance with our report. A reference was made again to Government, and we find that Government sent a telegram on 28th May :—" It is regretted that His Excellency's interpretation was not in time to prevent wrong issue of ballot papers, but I am to point out that it is not too late to enable you to reject ballot papers received from persons who are not electors."

The Returning Officer thereupon rejected 88 ballot papers which were furnished by firms or companies but counted the votes of natural persons and declared the result as follows :—

M. Byomkesh Chakravarti	26
Mr. Muralidhar Roy	15
Mr Amulya Dhone Addy	15
Mr. W. C. Banerjee	nil.

Mr. Chakravarti was declared duly elected, and this was published in the *Calcutta Gazette*.

Mr. Addy then filed his present petition in which he contends that Mr. Chakravarti's nomination is invalid and illegal. He claims that he obtained a majority of lawful votes and that he should, therefore, be declared as the duly elected candidate. Mr. Muralidhar Roy has filed a counter petition to the effect that if Mr. Chakravarti's election is declared invalid he should be declared to be the duly elected candidate as he has a majority of votes. In his petition Mr. Addy claimed that 4 votes in his favour were wrongly rejected. Mr. Muralidhar Roy in his petition declared that they had been rightly rejected, and he in his turn claimed that one vote in his favour has been wrongly rejected by the Returning Officer. The Returning Officer was made a party in Mr. Addy's petition wherein certain reflections were made against him. He contends that he is not to blame and that he has been wrongly made a party and he asks for costs.

The following issues were raised in the case :—

(1) Have the Commissioners jurisdiction to try the petition ?
(2) Is Mr. Amulya Dhone Addy a firm ?
(3) Is it open to the petitioner to challenge the election in view of the Government notification calling for a fresh election and the letter of the Government, dated the 12th May 1924 ?
(4) Assuming that Mr. Chakravarti was not properly nominated can the petitioner claim the seat ?
(5) Were the 4 votes mentioned in the petition of Mr. Addy in paragraph 19 improperly rejected ?
(6) What are the valid votes which each of the candidates go ?

Issue No. 1.—It was on this ground that a petition was filed before His Excellency for the appointment of another set of Commissioners and an adjournment obtained on the first day on the plea that His Excellency had not passed any orders on the petition. We have been informed that His Excellency rejected the petition. The point is raised now that it is the trial court which must examine the question raised.

Mr. Bose raises the question that under section 101 (*3*) of the Government of India Act one of us (Rai Bahadur Girindra Nath Mukherjee) is not competent to be a Judge of the High Court by reason of the fact that he retired about three and-a-half years ago. A Judge of the High Court must be either ..... or a person having held judicial office not inferior to that of a Subordinate Judge for a period of not less than five years. Mr. Bose contents that "has held" has an element of continuity. He has referred to West's Grammar (Cambridge) and two English cases 2 De G. F. and J. page 542 and 10 Queen's Bench, page 283 and to Stroud for the proposition that the words mean that to be a High Court Judge the Rai Bahadur must have held office immediately before his appointment. In the English cases quoted, the question involved immediate relationship or liability to the object, and the meaning was arrived at by a reference to the context. "Has been" in English, however, is apparently used for both the present and past tense. In rule 36 (*2*) (*a*) of the Bengal Electoral Rules the qualification for a Commissioner is "who are or have been or are eligible to be appointed Judges of the High Court". "Who are or have been" clearly include those who were at one time High Court Judges. It seems to us that there is no reason to take the narrow view that a retired Subordinate Judge cannot be eligible for a High Court Judgeship. At the highest it is a very highly controversial point, and it is doubtful whether we, who are creatures of a special law, can hold that we have no jurisdiction. There is no patent defect. We have been sitting here since the beginning of the year, and have now tried several cases. No objection has been raised hitherto. Even if we thought, therefore, that there was any defect in our jurisdiction, we would have to come to the "lame and impotent conclusion" which their Lordships of the Allahabad High Court came to in 16 All. page 136 and hold that the presumption is that we have been duly appointed.

Issue No. 2.—Mr. Bose gave up this issue.

Issue No. 3.—Mr. Bose appearing for Mr Chakravarti does not attempt to traverse our findings in the previous case. He seeks to distinguish the present case on the strength of the Government letter, dated 12th May referred to above. The argument is that it was known that the roll was defective, yet inspite of it Government directed the Returning Officer to proceed on the existing roll for the bye-election. Did His Excellency, want to disenfranchise ⅔rds of the electors is the question asked. Prayer is made that at least the bye-election should be set aside and a fresh election ordered.

The Local Government could have ordered a revision of the roll, but it was also open to the constituency to have moved earlier in the matter, and it is not explained why this was not done. It is possible that some mistake has been made somewhere. We appreciate the hardship caused to Mr. Chakravarti by being twice elected from the constituency and twice rejected. It is not for us, however, to question the reasons which led His Excellency to proceed with the election on the existing defective roll. The authorities must decide the time for the election. The election having taken place we have to decide who ought to be declared duly elected. We cannot put back the constituency now to the time when we decided the first election petition and treat the whole proceedings of the bye-election as a nullity. The facts disqualifying Mr. Chakravarti still exist, and we do not see how we can hold that he was duly nominated. Mr. Bose wishes us to regard the Government letter of the 12th May 1924 as a pronouncement under rule 48, *i.e.*, as an interpretation of the rules by the Governor. We find it quite impossible to regard the letter in this light. There was no reference on any question of interpretation of the rules, and it cannot possibly be said that by the remark as to the old roll His Excellency meant to imply that all the entries therein were correct and that Mr. Chakravarti could stand on the strength of any such entry. The letter points out an obvious fact that as the election cannot await the preparation of a new roll it must proceed on the basis of the old one. The meaning was that it should proceed on the old roll so far as it was valid. This is well established by the subsequent correspondence related above. It is somewhat of a surprise that after his election was set aside Mr. Chakravarti should think that he could again stand for nomination on the basis of the old roll.

Mr. Bose quoted the case of Pembroke Boroughs reported in O'Malley and Hardcastle Vol. 5. Some men remained on the register for the borough though they should have been put on the register for the county. The votes were allowed to stand because there was no question that they were qualified to vote. Here as we remarked before, the defect goes to the very root of the matter. Mr. Chakravarti's name not being on the roll he cannot stand for election.

Issue No. 4.—It was argued that Mr. Chakravarti cannot raise the question without filing a petition of recrimination. An observation of Baron Martin (Fraser, page 225) was quoted :—"He may be unable to protect his own seat; has he not a right to show that you are not entitled to it?" Mr. Chakravarti cannot give evidence without filing a petition of recrimination, but we do not think that we should be stopped from examining this question if it arises out of the facts of the case. The question is raised on the ground that it is a defective roll and on the ground that the 26 votes given for Mr. Chakravarti cannot be thrown away. It is argued that the electors had no notice. The

cases in 3 Queen's Bench, pages 629, and 3 Law Times Report, page 667 were quoted. Our judgment was published in the Gazette. If it be said that everyone does not read the Gazette, the obvious answer is that it is a small electorate of intelligent business men, and any slight enquiry why the first election was set aside must have revealed the defect. A revision of the roll was asked for though late. The electors must be considered to have known the position very well. There is a well established distinction between a candidate disqualified *ab initio* and a candidate who is subsequently found incapable of election. Notice is necessary in the latter case. The case in 9 Common Pleas (quoted by Parker, pages 273), *i.e.*, the case of Drinkwater distinguished the case quoted by Mr. Bose, viz., 3 Queen's Bench, page 629. The electors must have known that it had been held that Mr. Chakravarti was disqualified. The votes given by them must be treated as nullities. The case in 23 Queen's Bench, page 72 (Beresford and Lady Sandhurst) is apposite. We hold, therefore, that Mr. Addy can claim the seat on the basis of the bye-election which has taken place.

Issues Nos. 5 and 6.—Mr. Addy claimed four more votes in his petition. Mr. Biswas appearing for him gave up one vote, viz., the one mentioned in para 19(3). Evidence was taken in respect of the other three votes. It appears that Pratap Chandra Ganguly did not sign the ballot paper. It was argued that under Regulation LVII absence of signature was not a ground for rejecting the vote. The Returning Officer was not in a position to know in the absence of signature whether the particular elector had exercised his vote or not. The ballot paper was not completed. The Returning Officer was, therefore, right in rejecting the vote.

The other two votes must be taken into consideration. Tribhuban Das Heerachand shown in the roll as such, signed his name as Tribhuban Heerachand. He has been examined. Mr. Chetty K. V. R. M. Ramanathan was described in the roll as "Messrs." instead of "Mr." by the placing of the mark" (ditto) under the name of a firm so described and his vote was rejected as a company vote. He has deposed that he does business for himself alone. Obviously "Messrs." has been put down by mistake. It is argued that there is no misnomer clause as in the Representation of People's Act, 1918, and that mistakes cannot be corrected here. We follow the principles of English Law, however, in our decisions. The case of Moorhouse *versus* Linney, 15 Q.B.D., page 237, was quoted, but a different decision was given in Bowden *versus* Bisley, 21 Q.B.D., page 309. There is also the case in 23 Q.B.D., page 136. The roll is conclusive, but evidence can be given that a man had the right to exercise his vote. In the Oldham case (1 O'Malley and Hardcastle, page 153) Bradshaw was wrongly entered as William Mills. It was held that if a person was called by a wrong name in the register, it raised a difficulty, but he could show that he was really the man. There is the Exeter case reported in 6 O'Malley and Hardcastle. William John Langmead was on the register, but it was proved that he had left the place three years ago. Earnest Langmead was the occupier and really entitled to vote, and he voted in the honest belief that he had a right to vote. His vote was counted. We hold, therefore, that these two votes should be accepted and that Mr. Addy polled 17 votes.

The vote given by Gour Charan Law for Mr. Muralidhar Roy was rejected on the ground that the signature is illegible. We have examined the ballot paper and the counterfoil and we consider that there is no difficulty in holding that he voted for Mr. Muralidhar Roy. We hold, therefore, that this vote should be counted and that therefore Mr. Roy polled 16 votes in the bye-election. Mr. Addy has thus a majority of one. In the circumstances mentioned above we hold that the election of Mr. Byomkesh Chakravarti should be declared null and void and Mr. Amulya Dhone Addy declared duly elected.

The Returning Officer maintains that he is not a necessary party. There is no provision in our law to join him as a party. We do not think, however, that in the circumstances of the case we can direct the petitioner to pay him his costs

We think the petitioner should get his costs in this case from Mr. Chakravarti. There was an adjournment for one day on his Counsel promising to pay the costs for that day. We recommend that Mr. Chakravarti should pay all the costs of the petitioner, the pleader's fees being estimated on the whole at Rs. 600.

RESOLUTION.

The following paper is published for general information :—

3, BANK BUILDINGS,
Princes Street, E.C. 4.

Memorandum for the guidance of applicants for grants under section 2 of the Trade Facilities Act, 1924.

I. In accordance with section 2 of the Trade Facilities Act, 1924, arising out of the discussions at the Imperial Conference, the Treasury are authorised, subject to certain terms and conditions, to make a contribution of an amount not exceeding three-quarters of the interest payable in the first five years of the currency of a loan raised in the United Kingdom by or on behalf of any Public Utility undertaking in any part of His Majesty's Dominions. All payments under this section will be made to the Government of that part of His Majesty's Dominions. In no case will the Treasury contribution be paid direct to any company or Municipality.

II. *The Capital sum on which the contribution is based will be limited to the cost of the materials to be purchased and manufactured in the United Kingdom.*

III. The Treasury have set up a Committee to advise them of the cases in which they can properly make contributions. The Committee consists of representatives of the Treasury, the Board of Trade, the Colonial Office, and the India Office.

IV. The Committee think it useful to indicate broadly the information which will be required at the outset :—

A. Details of the scheme with information as to the total cost and the part of the total cost in respect of which assistance is required, and information as to the economic justification or desirability of the project.

B. Evidence to show that the whole scheme can be financed, particulars of the orders to be placed in the United Kingdom, and evidence that the prices to be paid for the same are fair and reasonable.

C. Evidence that the scheme is approved by the Government concerned and that the expenditure involved in the scheme is in anticipation of expenditure which would normally have been incurred at a later date.

V. In order that the Government concerned may be fully informed and their approval to the scheme obtained without unnecessary delay, a duplicate copy of the application should be sent to the Government at the same time as application is made to the Committee.

VI. In the event of the Committee in their discretion requiring legal or technical advice in the consideration of any application, the cost of obtaining such advice will have to be met by the applicant.

VII. In accordance with the Trade Facilities Act, 1924, the Committee wish to point out that this scheme is available only in respect of Public Utility undertakings which are defined as undertakings for providing and / or improving communications, drainage or irrigation, or for providing power, lighting or water. The Committee also wish to point out that the Act requires that the Treasury contribution shall be confined to loans raised in the United Kingdom. Particulars of the total amount and terms of the proposed loan, showing how such is to be obtained, will be required by the Committee.

VIII. The attention of applicants is also drawn to the following over-riding conditions :—

1. The total sum payable by the Treasury must not exceed £1,000,000 in any one year.
2. The total sum payable by the Treasury must not exceed £5,000,000 in all.
3. No undertaking by the Treasury to give assistance can be given after three years from the commencement of the Trade Facilities Act, 1924, *i.e.*, after 14th May, 1927, or in respect of a loan to be raised thereafter.

IX. All applications should be addressed to the Secretary of the Committee at the Trade Facilities Act Offices, 3 Bank Buildings, Princes Street, London, E.C. 4, Telephone Number City 3151, Telegraphic address Faciltrade Stock London. Cable address Faciltrade London.

ORDERED that a copy be forwarded to all Local Governments, to the Finance, the Foreign and Political, the Industries and Labour and the Railway Departments and to the Director General of Commercial Intelligence, the Indian Trade Commissioner and the High Commissioner for India in the United Kingdom.

ORDERED also that the Resolution be published in the Supplement to the *Gazette of India.*

G. L. CORBETT,
Secretary to the Government of India (offg.).

Notice.

THE Bengal and Madras Service Family Pension Fund which is provisionally managed and assisted by Government has for its object the provision of monthly pensions for the maintenance of the widows and children of subscribers and is open, with certain exceptions, to all active and pensioned members of the Uncovenanted Service of Government (except those serving under the Government of Bombay), and to Local Fund servants earning pensions from Government. Some of the special features of the fund are—(1) that widowed daughters incapable of remarriage or children labouring under such mental or bodily infirmities as incapacitate them from earning their livelihood or preclude the possibility of marriage (in case of a daughter) are admitted to its benefits; and (2) that subscribers to the Widows' and Daughters' branches are entitled to a refund of 30 per cent. of the premia paid, should the nominees predecease them after five years of admission. The second quinquennial valuation of the fund has been completed by the Actuary to the Government of India and his report discloses very favourable results. For forms of application and rules of the Fund apply to the Accountant-General, Central Revenues, Imperial Secretariat Buildings, Calcutta.

Lost or Stolen.

THE upper half of the Government Promissory Note No. K000662 of the 5½ per cent. loan repayable 1928 for Rs. 25,000, originally standing in the name of the Bank of Bengal, and last endorsed to the Imperial Bank of India, the proprietor, by whom it was never endorsed to any other person, having been lost or stolen, notice is hereby given that payment of the above note and the interest thereupon have been stopped at the Public Debt Office, Imperial Bank of India, Calcutta, and that application is about to be made for the issue of duplicate in favour of the proprietor. The public are cautioned against purchasing or otherwise dealing with the above-mentioned security.

Bills introduced in the Council of State and Legislative Assembly, Reports of Select Committees presented to the Council and Assembly and Bills published under Rule 18 of the Indian Legislative Rules.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Bill was introduced in the Council of State on the 3rd September 1924 :—

No. 6 OF 1924.

A Bill to amend and consolidate the law relating to Government and other Provident Funds.

WHEREAS it is expedient to amend and consolidate the law relating to Government and other Provident Funds; It is hereby enacted as follows :—

Short title, extent and commencement.

1. (*1*) This Act may be called the Provident Funds Act, 192 .

(*2*) It extends to the whole of British India, including British Baluchistan.

(*3*) It shall come into force on such date as the Governor-General in Council may, by notification in the *Gazette of India*, appoint.

Definitions.

2. In this Act, unless there is anything repugnant in the subject or context,—

(*a*) "compulsory deposit" means a subscription to, or deposit in, a Provident Fund which, under the rules of the Fund, is not, until the happening of some specified contingency, repayable on demand otherwise than for the purpose of the payment of premia in respect of a policy of life insurance, and includes any contribution credited in respect of any such subscription or deposit and any interest or increment which has accrued under the rules of the Fund on any such subscription, deposit or contribution, and also any such subscription, deposit, contribution, interest or increment remaining to the credit of the subscriber or depositor after the happening of any such contingency;

(*b*) "contribution" means any amount credited in a Provident Fund, by the authority by which the Fund has been constituted, by way of addition to, or otherwise in respect of, a subscription to, or deposit in, the Fund; and "contributory Provident Fund" means a Provident Fund the rules of which provide for the crediting of contributions;

(*c*) "dependant" means any of the following relatives of a deceased subscriber to, or a depositor in, a Provident Fund, namely, a wife, husband, parent, child, minor brother, unmarried sister and a deceased son's widow and child, and, where no parent of the subscriber or depositor is alive, a paternal grandparent;

(*d*) "Government Provident Fund" means a Provident Fund, other than a Railway Provident Fund, constituted by the authority of the Government for any class or classes of its employees or for teachers in educational institutions;

(*e*) "Provident Fund" means a fund in which subscriptions or deposits of any class or classes of employees are received and held on their individual accounts, and includes any contributions credited in respect of such subscriptions or deposits and any interest or increment accruing on such subscriptions, deposits or contributions under the rules of the Fund;

(*f*) "railway administration" means—

(*i*) any company administering a railway or tramway in British India either under a special Act of Parliament or of the Indian or a local Legislature, or under contract with the Secretary of State for India in Council, the Governor-General in Council or a Local Government, or

(*ii*) the manager of any railway or tramway administered by the Governor-General in Council or a Local Government,

and includes, in any case referred to in sub-clause (*ii*), the Governor-General in Council or the Local Government, as the case may be;

(*g*) "Railway Provident Fund" means a Provident Fund constituted by the authority of a railway administration for any class or classes of its employees.

Protection of compulsory deposits.

3. (*1*) A compulsory deposit in any Government or Railway Provident Fund shall not in any way be capable of being assigned or charged and shall not be liable to attachment under any decree or order of any Civil, Revenue or Criminal Court in respect of any debt or liability incurred by the subscriber or depositor, and neither the Official Assignee nor any receiver appointed under the Provincial Insolvency Act, 1920, shall be entitled to, or have any claim on, any such compulsory deposit. V of 1920.

(*2*) Any sum standing to the credit of any subscriber to, or depositor in, any such Fund at the time of his decease and payable under the rules of the Fund to any dependant of the subscriber or depositor, or to such person as may be authorised by law to receive payment on his behalf, shall, subject to any deduction authorised by this Act and, save where the dependant is the widow or child of the subscriber or depositor, subject also to the rights of an assignee under an assignment made before the commencement of this Act, vest in the dependant, and shall, subject as aforesaid, be free from any debt or other liability incurred by the deceased or incurred by the dependant before the death of the subscriber or depositor.

Provisions regarding repayments.

4. (*1*) When under the rules of any Government or Railway Provident Fund the sum standing to the credit of any subscriber or depositor, or the balance thereof after the making of any deduction authorised by this Act, has become payable, the

officer whose duty it is to make the payment shall pay the sum or balance, as the case may be, to the subscriber or depositor, or, if he is dead, shall—

(a) if the sum or balance or any part thereof vests in a dependant under the provisions of section 3, pay the same to the dependant or to such person as may be authorised by law to receive payment on his behalf; or

(b) if the whole sum or balance, as the case may be, does not exceed five thousand rupees, pay the same, or any part thereof which is not payable under clause (a), to any person nominated to receive it under the rules of the Fund, or, if no person is so nominated, to any person appearing to him to be otherwise entitled to receive it; or

(c) in the case of any sum or balance, or any part thereof, which is not payable to any person under clause (a) or clause (b), pay the same—

(i) to any person nominated to receive it under the rules of the Fund, on production by such person of probate or letters of administration evidencing the grant to him of administration to the estate of the deceased or a certificate granted under the Succession Certificate Act, 1889, or under the Bombay Regulation VIII of 1827, entitling the holder thereof to receive payment of such sum, balance or part, or VII of 1889

(ii) where no person is so nominated, to any person who produces such probate, letters or certificate:

Provided that, where the whole or any part of any sum standing to the credit of the subscriber or depositor has been assigned to any other person before the commencement of this Act, and notice in writing of the assignment has been received by the officer from the assignee, the officer shall, after making any deduction authorised by this Act and any payment due under clause (a) to or on behalf of the widow or children of the subscriber or depositor,

(i) if the subscriber or depositor or, if he is dead, the person to whom in the absence of any valid assignment the sum or balance would be payable under this sub-section gives his consent in writing, pay the sum or part of the balance thereof, as the case may be, to the assignee, or

(ii) if such consent is not forthcoming, withhold payment of the sum, part or balance as the case may be, pending a decision of a competent Civil Court as to the person entitled to receive it.

(2) The making of any payment authorised by sub-section (1) shall be a full discharge to the Government or the railway administration, as the case may be, from all liability in respect of so much of the sum standing to the credit of the subscriber or depositor as is equivalent to the amount so paid.

Rights of nominees.

5. (1) Subject to the provisions of this Act, but otherwise notwithstanding anything contained in any law for the time being in force or any disposition, whether testamentary or otherwise, by a subscriber to, or depositor in, a Government or Railway Provident Fund of the sum standing to his credit in the Fund, or of any part thereof, any nomination, duly made in accordance with the rules of the Fund, which purports to confer upon any person the right to receive the whole or any part of such sum on the death of the subscriber or depositor, shall be deemed to confer such right absolutely, until such nomination is varied by another nomination made in like manner or is expressly cancelled by the subscriber or depositor by notice given in such manner and to such authority as is prescribed by those rules.

(2) Notwithstanding anything contained in the Succession Certificate Act, 1889, of the Bombay Regulation VIII of 1827, any such person shall, on the death of the subscriber or depositor, be entitled to the grant of a certificate under that Act or that Regulation, as the case may be, entitling him to receive payment of such sum or part, and such certificate shall not be deemed to be invalidated or superseded by any grant to any other person of probate or letters of administration to the estate of the deceased. VII of 1889

Power to make deductions.

6. When the sum standing to the credit of any subscriber or depositor in any Government or Railway Provident Fund which is a contributory Provident Fund becomes payable, there may, if the authority by which the Fund has been constituted so directs, be deducted therefrom and paid to that authority—

(a) any amount due under a liability incurred by the subscriber or depositor to that authority, but not exceeding in any case the total amount of any contributions credited to the account of the subscriber or depositor and of any interest or increment which has accrued on such contributions; or

(b) where the subscriber or depositor has been dismissed from the employment of that authority, or where he has resigned such employment within five years of the commencement thereof, the whole or any part of the amount of any such contributions, interest and increment.

Protection for acts done in good faith

7. No suit or other legal proceeding shall lie against any person in respect of anything which is in good faith done or intended to be done under this Act.

Power to apply the Act to other Provident Funds

8. The Local Government may, by notification in the local official Gazette, direct that the provisions of this Act shall apply to any Provident Fund established for the benefit of its employees by any local authority within the meaning of the Local Authorities Loans Act, 1914, and, on the making of such declaration, this Act shall apply accordingly, as if such Provident Fund were a Government Provident Fund and such local authority were the Government. IX of 1914

Saving as to estates of soldiers

9. Nothing in section 4 or section 5 shall apply to money belonging to any estate for the purpose of the administration of which the Regimental Debts Act, 1893, applies. 55 & 56 Vict., 57

Repeals

10. The enactments mentioned in the Schedule are hereby repealed to the extent specified in the fourth column thereof.

THE SCHEDULE.

ENACTMENTS REPEALED.

(*See section 10.*)

Year.	No.	Short title.	Extent of repeal.
1897	IX	The Provident Funds Act, 1897.	So much as has not been repealed.
1903	IV	The Provident Funds (Amendment) Act, 1903	The whole.
1914	X	The Repealing and Amending Act, 1914.	So much of the Second Schedule as relates to the Provident Funds Act, 1897.
1919	XIV	The Provident Funds (Amendment) Act, 1919.	The whole.
1920	XXXVIII	The Devolution Act, 1920.	So much of the First Schedule as relates to the Provident Funds Act, 1897.

STATEMENT OF OBJECTS AND REASONS.

The Provident Funds Act at present provides that any sums standing to the credit of depositors in Provident Funds to which the Act applies at the decease of the depositor and which are payable, under the rules of the Fund, to the widow or children of the deceased shall vest in such widow or children. Such sums do not, therefore, form part of the estate of the deceased, and the interest of the widow or children are thereby fully protected. It is considered that this provision is unduly restrictive, and that the same degree of protection should be accorded to other dependants of the deceased besides his widow and children Otherwise the accumulations of a depositor, who dies before such accumulations are disbursed to him, may be held to be liable to meet the debts of the deceased, and the object of the Provident Fund in question may be frustrated.

2. The Act protects compulsory deposits in a Provident Fund from attachments but not from assignments which may have been made to take effect on the depositor's retirement or on his death. On the other hand, the rules regulating the General Provident Fund, which is one of the most important funds to which the Act applies, provide that Government will not be bound by or recognize any assignment or encumbrance executed or attempted to be created which affects the disposal of the accumulations of a depositor who dies before retirement. The validity of this provision is open to question. It is considered that, in order to give effect to the object for which Provident Funds have been constituted, it should be made clear, that, with certain exceptions, in spite of debts, liabilities, assignments or any form of encumbrance, the depositor, on retirement, or his dependants or nominees, if he dies before retirement or after retirement but before actual disbursement, should receive intact the accumulations at his credit in the fund. The exceptions proposed to this provision are as follows :—

(*i*) the rights of third parties obtained before the proposed amendment comes into operation should be protected ; and

(*ii*) in the case of contributory Provident Funds, the authority by which the fund was constituted should be entitled to withhold amounts not exceeding the total contributions made by the authority and the interest or incr ment on such contributions, if those amounts are due to the authority under a liability incurred by the depositor, or if the depositor is dismissed from the authority's employment or resigns his employment within five years of the commencement thereof.

3. Again, under the Act as it stands, apart from the amounts which vest in the widow or children of a depositor, the disbursement of the accumulations in a fund at the time of the death of a depositor is impossible if the total assets exceed Rs. 2,000 without the production of probate or letters of administration or a succession certificate. It is considered desirable to permit such disbursement of the accumulations if the amount does not exceed Rs 5,000 instead of Rs. 2,000 at present. A corresponding provision is contained in the Government Savings Bank Act under which the amount of a deposit which can be disbursed in this manner is Rs. 3,000 as compared with Rs. 1,000 before the Act was amended in 1917. Similarly, under the Indian Securities Act, 1920, on the death of a person who was entitled to a Government security or securities, the prescribed officer may now determine who is the person entitled to the security or securities, if they do not in the aggregate exceed Rs. 5,000, without the production of probate, letters of administration or a succession certificate.

4. It has further been considered desirable to provide definitely in the Act for the rights of nominees and also to indicate that a deposit is a compulsory deposit within the meaning of the Act and continues to be so for so long as it remains in the hands of the administrators of the fund despite the existence of an option permitting withdrawal from the fund on the condition that the amount withdrawn shall be expended on the taking out of, or on contributions towards, an insurance policy.

5. In order to give effect to these suggestions and also to certain other minor points, it is considered desirable to amend the existing Act and to re-enact it in a consolidated form.

DEPARTMENT OF AGRICULTURE, BENGAL.

Second Forecast of the Sugarcane Crop of Bengal, 1924-25.

(*Note.*—On an average of the five years ending 1922-23, the area under sugarcane in Bengal has represented some 7·7 per cent. of the total area under sugarcane in British India.)

Character of the season.—As indicated in the first forecast, the weather was generally unfavourable at planting time owing to drought and high temperatures. With the break of the monsoon in the middle of June the prospects of the crop have improved. Damage was caused by excessive rain and flood in some East Bengal districts. The present condition is reported to be fair, on the whole.

Area planted.—The total area planted with the crop for the Province is reported to be 205,700 acres this year as against 209,900 and 201,900 acres (revised) reported, respectively, in the corresponding and final forecasts of last year.

Outturn.—According to the estimates of District Officers, the average outturn of the crop for the Province works out at 78 per cent. of the normal this year as against 85 and 80 per cent., respectively, in the corresponding and final forecasts of last year.

Condition figure.—The condition figure for the cane crop is estimated at 78 per cent. as against a ten years' average of 83·7 per cent. This means that the condition of this year's crop is equal to about 93 per cent. of the ten years' average.

R. S. FINLOW,
Director of Agriculture, Bengal (offg.).

APPENDIX.

Second Forecast of the Sugarcane crop of Bengal, 1924-25.

District.	Estimated normal area under sugarcane.	Estimated area under sugarcane.		Estimated outturn as a percentage of the normal yield per unit of area.		Date by which the planting of setts generally commenced this year, and whether that date was early, normal or late.	Remarks by District Officers.
		Last year.	This year.	Last year.	This year.		
1	2	3	4	5	6	7	8
	Acres.	Acres.	Acres.				
24-Parganas	4,600	1,400	1,400	58	75	End of January to middle of April. Normal.	The weather is unfavourable on the whole.
Nadia	7,900	5,700	6,500	67	67	Middle of January Normal.	The increase in area is due to high price of molasses that prevailed last year. The weather was unfavourable at planting time and the crop suffered much for want of rain but the recent rains have improved the growth.
Murshidabad	3,600	3,200	3,300	50	75	End of November to middle of May. Normal.	The increase in area is due to favourable weather condition at planting time Subsequently there was drought in the intermediate stage but at present effects of weather on the growth of the crop are fair on the whole.
Jessore	5,200	3,200	2,500	75	66	January and February. Normal.	The decrease in area was due to insufficient rainfall at planting time. Subsequent rain has improved the growth of the plants. The effects of weather on the growth of the crop are favourable on the whole.
Khulna	1,500	700	400	67	67	February. Normal ...	The decrease in area is partly attributed to want of timely rain. The character and effects of weather on the growth of the crop are fair.
Burdwan	11,600	17,000	13,500	83	75	Beginning of April and in some parts in the first week of May. Normal.	The decrease in area is due to insufficient rainfall at the time of planting. The cultivation and growth of the crop were in the beginning affected by drought but with the break of monsoon the weather has become favourable and the recent rains have improved its condition.
Birbhum	9,800	9,000	6,000	83	75	Middle of May. Normal.	The decrease in area is due to want of rain at planting time. The weather is now more favourable towards the growth of the crop.
Bankura	3,100*	3,000*	2,100	83	83	April and May. Normal.	The decrease in area is due to scarcity of rain at the time of planting The character of the weather is now favourable and its effects on the growth of the crop are fair.
Midnapore	6,600	5,700	6,400	75	67	March. Late	The increase in area is due to extended cultivation on account of high price of *gur*. The weather and its effects on the growth of crop are not favourable.
Hooghly	8 200	3,700	3,500	67	75	March. Normal ...	The decrease in area is due to unfavourable weather condition at the time of planting. Want of adequate rain after cultivation stunted the growth of the crop. But since the break of monsoon condition has however become comparatively favourable.
Howrah	5,200	3,900	3,800	47	56	January to March. Normal.	The decrease in area is due to want of timely rain. The character of the weather has improved at present and its effects on the growth of the crop are beneficial on the whole.
Rajshahi	7,500	5,500	6,000	83	100	January Normal ...	The increase is area is due to extensive cultivation in the Naogaon subdivision owing to good market. The weather was unfavourable at the planting time owing to scarcity of rain, but is favourable now.

Pabna	5,000	3,500	5,000	67	67	Middle of April. Normal.	The increase in area is due to high price of sugar. The weather was not favourable at the planting time and the continued drought for some time after the planting retarded the growth of the crop. The weather is now favourable
Malda	300	300	200	75	75	Middle of May. Late	The decrease in area is due to continued drought at planting time. The weather is favourable at present.
Dacca	21,100	20,000	20 200	88	80	Latter part of February. Late.	The slight increase in area is due to high price of sugar. Prolonged drought at the sowing time retarded the growth of the crop.
Mymensingh	11,100	7,000	15,500	60	75	Generally in April to May. Normal.	The increase in area is due to increase in cultivation in certain thanas of the Kishoreganj subdivision The weather was not favourable at the start There was however some improvement in the middle of the season but recently the rise of water is doing much injury The effects of the weather on the growth of the crop is fair on the whole.
Faridpur...	7,400	6,900	6,900	89	85	January. Normal	The weather was favourable at the planting time, but subsequent drought retarded the growth of the crop.
Bakarganj	18,800	29,000	29,500	75	83	January and February. Normal	The increase in area is due to high price of gur. The weather was favourable at planting time but subsequent heavy rains and flood have retarded the growth of the crop. Damage by stem borer is reported from different places.
Chittagong	5,300	6,000	6,000	92	92	February and March Normal.	The weather at planting time was favourable and its effects on the growth of crop are fair.
Tippera	6,100	6,000	4 100	92	83	April. Late (except in Chandpur where it commenced in January).	The decrease in area is due to want of timely rainfall The weather has not been favourable owing to want of rain at planting time and to excessive rain afterwards which has affected the growth of the crop.
Noakhali...	800	900	1,200	92	92	First part of April Normal	The increase in area is due to high prices of molasses. The weather at planting time was not favourable and some damage was done by heavy rains

Notice.

THE Bengal and Madras Service Family Pension Fund which is provisionally managed and assisted by Government has for its object the provision of monthly pensions for the maintenance of the widows and children of subscribers and is open, with certain exceptions, to all active and pensioned members of the Uncovenanted Service of Government (except those serving under the Government of Bombay), and to Local Fund servants earning pensions from Government. Some of the special features of the fund are—(1) that widowed daughters incapable of remarriage or children labouring under such mental or bodily infirmities as incapacitate them from earning their livelihood or preclude the possibility of marriage (in case of a daughter) are admitted to its benefits ; and (2) that subscribers to the Widows' and Daughters' branches are entitled to a refund of 30 per cent. of the premia paid, should the nominees predecease them after five years of admission. The second quinquennial valuation of the fund has been completed by the Actuary to the Government of India and his report discloses very favourable results. For forms of application and rules of the Fund apply to the Accountant-General, Central Revenues, Imperial Secretariat Buildings, Calcutta.

No. 491-H.—In consequence of the misconduct of Probodh Chandra Mukerji, late stenographer, Foreign and Political Department, Government of India, he is hereby deprived of the title of Rai Sahib, which was conferred upon him, as a personal distinction, in the notification of the Government of India in the Foreign and Political Department, No. 2764-I.C., dated the 3rd June 1919.

J. P. THOMPSON,

Secretary to the Government of India.

FINANCE DEPARTMENT.

RESOLUTION.

Simla, the 1st October 1924.

No. F.-18-III-F.E.-24.—In exercise of the powers conferred by section 96B of the Government of India Act, the Secretary of State in Council, with the concurrence of the majority of votes at a meeting held on the 24th September 1924, hereby makes the following rules :—

INDIAN CIVIL SERVICE PROVIDENT FUND RULES.

Made by the Secretary of State in Council under section 96B of the Government of India Act.

Introduction and Definitions.

1.—(*a*) These rules may be called the Indian Civil Service Provident Fund Rules.

(*b*) They shall come into force with effect from the 24th September 1924.

2.—(*a*) In these rules :—

(*i*) *Account Officer* means the audit officer so designated, in the case of the rupee branch of the Fund, by the Auditor-General, and, in the case of the sterling branch, by the High Commissioner for India.

(*ii*) *Emoluments* means pay, leave-salary or subsistence grant, as defined by the Fundamental Rules.

(*iii*) *The Fund* means the Indian Civil Service Provident Fund.

(*iv*) *Leave* means any variety of leave recognised by the Fundamental Rules.

(*v*) *Year* means financial year.

(*b*) Any other expression employed in these rules which is defined in the Fundamental Rules is used in the sense therein defined.

Nature of the Fund.

3. The Fund shall be administered by the Governor-General in Council. It shall be open only to members of the Indian Civil Service, and shall be maintained in two branches, namely, a rupee branch located in India and a sterling branch located in London.

4. To each officer's account in the Fund shall be credited :—

(*a*) All contributions of 4 per cent. of his pay and other specified allowances, made and funded for his benefit, between the 1st April 1919 and the date on which these rules come into force.

(*b*) Interest on such contributions, calculated by the method, and at the rate prescribed in rule 12.

(*c*) All contributions made by the officer under these rules, together with interest on such contributions calculated as prescribed in rule 12.

Conditions and Rates of Contribution.

5. Every member of the Indian Civil Service shall contribute to the Fund not less than 4 nor more than 12½ per cent. of all emoluments drawn by him after these rules come into force :

Provided that—

(1) contribution shall be optional for members of the Executive Council of the Governor-General or of a Governor ;

(2) contribution on account of leave-salary drawn during leave preliminary to retirement shall be optional ; but an officer who, after electing not to contribute during a period of such leave, subsequently returns to duty, shall contribute at the rate of 4 per cent. on all leave-salary drawn during the leave ; and

(3) contribution shall be optional on account of subsistence grant, leave-salary equal to subsistence grant, or minimum leave-salary.

6. The amount to be contributed by each officer shall be fixed by the officer himself, subject to the provisions of rules 5, 7, 8 and 9 and to the following general conditions :—

(1) The amount shall be fixed in rupees if the officer's emoluments at the time of payment are drawn in rupees, and in sterling if his emoluments are drawn in sterling.

(2) If fixed in rupees, the amount shall be a number of complete rupees, and if fixed in sterling a number of complete shillings.

(3) If the amount fixed by an officer is, in relation to the emoluments on account of which it is contributed, either below the minimum or above the maximum percentage prescribed by Rule 5, the Account Officer shall presume that the contributor's intention was to contribute the minimum or the maximum, as the case may be, rounded off to the nearest rupee or shilling, and shall intimate to the contributor the amount to be paid by, or refunded to, him accordingly.

7. When any emoluments, other than leave-salary, are drawn from a Government treasury in India, the contribution on account of such emoluments shall be such amount as may be deducted by the officer on this account from the bill on which the emoluments are drawn.

8. When an officer is—

(*a*) transferred to foreign service in which he will not be drawing his pay from a Government treasury in India, or

(*b*) sent on deputation out of India,

he shall, before proceeding to join his new duty, intimate to the Account Officer the amount of his emoluments while on such foreign service or deputation, and the amount of the monthly contribution which he desires to make on account of those emoluments. When the amount of his emoluments is changed during the foreign service or deputation, the officer may intimate to the Account Officer a change in the amount of his contribution, and he shall intimate such a change when the existing amount falls, in relation to the changed emoluments, outside the limits prescribed by Rule 5.

Re-draft.

9. The amount of contribution on account of leave-salary shall be fixed by the following method :—

(*a*) Before departure on leave, every officer shall intimate to the Account Officer in India the amount which he desires to contribute monthly during his leave. He shall also intimate whether he wishes to contribute in the event of his drawing subsistence-grant, leave-salary equal to subsistence-grant, or minimum leave-salary. The amount in each case shall be a fixed percentage of the emoluments admissible to him during his leave. These particulars shall be entered in the officer's leave-salary certificate.

(*b*) An intimation thus made to the Account Officer shall be final, and no alteration of the percentage fixed shall be permitted during the course of the leave.

(*c*) If no intimation under this rule is made before an officer goes on leave, contribution shall be deducted throughout his leave at the rate of 4 per cent. of his leave-salary.

Realisation of Contributions.

10.—(*a*) When emoluments are drawn from a Government treasury in India, or from the home or a colonial treasury, contributions on account of those emoluments shall be recovered by deduction from the emoluments themselves.

(*b*) When emoluments are drawn from any other source, contributions shall be paid by remittance in cash to the Account Officer.

11. Contributions fixed in rupees shall be credited to the rupee branch and contributions fixed in sterling to the sterling branch of the Fund.

Interest on Contributions.

12. Interest at the rate for the time being allowed on contributions to the General Provident Fund shall be credited by Government, as from the 31st March of each year, to the account of each contributor to the Fund, subject to the following conditions :—

(1) Interest for 12 months shall be credited on the amount at the credit of the officer on the 31st March of the preceding year, less any advance taken during the year.

(2) Interest shall be credited for each month of the year upon the sum by which the minimum amount at the credit of the officer, between the close of the fourth day and the end of the month, exceeded the amount on which interest is credited under condition (1) of this rule. For the purpose of this rule a contribution paid by deduction from emoluments shall be treated as having been deposited in the Fund on the first day of the month in which payment is actually made.

(3) Before the amount at an officer's credit in the Fund is finally paid under Rule 18 his account shall be credited with interest up to the end of the month preceding that in which the payment is made, or up to the end of the sixth month after the end of the month in which he quitted the service or died, whichever of these periods be less.

(4) Before any reduction is made in the rate of interest allowed, in conformity with a reduction in the rates allowed on contriouutions to the General Provident Fund, six months' notice shall be given to all contributors.

Advances from the Fund.

13.—(1) The local Government or, in the case of an officer serving under the Government of India, the Governor-General in Council, may sanction the payment to any contributor of an advance, consisting of a sum of whole rupees and ordinarily not exceeding in amount three months' pay, from the sum standing to his credit in the rupee branch of the Fund.

(2) An advance shall not be granted under this rule to any contributor until at least 12 months have elapsed from the date of repayment of the last instalment of any previous advance, unless the Governor-General in Council or the local Government, as the case may be, considers, for reasons which shall be recorded in writing, that this restriction may be relaxed.

14.—(*a*) An advance shall be recovered in such number of equal monthly instalments, not being less than 12 or more than 24, as the sanctioning authority may prescribe. A contributor may, however at his option, make repayment in a smaller number of instalments than that prescribed. Each instalment shall be a number of complete rupees, the amount of the advance being raised or reduced, if necessary, to admit of the fixation of such instalment.

(*b*) Recovery shall be made in the manner provided by Rule 10 for the realisation of contributions, and shall commence on the first occasion after the advance is made on which the officer draws pay for a full month. It shall not be made while the officer is on leave or in receipt of subsistence grant, and it may be postponed by the sanctioning authority during the recovery of an advance granted to the officer otherwise than from the Fund.

(*c*) If at any time under the provisions of Rule 13 (*2*) an advance has been made to an officer before one previously made has been completely repaid, each advance shall be treated separately for purposes of recovery.

(*d*) When an advance is repayable in 12 inslalments, an additional instalment equivalent to that percentage of the advance which is prescribed for corresponding recoveries under the rules of the General Provident Fund shall be paid as interest in the month following that in which the 12th instalment is repayable. Similarly, when the advance is repayable in more than 12 instalments, an additional instalment of twice the percentage of the advance specified above shall be paid as interest. Such additional instalments shall be rounded off to the nearest rupee.

(*e*) Recoveries made in accordance with this rule shall be credited, as they are made to the officer's account in the Fund; the date of credit being determined, for the purpose of calculating interest, by the procedure prescribed in Rule 12 (*2*).

Insurance policies.

15. Payments towards a policy of insurance of any description on the contributor's own life may, at the option of a contributor, be substituted for contributions to the Fund subject to the following conditions :—

(1) If the payments substituted be less than the minimum contribution required by Rule 5, the deficiency shall be paid by the contributor as a contribution to the Fund.

(2) Government will not make any payments to insurance companies on behalf of contributors, nor will they take steps to keep the policy alive. If a contributor records on his pay bill that he is making payments to an insurance company, the Account Officer shall recover the deficiency, if any, due under sub-clause (*1*) above, and demand periodically to see the receipts or certified copies of the receipts showing that such payments have been made.

Failing the production of such receipts he shall make the necessary deductions from the contributor's emoluments and pay them to his credit in the Fund. Should a contributor prefer, he may make the usual deduction from his pay bills for credit to the Fund and arrange with the Account Officer to draw from the Fund as required the sums necessary to pay premia. Any sums already at credit of the contributor in the rupee branch of the Fund may be withdrawn for such payments. Such withdrawals shall be treated as advances for the purpose of Rule 12 (*1*) only, and not for the purpose of Rules 13 and 14.

(4) If any policy lapses or matures, the contributor shall pay to the Fund the amount of premia paid with interest thereon or the sum realised as the case may be.

Final Withdrawal of Accumulations in the Fund.

16. The amount accumulated in the Fund to the credit of a contributor shall be his property, funded for his benefit, and shall not be liable to forfeiture in the event of his dismissal from the service or of his quitting it before he becomes entitled to annuity.

17. It shall not be permissible to withdraw a contributor's property in the Fund until he finally quits the service or dies.

Provided that a contributor who has been granted leave preliminary to retirement, or who, while on leave, is either permitted to retire or is declared by a medical board to be unfit for further service, may withdraw the amount standing at his credit at any time between the commencement of the leave, or the date of such permission, or of such declaration, as the case may be, and the date of actual retirement.

18. Sums finally withdrawn from the Fund shall be paid in rupees or in sterling according as they are held in the rupee or the sterling branch of the Fund, and shall be payable in accordance with the following provisions :—

(1) The Local Government shall, on the application of the contributor, direct the Account Officer to pay the amount at the contributor's credit, and such amount shall thereupon be paid in full unless the Account Officer shall have received notice of any attachment, assignment or encumbrance affecting the disposal of the amount or of any portion of it; in which case he shall pay to the contributor such portion only of the amount as is not affected by the attachment, assignment, or encumbrance, and shall obtain the orders of the Local Government as to the disposal of the balance.

(2) If a contributor dies, the Account Officer shall take steps, in consultation, if necessary, with the local Government under which the contributor was serving, to ascertain the person legally entitled to receive the amount at the contributor's credit, and shall pay the amount to that person. Where the contributor has died leaving a widow or children, then, unless the Account Officer has received from him a direction to the contrary in writing, Rs. 5,000 of the sum standing to the credit of the contributor at the time of his decease, or the whole of such sum if it be less than Rs. 5,000, shall be payable to the widow, or, if there is no widow, to the children, or to such person as may be authorised by law to receive payment on behalf of the widow or the children, as the case may be.

(3) If a person to whom an amount is payable under clause (*1*) or clause (*2*) is not in India when withdrawal is made, the Account Officer shall, at the option of such person to be intimated in writing, either pay the amount in the rupee branch into such bank in India as such person may designate, or purchase sterling bills with that amount and forward them to such person. If such person is in India at the time of the withdrawal, the Account Officer shall, on receipt of intimation of the exercise of a similar option, either pay the amount in the sterling branch into such bank in the United Kingdom as may be similarly designated, or purchase rupee bills with the amount and forward them to such person.

Procedure.

19. All sums paid into the Fund under these rules shall be credited in the books of of the Government of India to an account named "The Indian Civil Service Provident Fund." Sums not claimed for a period exceeding six months after the contributor has died or quitted the service shall be transferred to "Deposits" at the end of the year, and treated under the ordinary rules relating to deposits.

20. When paying a contribution in India, either by deduction from emoluments or in cash, the contributor shall quote the number of his account, which shall be communicated to him by the Account Officer, and shall remain unaltered until a change is intimated by the Account Officer.

21.—(*a*) As soon as possible after the close of each year, every contributor shall be supplied with a statement of his account in each branch of the Fund. Every such statement shall show the opening balance, as on 1st April of the year ; all amounts credited or withdrawn during the year ; the amount of interest credited as on the 31st March of the year ; and the closing balance as on that date.

(*b*) Contributors are required to satisfy themselves as to the correctness of the annual statements, and errors should be brought to the notice of the Account Officer concerned within six months from the date of receipt of a statement.

General.

22. No departure from these rules in individual cases shall be made without the sanction of the Secretary of State for India in Council, and no such departure shall adversely affect the interests of the contributors concerned.

ESTABLISHMENTS.

Simla, the 6th October 1924.

No. F.-132-24.—In exercise of the powers conferred by sub-section (*2*) of section 86 of the Government of India Act and by section 2 of the Rules Publication Act, 1893, the Secretary of State for India in Council hereby makes the following Provisional Rules :—

1. (*1*) These Rules may be called the Leave of Absence (Allowances) Provisional Rules.

(*2*) They shall be deemed to have come into force on the 2nd August 1924.

2. When leave of absence is granted to any person in pursuance of the provisions of section 86 of the Government of India Act, there shall be paid to him by the Secretary of State in Council leave allowances during the period of his absence at the rates prescribed in the Schedule to these Rules.

3. Subject to the provisions of Rule 4, leave allowances under these Rules may be drawn under the conditions from time to time in force for the payment of Civil Leave Salary, or, in the case of the Commander-in-Chief, of Military Leave Pay.

4. Where payment of leave allowances under these rules is made in sterling the amount payable shall be the equivalent of the sum due in rupees at the current rate of exchange applicable to the due date, or, in the case of an advance, to the date of payment. No minimum rate of conversion shall be allowed.

5. Where leave allowances become repayable, repayment shall be made either in one sum within one month from the date of termination of the period of leave as sanctioned

and subsequently extended, or in such number of equal monthly instalments not exceeding 36, payable on the first of each month, as the officer may elect. Where allowances paid in sterling are repaid in rupees or *vice versâ*, the sum repayable shall be the aggregate of the amounts paid converted at the current rate applicable to the date of termination of the period of leave as sanctioned and subsequently extended.

6. Notwithstanding anything contained in the foregoing rule, if any officer to whom leave allowances on vacation of office are due under the Fundamental Rules or under Military Rules becomes liable to repay leave allowance drawn under these Rules, the paying authority may effect recovery by adjustment of the leave allowances due under the Fundamental Rules or under Military Rules, as the case may be, and (if necessary) of pension.

LEAVE AND APPOINTMENTS.

Simla, the 8th October 1924.

No. F.-7-V.-C.S.R.—The following Resolution by the Secretary of State for India in Council is published for general information :—

RESOLUTION.

In exercise of the powers conferred by sub-section (*2*) of section 96 (*b*) of the Government of India Act, the Secretary of State for India in Council, with the concurrence of the majority of votes at the meeting of the Council of India held on the 27th August 1924, hereby makes the following amendment of Fundamental Rule 100, with effect from the 1st January 1922, viz. :—

The following shall be inserted under clause (*a*) (*ii*), *viz* :—

NOTE.—In the case of a Government servant who is entitled, under orders previously in force, to privilege leave for more than four months, the number of months to be taken at one time as prescribed in sub-clause (*i*) above may be increased, on the first occasion when leave is taken under these rules, by the number of months by which the amount of privilege leave due exceeds four months.

No. F.-26 (4)-C.S.R.-24.—The following Resolution of the Secretary of State for India in Council is published for information :—

RESOLUTION.

In exercise of the powers conferred by sub-section (*2*) of section 96 (*b*) of the Government of India Act, the Secretary of State for India in Council, with the concurrence of the majority of votes at a meeting of the Council of India held on the 3rd day of September 1924, hereby makes the following amendments to the Civil Service Regulations, which shall have effect from the 22nd February 1921, namely :—

Article 356 shall be cancelled and the following shall be substituted, namely :—

Article 356.

Service rendered by an employee belonging to one of the classes mentioned in Note 2 below after attaining the age of 20 years, which is pensionable under military rules but which terminates before a pension has been earned in respect of it, may, at the discretion of the provincial and minor local Governments specified in Parts I and II of Appendix I to these Regulations, be allowed to count, when followed by service qualifying for civil pension, as part of such service, provided that any bonus or gratuity received in lieu of pension on, or since, discharge from military service shall be refunded in not more than 36 monthly instalments, commencing from the date of joining a civil appointment. Service pensionable under military rules, which does not so terminate, shall not be allowed to count without the sanction of the Secretary of State in Council.

"Note 1.—An officer or *ex*-soldier will not be brought under the operation of this Article as a matter of course. Each case will be decided on its merits, *e.g.*, there may be cases in which it may be open to a claimant for pension to add military service during the Great War to former non-pensionable service in the Army in order to claim the benefit of a military pension. In such cases it may be to the advantage of the claimant that he should not be brought under the operation of this Article. The bearing of Article 1031, Army Regulations, India, Volume I, on the position of soldiers of the Indian Army who re-entered during the Great War, deserves consideration in this connection.

"Note 2.—This Article applies to Indian commissioned officers, non-commissioned officers and men of the Indian Army, and to non-combatant departmental and regimental employees and followers of the supplemental services. It also applies to non-commissioned officers and men of the British Service, Warrant officers and departmental officers of the commissary and the assistant-surgeon classes, in respect of service with their units or departments in India.

"NOTE 3.—To be eligible for the concession in this article a soldier-clerk employed in the civil department should take his discharge from the Army within 12 months after joining his appointment in the department. This limit may, in special cases, be relaxed by the Government of India.

"NOTE 4.—Employees in the Military Police have the option of counting service under any other rules in these Regulations which would give them a similar or more liberal concession.

"NOTE 5.—Employees who were in service in the civil department on the 22nd February 1921 are eligible to count service under the rules which were in force before that date, where those rules are more advantageous to them."

Article 357 shall be cancelled and the following shall be substituted, namely :—

Article 357.

"For the purpose of the foregoing article, service as private or in any higher combatant rank shall be treated as superior if followed by superior service in the civil department. In other cases, military service shall be treated as superior or inferior according to the character of the appointment in which it was rendered, and with reference to the criteria observed in the civil department. Doubtful cases should be referred to the Government of India, who enjoy full powers in the matter."

The following shall be substituted for clause (*3*) of article 359 :—

"(3) Sub-Assistant Surgeons count service from the date they pass their final examination."

Article 501.

Clause (*a*) shall be omitted and the remaining clauses shall be re-numbered (*a*), (*b*) (*c*) and (*d*).

TARIFFS.

Simla, the 8th October 1924.

No. 260-T. (15).—The Government of India have received an application from Messrs. Tata Sons Limited, Agents, The Tata Iron and Steel Company, Limited, requesting that the Governor General in Council, in the exercise of his powers under section 3 (*4*)

of the Indian Tariff Act, 1894, as amended by the Steel Industry (Protection) Act, 1924, should increase the duty leviable on certain articles under Part VII of the Second Schedule to the said Act, on the ground that such articles are being imported into British India at a price likely to render ineffective the protection intended to be afforded by such duty to similar articles manufactured in India.

2. The Government of India have decided to refer this application to the Tariff Board for examination. The Board will consider—

(1) to what extent, if any, and in respect of what articles, or class or description of articles, the duty should be increased ; and

(2) whether the duty should be increased generally, or in respect of such articles when imported from or manufactured in any country or countries specified ;

and will make recommendations.

3. Firms or persons interested, who desire that their views should be considered by the Tariff Board, should address their representations to the Secretary, Tariff Board.

ORDER.—Ordered that a copy of the above resolution be communicated to all Local Governments and Administrations, all Departments of the Government of India, the Director-General of Commercial Intelligence, the Indian Trade Commissioner in London and to the Secretary, Tariff Board.

Ordered also that it be published in the *Gazette of India*.

J. M. BOTTOMLEY,

Assistant Director of Public Instruction, Bengal (offg.).

CALCUTTA, *the 17th October 1924.*

EDUCATION DEPARTMENT, BENGAL.

NOTIFICATION.

No. 3T.-B. -The 25th September 1924.—The following list of text-books written in accordance with the revised Primary curriculum, published with Government notification No. 1665Edn., dated 16th November 1920, and approved for use in all classes of Primary Schools and in the primary stages of Middle Vernacular Schools in this Presidency, for the year 1925, is published for general information. A list of text-books for maktabs is also appended.

E. F. OATEN,

Director of Public Instruction, Bengal (offg.).

NOTE.—(*i*) District Boards in charge of primary education are authorised to select text-books from the approved list. The boards may select from the list approved by the Department a small number of text-books for use in both board and aided Primary Schools under their control, care being taken to discourage anything in the shape of exclusive prescription and to secure that selection is made with the utmost care so as to avoid undue patronage. Inspecting officers should refrain from recommending any books to the teachers of Primary Schools for selection and, in giving advice to District Boards in the matter of selection of text-books, should bear in mind that the system of exclusive prescription is to be discouraged.

(*ii*) The compulsory subjects in all Primary Schools will be the following :—

(*a*) Reading,
(*b*) Writing,
(*c*) Arithmetic,
(*d*) Geography,
(*e*) History,
(*f*) Hygiene (for boys) or Hygiene and Domestic Economy (for girls).
(*g*) Observation lessons (for boys), and
(*h*) Drill (for boys) or Needle-work (for girls).

The Primary Final Scholarship (Upper Primary) examination will be held at the end of class V, and the subjects of examination will be the first six subjects only. The Primary Preliminary Scholarship (Lower Primary) examination will be held at the end of class III, and the subjects of examination will be the first four and the sixth subjects.

For the Primary Final Examination any two of the following optional subjects should be taken :—

(*a*) Drawing,
(*b*) Manual work,
(*c*) Science or Nature Study based on school gardening
(*d*) English, and
(*e*) Zamindari and Mahajani accounts.

For the Primary Preliminary Examination any one of the following optional subjects should be taken :—

(*a*) Drawing,
(*b*) Manual work.

(*iii*) Classes IV and V of a Primary School will correspond to present classes III and IV of a High and Middle English School. A boy from a Primary School intending to enter a High or Middle English School should leave at the end of class III. A boy may also enter a High or Middle English School at the end of class V, provided he has taken English as an optional subject in classes IV and V.

(g) Observation Lessons (for boys).

Class I—

Observation lessons.—To be begun by conversation lessons on the things in the school such as benches, desks, stools; childern measuring the benches, desks, etc., collecting leaves, flowers and fruits from plants and trees growing in the locality and comparing them as to shape, colour, smell, number, etc. Additional observation lessons should be given in correlation with other class subjects.

Class II—

Observation lessons.—Collection and observation of plants such as may be available in the locality, comparing the different parts of each, root, stem, leaves, bark, flowers and fruits with those of another. Collecting crop plants growing in the season. Conversation about the food materials obtained from each. The organs of our body and their uses; childern measuring and comparing the respective lengths of their arms, legs, fingers and their height. The teacher testing their eye-sight, power of hearing.

Class III—

Observation lessons.—Growth of plants to be observed by growing any kind of pulse and paddy in pots or in small plots. To observe the roots and seed leaves and mark the difference. Experiments to show the effect of light and moisture on growth. Collecting other plants having roots and seed leaves like those grown. Collecting and observing plants having creeping or climbing stems. Plants growing in water, plants producing no flowers. Observing leaf buds and flower buds and parts of a flower.

Class IV—

Nature study based on school gardening. (Recommended for rural schools, optional).—Laying out a garden, a plot of 4 to 6 square cubits, for each scholar, or if the compound is not spacious enough, a common plot for all, for purposes of experiment. Seed testing—showing 50 or 100 seeds of each of several kinds of plants, paddy, pulses, jute, mustard, according to the time of the year in each plot or separate parts of the common plot. Each scholar to keep a diary in which to note down the date of sowing, the time taken for germination, the percentage of germination, the rate of growth after germination. In each stage of growth the scholars will pull up a specimen and observe the roots, their uses and growth, the stems and leaves and their uses and structure: the flowers—their parts and uses, the methods of fertilization, the fruits and seeds. All these to be noted in the diary. To observe the kinds of soil—clayey, sandy, loamy; the power of each to absorb and retain moisture. Plant food in the soil. The effect of manures, showing the effect of different manures as cowdung, oilcake, ashes and nitrate of soda on the growth of plants, of phosphates on fruits, etc. The plots should be drawn to scale and all results recorded in the note book.

Class V—

Nature study based on school gardening (optional).—Boys may work in pairs, one of class IV and another of class V if single plots are available, otherwise all on a common plot, one being set apart for boys of class IV for experiments only and another for those of class V. Plans of work to be prepared in September every year; the plots to be sown with particular seeds should be set out to scale in the note book; plans should include also indoor work, such as raising early seedlings of onions, cauliflowers, cabbages in pots or boxes. Following operations to be explained:—Digging—its effect, purpose: to sow at depths suitable to various seeds; to prepare trenches—manuring effect and purpose;

plant, food, seeding crops to be sown—(1) jute, (2) *aus* paddy, (3) maize, (4) *aman* paddy, (5) pulses, (6) mustard, (7) potato, (8) gram, also vegetables—brinjal, radish, turnip, cauliflower, onion, chilli, flowers grown on borders of each plot—arrangements should be made to produce a continuous supply of vegetables throughout the year. Lessons on rotation, on insect pests and insecticides. Record to be kept of the quantity of seed used and of the produce.

N.B.—No text-books are required for the use of pupils in the above classes. The following books may be used by teachers for the purpose of oral instruction :—

Notice.

THE Bengal and Madras Service Family Pension Fund which is provisionally managed and assisted by Government has for its object the provision of monthly pensions for the maintenance of the widows and children of subscribers and is open, with certain exceptions, to all active and pensioned members of the Uncovenanted Service of Government (except those serving under the Government of Bombay), and to Local Fund servants earning pensions from Government. Some of the special features of the fund are—(1) that widowed daughters incapable of remarriage or children labouring under such mental or bodily infirmities as incapacitate them from earning their livelihood or preclude the possibility of marriage (in case of a daughter) are admitted to its benefits ; and (2) that subscribers to the Widows' and Daughters' branches are entitled to a refund of 30 per cent. of the premia paid, should the nominees predecease them after five years of admission. The second quinquennial valuation of the fund has been completed by the Actuary to the Government of India and his report discloses very favourable results. For forms of application and rules of the Fund apply to the Accountant-General, Central Revenues, Imperial Secretariat Buildings, Calcutta.

PART VI.

Bills introduced in the Council of State and Legislative Assembly, Reports of Select Committees presented to the Council and Assembly and Bills published under Rule 18 of the Indian Legislative Rules.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

[AS INTRODUCED IN THE LEGISLATIVE ASSEMBLY.]

A Bill further to amend the Indian Registration Act, 1908.

WHEREAS it is expedient further to amend the Indian Registration Act, 1908, so as to enable some Sub Registrars to exercise and perform the powers and duties of a Registrar to hold an inquiry on denial of execution; It is hereby enacted as follows:— XVI of 1908.

Short title and commencement.

1. (*1*) This Act may be called the Indian Registration (Amendment) Act, 192 .

(*2*) It shall come into force on the first day of January, 1925.

Amendment of s. 7, Act XVI of 1908.

2. To section 7 of the Indian Registration Act, 1908, the following sub-section shall be added, namely:— XVI of 1908.

"(*3*) The Local Government may by notification declare any Sub-Registrar to be a Registrar within the meaning of the proviso to section 35, and all provisions contained in sections 74 to 77 which apply to documents presented for registration to a Registrar shall also apply to documents presented for registration to such Sub-Registrar."

STATEMENT OF OBJECTS AND REASONS.

In some of the provinces Sub-Registrars are highly educated gentlemen. There is no reason why, if execution of a document is denied before such officers, they should not hold an inquiry as to execution, etc., and why the parties should be driven to the necessity of taking a formal order of rejection and then going to the Registrar for holding the inquiry.

The Bill is intended to enable Local Governments to allow Sub-Registrars to hold the necessary inquiry themselves.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Bill was introduced in the Legislative Assembly on the 3rd September 1924 :—

No. 28 OF 1924.

A Bill further to amend the Indian Post Office Act, 1898, for certain purposes.

WHEREAS it is expedient further to amend the Indian Post Office Act, 1898, for certain purposes hereinafter appearing ; It is hereby enacted as follows :— VI of 1898

Short title.

1. This Act may be called the Indian Post Office (Amendment) Act, 192 .

Amendment of section 17, Act VI of 1898

2. Section 17 of the Indian Post Office Act, 1898 (hereinafter referred to as the said Act), shall be re-numbered as sub-section (*1*) of section 17, and to that section as re-numbered the following sub section shall be added, namely :— VI of 1898

"(*2*) Where the Governor General in Council has directed that prepayment of postage or other sums chargeable under this Act in respect of postal articles may be made by prepaying the value denoted by the impressions of stamping machines issued under his authority, the impression of any such machine shall likewise be deemed to be a stamp issued by Government for the purpose of revenue within the meaning of the Indian Penal Code." XLV of 1860.

Amendment of section 27, Act VI of 1898

3. To the *Explanation* to section 27 of the said Act the following shall be added, namely :—

"and the impression of any stamping machine provided or authorised for the like purpose by or under the authority of the Government of such part, State or country."

STATEMENT OF OBJECTS AND REASONS.

In accordance with article 13-1 of the Principal Convention of Madrid, the prepayment of postage on every description of article can be effected either by means of postage stamps valid in the country of origin for the correspondence of private individuals, or by prepaying the value denoted by impressions of stamping machines, officially adopted and working under the immediate control of the administration. Arrangements have been made in this country for the prepayment of postage and other postal fees by prepaying the value denoted by impressions made by stamping machines working under the control of the Director-General, Posts and Telegraphs. The object of the Bill is to make the fraudulent use of stamping machines or of impressions of such machines punishable in India and to apply the provisions of section 27 of the Act to postal articles from abroad bearing counterfeit or previously used impressions of stamping machines.

NOTIFICATION.

No. 3334.—The following statement is published for general information :—

A statement by His Excellency the Governor General of the reasons which have moved him, in exercise of the powers conferred upon him by section 72 of the Government of India Act, to make and promulgate an Ordinance to supplement the ordinary criminal law in Bengal, under the title of the Bengal Criminal Law Amendment Ordinance, 1924.

J. CRERAR,
Secretary to the Government of India.

STATEMENT.

1 It is a matter of common knowledge that a revolutionary conspiracy existed during the years 1912--1917, which has left the most poignant memories of the misery and terror it created throughout Bengal. All other methods of dealing with this conspiracy having been tried without avail, it was not suppressed until its leaders were confined under the provisions of Regulation III of 1818, and many of its subordinate members dealt with under the Defence of India Act. After the Royal Proclamation of 1919, most of these persons were released Many forsook their connection with revolutionary crime and have not since returned to it. To the remainder, who have since showed themselves to be irreconcilable, the amnesty was, after the institution of the reformed system of government, gradually extended, in the hope that under a new political era they would recognise the duties and the advantages of good citizenship. This hope has not been realised. The majority of these still retained their faith in the efficacy of violence and assassination as political weapons. They speedily returned to their old methods and reorganised their old associations, taking care only to avoid the mistakes to which they attributed their previous failure. During the years 1920 to 1922 they carried on their activities under the cloak of the political movements then in progress, recruiting their followers and perfecting their organisation with a view to future action when opportunity offered.

2. Towards the end of 1922 the leaders of these conspiracies, believing that their objects would not be attained by the methods of the non-co-operation movement, decided to revert to methods of violence The two main terrorist organisations had now been resuscitated; new members in large numbers were recruited; arms and ammunition, partly of a kind which cannot be obtained in India, and must therefore have been smuggled from abroad, were collected; a new and highly dangerous type of bomb was manufactured; and projects of assassination against certain police officers and other persons were devised The movements of these officers and their residences were watched and those who watched, being themselves placed under observation, were traced to places known to be haunts of the conspirators.

3 During the year 1923, a series of outrages was perpetrated, including a dacoity with double murder at Kona near Howrah and the looting of the Ultadingi Post Office in May, a robbery with murder in July, the Sankaritolla murder and others which I need not specify. In January of the present year Mr. Day was murdered in Calcutta and an attempt was made to murder Mr. Bruce in April, in both cases as it appears, in mistake for a prominent and distinguished Police official In March a bomb factory was discovered, and other activities directed to the manufacture of bombs and the illicit collection of arms were detected. It is known that other crimes were planned and that projects of assassination continued and still continue to be devised I say nothing of other deplorable events which are now under judicial investigation. Evidence has been placed before me which shows to my satisfaction that the movement is deep-seated and dangerous. It

is impossible for obvious reasons to divulge much of the information available to Government but it confirms in every respect the view I have been forced to accept.

4. Though the situation during 1923 was grave, I was reluctant to invoke the powers conferred upon me by the Government of India Act, until I was fully persuaded that all other means for dealing with the emergency had been exhausted My Government accordingly authorised the confinement of certain leaders of the criminal associations under the provisions of Regulation III of 1818. The movement was temporarily checked, but new leaders were found and operations were resumed, as is apparent from the dark record of crime in the present year. I have therefore come to the conclusion, after the fullest consultation with the Local Government, that it is necessary to arm the Government of Bengal with special powers to deal with preparations for crime, with the object of protecting not only the officers of Government, whose lives are threatened, but equally private citizens, who have frequently been the innocent sufferers from such outrages, and the misguided youths who are its tools and often themselves its victims. I am convinced that preparations and plans for criminal outrages are now so dangerously developed that it is necessary to provide immediate safeguards by an Ordinance. Permanent measures to remedy the situation will in due course be presented by the Local Government

5. The Ordinance is directed solely to these ends and will in no way touch or affect the interests or liberties of any citizens; whether engaged in private or public affairs, so long as they do not connect themselves with violent criminal methods. The fundamental duty of Government is to preserve public security on which political advance and all the functions of a civilised social organism depend. And, as it is manifest that sound and permanent political progress cannot be accelerated by violence or threat of violence, so also I deem it my duty and the duty of my Government to see that no violence or threat of violence shall operate to retard it. I and my Government will therefore proceed as we are doing along the line of political development laid down in the declared policy of Parliament reaffirmed by His Majesty's Government. Acting with these objects and these intentions, I believe myself and my Government to be entitled to the support and co-operation of all those who have truly at heart the peace, the prosperity and the political future of India.

Viceroy and Governor General.

ORDINANCE No. 1 OF 1924.

AN

ORDINANCE

to supplement the ordinary criminal law in Bengal.

WHEREAS an emergency has arisen which makes it necessary to supplement the ordinary criminal law in Bengal;

NOW THEREFORE, in exercise of the power conferred by section 72 of the Government of India Act, the Governor-General is pleased to make and promulgate the following Ordinance:—

Short title and extent.

1. (*1*) This Ordinance may be called the Bengal Criminal Law Amendment Ordinance, 1924.

(*2*) It extends to the whole of Bengal.

Definition.

2. In this Ordinance, unless there is anything repugnant in the subject or context, "the Code" means the Code of Criminal Procedure, 1898. V of 1898.

Power of Local Government to direct trial by Commissioners in certain cases.

3. (*1*) The Local Government may, by order in writing, direct that any person accused of any offence specified in the First Schedule shall be tried by Commissioners appointed under this Ordinance.

(*2*) Orders under sub-section (*1*) may be made in respect of persons accused of any offence specified in the First Schedule or in respect of any class of person so accused, or in respect of persons or classes of persons accused of any such offence or of any class of such offences.

(*3*) No order under sub-section (*1*) shall be made in respect of, or be deemed to include, any person who has been committed under the Code for trial before a High Court, but, save as aforesaid, an order under that sub-section may be made in respect of, or may include, any person accused of any offence specified in the First Schedule whether such offence was committed before or after the commencement of this Ordinance.

Appointment and qualification of Commissioners.

4. (*1*) Commissioners for the trial of persons under this Ordinance shall be appointed by the Local Government.

(*2*) Such Commissioners may be appointed for the whole of Bengal or for any part thereof, or for the trial of any particular accused person or class of accused persons.

(*3*) All trials under this Ordinance shall be held by three Commissioners, of whom at least two shall be persons who are serving, and have for a period of not less than three years served, as Sessions Judges or Additional Sessions Judges, or are persons qualified under sub-section (*3*) of section 101 of the Government of India Act for appointment as Judges of a High Court.

Procedure of Commissioners.

5. (*1*) Commissioners appointed under this Ordinance may take cognizance of offences without the accused being committed to them for trial, and in trying accused persons shall record evidence in the manner prescribed in section 356 of the Code and shall, in other respects also, subject to this Ordinance and to any rules made thereunder, follow the procedure prescribed by the Code for the trial of warrant cases by Magistrates:

Provided that such Commissioners shall not be bound to adjourn any trial for any purpose unless such adjournment is in their opinion necessary in the interests of justice.

(*2*) In the event of any difference of opinion among the Commissioners, the opinion of the majority shall prevail.

Powers of Commissioners.

6. (*1*) The Commissioners may pass upon any person convicted by them any sentence authorised by law for the punishment of the offence of which such person is convicted.

(*2*) If in any trial under this Ordinance it is found that the accused person has committed any offence, whether such offence is or is not an offence specified in the First Schedule, the Commissioners may convict such person of such offence and pass any sentence authorised by law for the punishment thereof.

Application of Code of Criminal Procedure, 1898, to proceedings of Commissioners.

7. The provisions of the Code, so far only as they are not inconsistent with the provisions of, or the special procedure prescribed by or under, this Ordinance shall apply to the proceedings of Commissioners appointed under this Ordinance, and such Commissioners shall have all the powers conferred by the Code on a Court of Session exercising original jurisdiction.

Tender of pardon.

8. (*1*) Commissioners trying an offence under this Ordinance may, with a view to obtaining the evidence of any person supposed to have been directly concerned in, or privy to, the offence, tender a pardon to such person on condition of his making a full and true disclosure of the whole circumstances within his knowledge relative to the offence and to every other person concerned whether as principal or abettor in the commission thereof.

(*2*) Where, in the case of any offence for the trial of which by Commissioners an order has been made under sub-section (*1*) of section 3, a pardon has, before the passing of such order, been tendered to and accepted by any person under section 337 of the Code, the provisions of sub-sections (*2*) and (*3*) of that section of the Code shall apply as if the accused person had been committed for trial to the Commissioners.

(*3*) For the purposes of sections 339 and 339A of the Code, pardons tendered under sub-section (*1*) and sub-section (*2*) shall be deemed respectively to have been tendered under sections 338 and 337 of the Code.

Appeals and confirmation.

9. (*1*) Any person convicted on a trial held by Commissioners under this Ordinance may appeal to the High Court, and such appeal shall be disposed of by the High Court in the manner provided in Chapter XXXI of the Code.

(*2*) When the Commissioners pass sentence of death the proceedings shall be submitted to the High Court, and the sentence shall not be executed unless it is confirmed by the High Court.

Special rule of evidence.

10. Notwithstanding anything contained in the Indian Evidence Act, 1872, when the statement of any person has been recorded by any Magistrate, such statement may be admitted in evidence in any trial before Commissioners appointed under this Ordinance

I of 1872.

if such person is dead or cannot be found, or is incapable of giving evidence, and the Commissioners are of opinion that such death, disappearance, or incapacity has been caused in the interests of the accused

Rule-making powers of Local Government.

11. The Local Government may, by notification in the local official Gazette, make rules consistent with this Ordinance to provide for all or any of the following matters, namely :—

(*i*) the times and places at which Commissioners appointed under this Ordinance may sit;

(*ii*) the procedure of such Commissioners, including the appointment and powers of their President, and the procedure to be adopted in the event of any Commissioner being prevented from attending throughout the trial of any accused person;

(*iii*) the manner in which prosecutions before such Commissioners shall be conducted and the appointment and powers of persons conducting such prosecutions;

(*iv*) the execution of sentences passed by such Commissioners;

(*v*) the temporary custody or release on bail of persons referred to or included in any order made under sub-section (*1*) of section 3, and the transmission of records to the Commissioners; and

(*vi*) any matter which appears to the Local Government to be necessary for carrying into effect the provisions of this Ordinance relating or ancillary to trials before Commissioners.

Power of Local Government to deal with certain suspects.

12. (*1*) Where, in the opinion of the Local Government, there are reasonable grounds for believing that any person—

(*i*) has acted, is acting or is about to act in contravention of the provisions of the Indian Arms Act, 1878, or of the Explosive Substances Act, 1908; or XI of 1878. VI of 1908.

(*ii*) has committed, is committing or is about to commit any offence specified in the Second Schedule; or

(*iii*) has acted, is acting or is about to act with a view to interfere by violence or by threat of violence with the administration of justice;

the Local Government, if it is satisfied that such person is a member, or is being controlled or instigated by a member, of any association of which the objects or methods include the doing of any of such acts or the commission of any of such offences, may, by order in writing, give all or any of the following directions, namely, that such person—

(*a*) shall notify his residence and any change of residence to such authority as may be specified in the order;

(*b*) shall report himself to the police in such manner and at such periods as may be so specified;

(*c*) shall conduct himself in such manner or abstain from such acts as may be so specified;

(*d*) shall reside or remain in any area in British India so specified;

(*e*) shall not enter, reside in, or remain in any area specified in such order;

(*f*) shall be committed to custody in any jail:

Provided that the Local Government shall not in an order under clause (*d*) or clause (*f*) specify an area or a jail outside Bengal without the previous sanction of the Governor-General in Council.

(*2*) The Local Government in its order under sub-section (*1*) may direct—

(*a*) the arrest without warrant of the person in respect of whom the order is made at any place where he may be found by any police officer, or other officer of Government, to whom the order may be directed or endorsed by or under the general or special authority of the Local Government;

(*b*) the search of any place specified in the order which in the opinion of the Local Government has been, is being, or is about to be

used by such person for the purpose of doing any act, or committing any offence, of the nature described in sub-section (*1*).

Service of orders under section 12.

13. An order made under sub-section (*1*) of section 12 shall be served on the person in respect of whom it is made in the manner provided in the Code for service of a summons, and upon such service such person shall be deemed to have had due notice thereof.

Power to arrest without warrant.

14. (*1*) Any officer of Government, authorised in this behalf by general or special order of the Local Government, may arrest without warrant any person against whom a reasonable suspicion exists that he is a person in respect of whom an order might lawfully be made under sub-section (*1*) of section 12.

(*2*) Any officer exercising the power conferred by sub-section (*1*) may, at the time of making the arrest, search any place and seize any property which is, or is reasonably suspected of being, used by such person for the purpose of doing any act, or committing any offence, of the nature described in sub-section (*1*) of section 12.

(*3*) Any officer making an arrest under sub-section (*1*) shall forthwith report the fact to the Local Government, and pending receipt of the orders of the Local Government may, by order in writing, commit any person so arrested to such custody as the Local Government may, by general or special order, specify in this behalf :

Provided that no person shall be detained in custody under this section for a period exceeding fifteen days save under a special order of the Local Government, and no person shall in any case be detained in custody under this section for a period exceeding one month.

Enforcement of orders.

15. The Local Government and every officer of Government to whom any copy of any order made under section 12 has been directed or endorsed by or under the general or special authority of the Local Government, and every officer exercising the powers conferred by section 14, may use any and every means necessary to enforce the same.

Penalty for breach of order under section 12

16. Whoever, being a person in respect of whom an order has been made under sub-section (*1*) of section 12, knowingly disobeys any direction in such order, shall be punishable with imprisonment for a term which may extend to three years, and shall also be liable to fine.

Power of photographing, etc., persons in respect of whom order has been made under section 12.

17. (*1*) Every person in respect of whom an order has been made under sub-section (*1*) of section 12 shall, if so directed by any officer authorised in this behalf by general or special order of the Local Government,—

(*a*) permit himself to be photographed;

(*b*) allow his finger impressions to be taken;

(*c*) furnish such officer with specimens of his handwriting and signature;

(*d*) attend at such times and places as such officer may direct for all or any of the foregoing purposes

(*2*) If any person fails to comply with or attempts to avoid any direction given in accordance with the provisions of sub-section (*1*), he shall be punishable with imprisonment for a term which may extend to six months, or with fine which may extend to one thousand rupees, or with both.

Powers of search.

18. The power to issue search warrants conferred by section 98 of the Code shall be deemed to include a power to issue warrants authorising the search of any place in which any Magistrate mentioned in that section has reason to believe that any offence specified in the First Schedule has been, is being, or is about to be committed, and the seizure of anything found therein or thereon which the officer executing the warrant has reason to believe is being used or intended to be used for the commission of any such offence; and the provisions of the Code, so far as they can be made applicable, shall apply to searches made under the authority of any warrant issued under this section, and to the disposal of any property seized in any such search; and an order for search issued by the Local Government under sub-section (*2*) of section 12 shall be deemed to be a search warrant issued by the

District Magistrate having jurisdiction in the place specified therein, and may be executed by the person to whom the order is addressed in the manner provided in this section.

Scrutiny of case by two Judges.

19. (*1*) Within one month from the date of the issue of an order by the Local Government under sub-section (*1*) of section 12, the Local Government shall place before two persons, who shall be either Sessions Judges or Additional Sessions Judges having, in either case, exercised for at least five years the powers of a Sessions Judge or Additional Sessions Judge, the material facts and circumstances in its possession on which the order has been based or which are relevant to the inquiry, together with any materials relating to the case which may have subsequently come into its possession, and a statement of the allegations against the person in respect of whom the order has been made and his answers to them, if furnished by him, and the said Judges shall consider the said material facts and circumstances and the allegations and answers, and shall report to the Local Government whether or not in their opinion there is lawful and sufficient cause for the order.

(*2*) On receipt of the said report, the Local Government shall consider the same and shall pass such order thereon as appears to the Local Government to be just or proper.

(*3*) Nothing in this section shall entitle any person against whom an order has been made under sub-section (*1*) of section 12 to appear or to act by pleader in any matter connected with the reference to the said Judges, and the proceedings and report of the said Judges shall be confidential.

Visiting Committees.

20. (*1*) The Local Government shall, by order in writing, appoint such persons as it thinks fit to constitute Visiting Committees for the purposes of this Ordinance, and shall by rules prescribe the functions which these Committees shall exercise.

(*2*) Such rules shall provide for periodical visits to persons under restraint by reason of an order made under sub-section (*1*) of section 12.

(*3*) No person in respect of whom any such order has been made requiring him to notify his residence or change of residence or to report himself to the

police or to abstain from any specified act, shall be deemed to be under restraint for the purpose of sub-section (*2*).

Allowances to persons under restraint and their dependants.

21. The Local Government shall make to every person who is placed under restraint by reason of an order made under sub-section (*1*) of section 12 a monthly allowance for his support of such amount as is, in the opinion of the Local Government, adequate for the supply of his wants, and shall also make to his family, if any, and to such of his near relatives, if any, as are in the opinion of the Local Government dependent on him for support, an allowance for the supply of their wants according to their rank in life.

Explanation.—In this section the expression "under restraint" has the same meaning as in section 20.

Rule-making power of Local Government.

22. The Local Government may make rules providing for the procedure to be followed regarding the notification of residence and report to the police by persons in respect of whom orders have been made under section 12, and for the intermediate custody of persons arrested under this Ordinance.

Publication of rules.

23. All rules made under this Ordinance shall be published in the local official Gazette, and on such publication shall have effect as if enacted in this Ordinance.

Bar of suits, prosecutions and other legal proceedings.

24. (*1*) No suit, prosecution or other legal proceeding shall lie against any person for anything which is in good faith done or intended to be done under this Ordinance.

(*2*) Nothing in section 491 of the Code shall apply to any person in respect of whom an order has been made under section 3 or section 12 or who has been arrested under section 14.

THE FIRST SCHEDULE.

(*See section 3, etc.*)

Any of the following offences, if in the opinion of the Local Government there are reasonable grounds for believing that such offence has been committed by

a member, or a person controlled or instigated by a member, of any association of which the objects or methods include the commission of any of such offences, namely :—

(*a*) any offence under any of the following sections of the Indian Penal Code, namely, sections 148, 302, 304, 326, 327, 329, 332, 333, 385, 386, 387, 392, 394, 395, 396, 397, 398, 399, 400, 401, 402, 431, 435, 436, 437, 438, 440, 454, 455, 457, 458, 459, 460 and 506;

(*b*) any offence under the Explosive Substances Act, 1908;

(*c*) any offence under the Indian Arms Act, 1878;

(*d*) any attempt or conspiracy to commit, or any abetment of, any of the above offences.

THE SECOND SCHEDULE.

(*See section 12.*)

(*1*) Any offence under any of the following sections of the Indian Penal Code, namely, sections 148, 302, 304, 326, 327, 329, 332, 333, 392, 394, 395, 396, 397, 398, 399, 400, 401; 402, 431, 435, 436, 437, 438, 440, 457 and 506.

(*2*) Any attempt or conspiracy to commit, or any abetment of, any of the above offences.

RESOLUTION.

No. 10850 P.—THE 25TH OCTOBER 1924.

The Governor in Council desires to take the earliest opportunity of explaining, as far as is possible at the present stage, the reasons which have led him to ask the Governor-General to promulgate an Ordinance to supplement the ordinary criminal law in Bengal.

It is a matter of common knowledge that a revolutionary conspiracy existed during the years 1908 to 1917. The revolutionaries themselves no longer attempt to conceal the fact and have described the movement in books and in articles in the public Press. The object of that conspiracy was to overturn by violent means the Government established by law in India. The leaders sought to achieve this object by the spread of revolutionary ideas and the collection of arms, with a view to rising in rebellion when the time was ripe. The means adopted were the preaching of race hatred and of revolution as a religious duty and the organisation of disciplined secret societies. Funds for this purpose were obtained by robberies with violence, and immunity for the criminals was sought by intimidation. Everyone who hampered the movement or contributed to the punishment of the criminals was threatened with assassination, many Government officials were actually murdered and a reign of terror was gradually established in Bengal. All ordinary methods of dealing with crime failed to check the movement; the leaders have freely

boasted, in the books they have since written, of the powerlessness of Government to deal with their conspiracy by means of the ordinary law and Bengal was only rescued in the end from the tyranny of this band of murderers by the use of Regulation III of 1818 and the powers which the Government obtained under the Defence of India Act. The conspiracy was effectively crushed by these means and, if the powers had been retained by Government, it could never have been revived.

After the Royal Proclamation of 1919, all persons who were still interned were released. Many of those who were dealt with under the Defence of India Act subsequently abandoned the idea of violent revolution. The amnesty was gradually extended to the comparatively small group of irreconcilables, the leaders of the movement, who had been detained in jail. It was hoped that the opportunities for political advance offered by the Reforms would change their attitude towards Government, but these hopes have not been realised. These men still believe that none but violent means can accomplish their object, and they are convinced that the fact that any concession was made at all was solely due to fear caused by their terrorist movement. As soon as they were released they began to reorganise their societies and to work secretly on the old lines, though they took advantage of the experience which they had gained to avoid the mistakes to which they attributed their previous failure. Two facts may be noticed at this point. The first is that the revival of the terrorist conspiracy was encouraged by the belief that Government could no longer deal with it effectively. The second is that though from the very nature of the conspiracy with which they are confronted, the Government are unable to take the public as fully into their confidence as they would wish regarding its existence and its intentions, since secret organisations which employ the weapons of assassination and terrorism have necessarily to be dealt with by secret methods, yet they have throughout had information, which has been tested and proved reliable, of the movements and activities of the leaders of the terrorist party and are now satisfied that it would be highly dangerous to allow the movement to remain unchecked any longer.

The terrorist leaders who had constantly preached violence as the only road to independence naturally had no faith in non-violent non-co-operation. They realised, however, that the policy of non-violence had been generally accepted and during the years 1920 and 1921 they were content to stand by and watch events, whilst using any form of organisation in order to extend their influence with a view to future action. Later, endeavours were made to organise *asrams* on lines similar to those which played so important a part in former movements. Leading members of the two main organisations have been very active in propaganda work and in recruiting new members, particularly from the student class. Every cause of unrest was exploited and every centre of agitation utilised for the dissemination of terrorism and the capture of new recruits. Recent events at Tarakeswar, which attracted from all parts of Bengal impressionable youths in a high state of excitement, afford the latest example of how an agitation wholly unconnected with the terrorist movement was utilised by the leaders of that movement to swell their numbers.

The conspirators are also known to have manufactured a new and highly dangerous type of bomb and to have secured considerable quantities of arms and ammunition. These weapons have been used in some of the outrages which have occurred during the past two years, and it is significant that the ammunition used on several occasions was of a foreign make which cannot be obtained lawfully in India.

The events of the last two years may be dealt with in greater detail. In May 1923 one section of the terrorist party, which had recently been conspiring to assassinate police officers, especially Mr. Tegart, who had recently returned to India as Commissioner of Police, embarked upon a campaign of dacoity and murder, partly in order to secure funds but partly also in order to accustom their men to violent action and to terrorise any who might be inclined to oppose them. They first committed a dacoity with double murder at Kona near Howrah; in the same month the Ultadingi post office was looted. The same gang committed the robbery with murder at Garpar Road on the 30th July in which firearms were again used. The murder of the Sankaritola postmaster followed. The investigations into this case resulted in full corroboration of the information already in the possession of Government and proved conclusively that these outrages were all the work of a particular group of the party.

Seven members of this group were put on trial in the Alipore conspiracy case, but many of the facts in the possession of Government could not be placed before the Court and they were eventually acquitted. Some of the accused who had not previously admitted their guilt stated subsequently that they had taken part in these outrages and that the immediate object of the conspiracy was the assassination of police officers—a conspiracy which was continued even whilst they were in jail as under-trial prisoners.

The situation after these outrages had been committed was serious. The lives of the officers of Government were in imminent danger and it was clear that, unless immediate action was taken, terrorism and crime would spread and Bengal would be again exposed to the dangers and horrors of the previous outbreak of violent revolutionary crime. Several of the chief leaders were accordingly incarcerated under Regulation III of 1818. This action came as a surprise and checked the movement for the time being, but not for long. New leaders were found and operations were resumed. In December a robbery of Rs. 17,000, the property of the Assam-Bengal Railway, was committed at Chittagong by four bhadralok youths armed with revolvers. Subsequent police investigations showed that certain bhadralok youths were hiding in suspicious circumstances in a house in a village at some distance from Chittagong. The search of this house ten days after the robbery led to the discovery of a number of weapons and ammunition which included cartridges of the foreign type mentioned above. The attempt to arrest the occupants of the house led to a running fight between them and a body of police and villagers and to the arrest of two youths with firearms in their possession. An attempt was made to decoy from his house one of the chief witnesses in the robbery case with the obvious intention of murdering him; and on the next evening a Sub-Inspector who had arrested one of the accused in this case and knew the other members of the gang by sight was shot at Chittagong.

It has been mentioned above that the assassination of certain police officers had long been contemplated by the terrorist party and that some of the persons who were acquitted in the Alipore conspiracy case stated that this was the immediate object of the conspiracy. In the early part of 1923 persons were found to be watching the movements of these officers and their residences. These watchers were themselves placed under observation and traced to places which were known to be haunts of the conspirators.

In January 1924 Mr. Day was murdered in Calcutta by Gopi Mohan Saha in mistake for Mr. Tegart, and in April Mr. Bruce was fired at in Harrison Road in circumstances which suggest that this was a similar case of mistaken identity. The ammunition used in the murder of Mr. Day and in the Chittagong murder was also of the foreign type already referred to.

In March a bomb factory was discovered in Calcutta fully equipped with explosives and implements for loading and fitting bomb-shells, of which a number, both loaded and unloaded, were found. This discovery showed not only the existence of an efficient organisation but also a high degree of scientific knowledge, since the bombs used marked a distinct advance on anything which had previously come to light, being modelled on the Mills bomb and loaded with ammonium picrate. Police investigation into this case led to the discovery of one of the Mauser pistols stolen from Messrs. Rodda & Co. in 1914 and also a revolver and ammunition. About the same time a young bhadralok was severely injured whilst handling explosives at Faridpur. In May three youths were seen to reconnoitre a building occupied by police officers in circumstances which pointed strongly to an intention to throw a bomb. In July a well-known member of the party was arrested in the streets of Calcutta with a fully loaded revolver in his possession, for which offence he was convicted by the Chief Presidency Magistrate.

At the end of July the public were startled by the appearance of the "Red Bengal" leaflets, the first issue of which announced the initiation of a campaign of assassination of police officers, and warned the public that any one interfering would meet the same fate. The second issue, which appeared shortly afterwards, impressed on the political leaders of Bengal the necessity for the existence of an active violence party and indicated that this party had come to stay. Government are now in a position definitely to state that these leaflets were printed in Calcutta and were issued by a certain section of this party of violence. Terrorist literature of this type, so familiar in the campaign of 1914—18, exercises a most baneful effect on the minds of the student community, while the publication and wide distribution to carefully selected persons simultaneously throughout the province is indicative by itself of the existence of a widespread organisation behind it. Among a large number of persons to whom the leaflets were sent were a Magistrate who held the identification parade in the Alipore conspiracy case, a witness in the case against Gopi Mohan Saha, and the Judge who tried and the Standing Counsel who prosecuted in the bomb case.

On the night of the 22nd of August a bomb of the same type as those referred to above was hurled into a khaddar shop at 25, Mirzapur Street,

Calcutta. The bomb exploded and killed on the spot one man in the shop and severely wounded another. The third occupant of the shop, Sisir Kumar Ghosh, who was dealt with under Regulation III of 1818 in connection with the revolutionary campaign of 1914—18, jumped out of the shop in pursuit of an individual who, he stated, actually threw the bomb. This man, Basanta Kumar Dhenki, was captured Another arrest was also made on the spot at the time of a youth named Santi Lal Chakrabartti They were both placed on their trial at the last High Court Sessions. Santi Lal was unanimously acquitted by the verdict of the jury and was discharged. Basanta Kumar Dhenki, who was found not guilty by a divided verdict of 7 to 2 and 8 to 1 on two different charges, was remanded in custody for re-trial by the presiding Judge, who disagreed with the verdict of the jury. Santi Lal was released from the Sessions Court on the 29th of September. His dead body was found shockingly mutilated between Dum Dum and Belgharia on the early morning of the 3rd October.

The above is a very brief outline of the outward manifestation of the existence of a violent conspiracy as disclosed by overt acts which are already public property, but apart from these specific cases, Government are in possession of information, which has come from various sources and from different parts of the province, which shows that during the course of the current year the conspirators have, in addition, attempted to assassinate police officers, high Government officials, and members of their own organisations whom they suspect of giving information to the authorities. No less than five such attempts are known to have been made during and subsequent to July last. The fact that the intended victims escaped death at the hands of miscreants, who set forth armed with bombs and pistols to murder them, can only be attributed to Providence. In some cases the assassins suspected police vigilance, in others they were thwarted by the unexpected movements of their intended victims. It is impossible, in view of the confidential nature of this information, to make public precise details of these particular plots, but the information regarding them is being continually confirmed by subsequent events and from other sources.

A brief reference may here be made to the campaign in the Press and on public platforms, which has proved so effective an agency in assisting the party to perfect their organisation and increase their numbers. This campaign started in 1922 and has grown in intensity. The eulogy of old revolutionaries, the idealising of youths who committed murders and other crimes, and the publication of their biographies, have all been resorted to with the obvious intention of inciting the youth of Bengal to follow their example. Articles still appear daily in the Indian Press fomenting racial hatred and verging as near to incitements to violence as the law admits.

As the foregoing facts show, the situation has become increasingly serious during the past two years. In June last the terrorist campaign was given a great impetus by the resolution of the Bengal Provincial Conference which expressed admiration for the spirit of self-sacrifice exhibited by Gopi Mohan Saha. The effects of the resolution were electrical; it is by far the most potent recruiting instrument which has ever been placed in the hands of the organisers of violent crime and has been a continual incitement to the youth of Bengal to take to violent ways.

At present then there is in Bengal a large criminal association secretly organised and equipped for a campaign, the immediate object of which is to paralyse Government by the assassination of their officers. The existence of this association is now admitted in all quarters and its magnitude was strikingly emphasised by Mr. C. R. Das in a recent interview with the Press. It is daily increasing in strength and, as in the years before 1915, ordinary measures have failed to check it. The situation has become so serious that the Governor in Council is forced to ask that he may be armed with the extraordinary powers which will alone enable him to deal with it effectively. He has therefore decided to summon the Legislative Council without delay to consider measures of legislation which will be placed before it to that end. This legislation will follow the lines of the Defence of India Act and Rules which proved effective in crushing the conspiracy of 1914—18 which had the same aims, the same methods, and largely the same leaders as the conspiracy of to-day. It was the unanimous opinion of all who examined the question that it is impossible to deal with terrorist crime under the ordinary law or through the ordinary Courts, and that the powers given by the Defence of India Act and Rules proved an effective weapon, whilst no other powers have ever been suggested as really effective. Regulation III of 1818 is not well adapted to deal with the situation; it can be used to deal with irreconcilable leaders, but is unnecessarily harsh for dealing with the rank and file of the conspiracy, among whom are men who may become leaders, potential assassins and recruits, who must be dealt with if the movement is to be checked but can be dealt with by the milder method of internment. Had Government possessed those powers earlier, they would have used them against the murderers of the Sankaritola postmaster and Mr Day, both of whom were known before the murders were committed as recent recruits of the conspiracy, and would thus not only have averted the outrages, but prevented these youths from becoming active criminals. The legislation will further provide for a special procedure for trying persons accused of violent crime. Terrorism of witnesses and juries, failure of juries through fear to return verdicts in accordance with the evidence, the murder of witnesses and persons who have confessed or turned King's evidence, the fear of witnesses to disclose facts within their knowledge—all combine to render justice unobtainable under the existing law. These have already operated in more than one recent case

The legislation will not give Government any extraordinary powers to deal with sedition, with industrial movements or with communal disturbances, even though they may menace the maintenance of order; cases of this kind will be left to the ordinary Courts. It is aimed solely at the secret criminal conspiracy, which has terrorism as its object or method. The Governor in Council is convinced that the large majority of the members view terrorist conspiracy with the same abhorrence as he himself. The necessity for dealing with this terrorist movement swiftly and effectively, so as to ensure the arrest of the most dangerous conspirators without giving them warning which would enable them to carry on and direct the conspiracy whilst in hiding, has compelled the Governor in Council to ask the Governor-General to promulgate an Ordinance on the lines which the Bill will follow.

The Governor in Council regrets that he has been forced by circumstances to have recourse to these extraordinary measures, which are repugnant to him, but in the situation with which he was confronted he had no alternative. All political parties in India have condemned violence as a means of political advance and Government look to every true well-wisher of his country to support them in every measure necessary to suppress anarchy and terrorism. The evils attendant on the former conspiracy, the misery that was caused uselessly, the contamination of youth that resulted, are fresh in their memory, and Government feel assured that the people of Bengal can regard with nothing but horror the possibility of a recurrence of similar calamities.

Chief Secretary
to the Government of Bengal.

POLITICAL DEPARTMENT.

NOTIFICATION.

No. 10905 P.—The 28th October 1924.—In exercise of the powers conferred by section 11 of the Bengal Criminal Law Amendment Ordinance, 1924 [1 of 1924], the Governor in Council is pleased to make the following rules:—

RULES.

Time and place of sitting.

1. Commissioners may sit for the trial of any offence cognizable by them at such times and places as may be convenient.

Appointment and powers of President.

2. (*a*) The President of the Commissioners shall be such one of the Commissioners as the Local Government may nominate in this behalf.

(*b*) The President shall determine the times of sitting, shall pronounce the orders and judgment of the Commissioners and shall have power to regulate all matters incidental to any trial before the Commissioners. The record of the evidence shall ordinarily be made by the President, and the judgment shall ordinarily be written by, or from the dictation of, the President.

(*c*) All or any of the duties specified in sub-section (*b*) may, with the consent of the President, be performed by either of the other Commissioners.

Issue of processes.

3. (*a*) All letters, requisitions, warrants, notices and other processes issued by the Commissioners shall be issued over the signature of the President, or failing him, over that of any one of the Commissioners.

(*b*) The Commissioners shall be entitled to use either their own seal, or the seal of the District Magistrate of the district in which the Commissioners are, for the time being, sitting.

(c) All processes for attendance of witnesses or production of documents, papers or things, and all requisitions for records shall issue in the same way as if the trial were before the Sessions Court of the district.

(d) Applications for processes and for requisitions before the commencement of the trial shall be made to a Magistrate of the first class in the district where the trial is to be held, and such Magistrate shall have power to issue processes and requisitions which will be returnable before the Commissioners.

Absence of Commissioner.

4. (a) In the absence of any Commissioner, the trial shall be adjourned for such time as the remaining Commissioners shall consider reasonable.

(b) In the event of the likelihood of a prolonged absence of any Commissioner, the Local Government may appoint another Commissioner in his stead, and when the Commissioner so appointed takes his seat, the trial shall be resumed from the point at which it was interrupted:

Provided that upon such resumption the accused may require that the witnesses, or any of them, shall be re-summoned and re-heard. Any witness so recalled may be examined at any stage of the case.

Joinder of charges.

5. When a person is accused of more offences than one, and the Commissioners are of opinion that the offences are such that they should be tried together, then the said person may be charged with and tried at one trial for every such offence.

Charge to be read and witnesses to be examined.

6. When the accused appears or is brought before the Commissioners, the charge, if a charge has been already framed, shall be read out and explained to the accused, and he shall be asked whether he is guilty of the offence charged or claims to be tried. If the accused pleads guilty, the plea shall be recorded and he may be convicted thereon. In cases where no charge has already been framed, and in cases where, a charge having been framed, the accused refuses to, or does not, plead, or claims to be tried, the prosecutor shall state briefly the particulars of the offence with which the accused is charged, and the evidence by which he expects to prove the guilt of the accused. As the evidence of each witness for the prosecution is concluded, the accused shall be given an opportunity of cross-examining him, and after such cross-examination (if any) and re-examination (if any) the Commissioners may discharge the witness, and the accused shall not recall for further examination or cross-examination any witness so discharged except with the consent of the Commissioners and subject to such conditions as they may impose.

Framing of charge.

7. When the evidence of all the witnesses for the prosecution has been taken, or at any previous stage of the case, the Commissioners shall, in cases in which no charge has already been framed, if they are of opinion that there is ground for presuming that the accused has committed any offence, frame in writing a charge against the accused. The accused shall thereupon be asked to plead to the charge, and if he pleads guilty the plea shall be recorded and he may be convicted thereon.

Accused to give list of witnesses.

8. As soon as the charge is framed, or in cases in which a charge has been framed before the commencement of the trial, at such stage as the Commissioners may direct, the accused shall be required at once to give, orally or in writing, a list of the persons, if any, whom he wishes to be summoned to give evidence in his defence.

Power of Commissioners to refuse to summon witnesses.

9. If the Commissioners think that any witness is included in the list for the purpose of vexation or delay or for defeating the ends of justice, the Commissioners may require the accused to satisfy them that there are reasonable grounds for believing that the evidence of such witness is material, and if they are not so satisfied, may refuse to summon the witness (recording their reasons for such refusal), or may, before summoning him, require such sum to be deposited as they think necessary to defray the expense of obtaining the attendance of the witness and all other proper expenses.

If any inquiry preparatory to commitment has been held, the provisions of section 288 of the Code shall be applicable.

Absence of accused.

10. If any accused person at any stage of the proceedings is prevented by illness or other cause from being present, the Commissioners may direct that he be allowed to appear in Court by a pleader, and the trial shall thereupon proceed notwithstanding the absence of the said accused person.

Conduct of Prosecution.

11. Any Public Prosecutor, any Police Officer of or above the rank of Court Inspector, and any person appointed in this behalf by the Local Government or by the Superintendent and Remembrancer of Legal Affairs may conduct the prosecution of any case before the Commissioners.

Execution of sentences.

12. When any sentence is passed by the Commissioners, they shall, in causing the sentence to be carried out, observe the procedure prescribed for a Court in Chapter XXVIII of the Code.

Successor in office to the Commissioners.

13. For the purposes of section 389 of the Code, the District Magistrate of the district in which the trial took place shall be deemed to be the successor in office of the Commissioners.

Detention and remand.

14. (*a*) The Commissioners may detain in custody any accused person brought before them for trial.

(*b*) Any District Magistrate shall have power to remand to custody any person in respect of whom an order has been made under sub-section (*1*) of section 3 of the Ordinance until such time as the Commissioners order that the accused shall be brought before them for trial.

Forms.

15. The forms prescribed in the Fifth Schedule to the Code may be used, with such changes as may be required in each case, for the proceedings of the Commissioners.

Deposit of records.

16. The records of cases tried by Commissioners shall be deposited in the record-room of the District Magistrate of the district in which the trial is held.

LOCAL SELF-GOVERNMENT DEPARTMENT.

NOTIFICATIONS.

No. 506T.-L.S.-G.—The 11th October 1924.—In exercise of the powers conferred by section 5 of the Bengal Local Self-Government Act, 1919 (Bengal Act V of 1919), read with rule 2 (*2*) of the Transferred Subjects (Temporary Administration) Rules, and after consideration of the views of the Mymensingh District Board and the Kishoreganj local board, and in partial modification of notification No. 3539L S.-G., dated the 17th May 1921, so far as the establishment of the Ulookandi or Bhairabpur union board is concerned, the Governor of Bengal is pleased to direct that the thanas Hossainpur, Pakundia, Bajitpur, Bhairab, Kuliarchar and Astagram, in the Kishoreganj subdivision, in the district of Mymensingh, shall be divided into the local areas as shown in the table published on page 1417—22 of the Supplement to the *Calcutta Gazette* of date, and that every such local area shall be declared a union for the purposes of the Act.

Mymensingh.

2. In exercise of the power conferred by sub-section (*1*) of section 6 of the said Act, read with rule 2 (*2*) of the Transferred Subjects (Temporary Administration) Rules, the Governor of Bengal is pleased to establish union boards for each of the unions hereby declared and to fix nine as the number of members of each union board.

3. In exercise of the power conferred by sub-section (*3*) of section 6 of the said Act, read with rule 2 (*2*) of the Transferred Subjects (Temporary Administration) Rules, the Governor of Bengal is pleased to direct that one-third of the members of each union board shall be appointed by the District Magistrate on the grounds that the electors are inexperienced and that such appointment is necessary for the due representation of minorities.

No. 4301M.—The 20th October 1924.—The following draft of a notification which the Governor of Bengal intends to issue in exercise of the power conferred by clause (*a*) of section 2 of the Hackney-carriage Act, 1919 (Bengal Act I of 1919), read with rule 2 (*2*) of the Transferred Subjects (Temporary Administration) Rules, is published, as required by the second proviso to that section, for the information of persons likely to be affected thereby.

Nadia.

2. The draft will be taken into consideration on or after the 1st December 1924, and any objection or suggestion with regard thereto which may be received by the undersigned from any rate-payer or inhabitant of the Navadwip Municipality before that date will be duly considered :—

Draft Notification.

In exercise of the power conferred by clause (*d*) of section 2 of the Calcutta Hackney-carriage Act, 1919 (Bengal Act I of 1919), read with rule 2 (*2*) of the Transferred Subjects (Temporary Administration) Rules, the Governor of Bengal is pleased to extend to the Nabadwip Municipality, in the district of Nadia, all the provisions of the said Act except sub-section (*1*) of section 6.

Nadia.

No. 4302M.—The 20th October 1924.—The following draft of by-laws, which the Governor of Bengal proposes to make for the Nabadwip Municipality, in the district of Nadia, in exercise of the power conferred by sub-section (*1*) of section 71 of the Calcutta Hackney-carriage Act, 1919 (Bengal Act I of 1919), read with rule 2 (*2*) of the Transferred Subjects (Temporary Administration) Rules, is published for the information of persons likely to be affected thereby.

2. The draft will be taken into consideration on the 1st December 1924, and any objection or suggestion received by the undersigned before that date through the District Magistrate will be duly considered :—

Draft By-laws under section 71 (1) of the Calcutta Hackney Carriage Act 1919 (Bengal Act I of 1919), for the Nabadwip Municipality.

Appointment and duties of the Registering Officer.

1. Every hackney-carriage in the Nabadwip Municipality shall be annually registered by a registering officer who shall be appointed for the purpose by the Municipal Commissioners and who shall keep a register in which he shall enter the class and number assigned to every hackney-carriage.

Qualifications of drivers.

2. Every person applying for a driver's license shall be required to satisfy the registering officer—

(*a*) that he knows how to drive and control horses and is in all respects a fit person for such employment ;

(*b*) that he is well acquainted with the principal streets, offices and places of interest in and around Nabadwip ;

(*c*) that he has a thorough knowledge of the list of fares and tables of distance prepared by the Municipal Commissioners ; and

(*d*) that he knows the rules of the road and the signals used by drivers and by the police.

3. Licenses for hackney-carriage drivers and bearers of palanquins and rickshaws will be in different forms. There shall be attached to each license in such manner as the Municipal Commissioners may prescribe—

(*a*) the thumb mark of the driver, and

(*b*) a book of fares and distances, to be prepared and printed under the authority of the Municipal Commissioners. The book shall be supplied free of cost to every driver or bearer.

4. Every driver of a hackney-carriage or bearer of a palanquin or a rickshaw shall carry with him and produce when called upon to do so by any police officer or by his fare or by any Municipal Commissioner his license and the book of fares and distances.

5. No hackney-carriage driver shall drive with his feet in any other position than on the foot-board of the vehicle, nor shall he muffle up his face and head in such manner as might endanger the proper driving of his vehicle.

6. No hackney-carriage driver shall be allowed to drive any licensed hackney-carriage or carriages other than specified on his license without the permission of the registering officer.

Uniforms.

7. The uniform of drivers and attendants shall be clean.

Description of horses and carriages, palanquins and rickshaws.

N.B.—By-laws have not been made for 1st class and 2nd class phaeton type hackney-carriages.

8. No horse shall be used to draw a hackney-carriage unless it has been passed by the registering officer, and no horse shall be passed unless it is—

(*a*) not less than 13 hands high if intended to be used in a pair in a second class hackney-carriage,
(*b*) not less than 14 hands high if intended to be used singly in a second class hackney-carriage,
(*c*) not less than 12 hands high if intended to be used in a pair in a third class hackney-carriage,
(*d*) not less than 13·2 hands high if intended to be used singly in a third class hackney-carriage,
(*e*) thoroughly broken to harness,
(*f*) free from infectious and contagious disease, and
(*g*) sufficiently sound and strong for constant hard work.

9. The harness shall be black in colour, of a decent appearance, strong and in good repair; rope or iron chain traces may be used, provided they be covered with leather. No strong fastenings will be allowed.

10. Second class hackney-carriage (bund gharry or brownberry type) shall conform to the following dimensions and be of a pattern fixed by the Municipal Commissioners :—

NOTIFICATION.

Babu Brajamohan Dutt's Prize for Indian Ladies for the year 1924-25.

THE following subject has been selected for "Babu Brajamohan Dutt's Prize" of Rs. 45 for the year 1924-25 :—

The life of an educated lady in a middle class family in Bengal.

The conditions for the award of the prize are—

(1) That the competition be open to all educated women, being natives of Bengal, without regard to age.

(2) That the prize of Rs. 45 be given for an essay to be written either in Bengali or Sanskrit.

(3) That the essays be sent to the Central Text-book Committee for adjudication within six months of the date of advertisement.

(4) That each essay be accompanied by a written declaration from the husband, parent or guardian of the competitor that, to the best of his belief, she has received no assistance of any kind, direct or indirect, in writing the essay.

Candidates are requested to send their essays not later than the 31st March 1925 to the Secretary to the Central Text-book Committee, Office of the Inspector of Schools, Presidency Division, 40-A, Free School Street, Calcutta. The envelope containing the essay should be superscribed "Brajamohan Dutt's Prize Essay." The name of the successful competitor will be published in the *Calcutta Gazette*.

A lady who wins the prize in any year is not debarred from subsequent competition, and if the essay submitted by a competitor who has been previously successful is adjudged to be the best, the name of such a competitor will be published in the *Gazette* as the winner of the competition. The actual prize will, however, in these circumstances, be awarded to the competitor whose essay is adjudged to stand next in order of merit, provided that her essay comes up to the standard required by the next clause.

If none of the essays come up to a standard which is, in the opinion of the examiners, adequate, no prize will be awarded.

Notice.

THE Bengal and Madras Service Family Pension Fund which is provisionally managed and assisted by Government has for its object the provision of monthly pensions for the maintenance of the widows and children of subscribers and is open, with certain exceptions, to all active and pensioned members of the Uncovenanted Service of Government (except those serving under the Government of Bombay), and to Local Fund servants earning pensions from Government. Some of the special features of the fund are—(1) that widowed daughters incapable of remarriage or children labouring under such mental or bodily infirmities as incapacitate them from earning their livelihood or preclude the possibility of marriage (in case of a daughter) are admitted to its benefits ; and (2) that subscribers to the Widows' and Daughters' branches are entitled to a refund of 30 per cent. of the premia paid, should the nominees predecease them after five years of admission. The second quinquennial valuation of the fund has been completed by the Actuary to the Government of India and his report discloses very favourable results. For forms of application and rules of the Fund apply to the Accountant-General, Central Revenues, Imperial Secretariat Buildings, Calcutta.

Amendments.

I. *For* rule 1 *substitute* the following, namely :—

1. (*1*) The budget estimate of the union board, which shall be prepared in Form No. I for the ensuing Bengali year, shall be divided into three parts, viz., Part I, Part II and Part III.

(*2*) Part I shall include only receipts under section 37 (*a*) of the Act and expenditure on the collection of such receipts and on watch and ward.

(*3*) Part II shall include on the receipt side—

(*a*) receipts under section 37 (*b*) of the Act,

(*b*) any contribution due from the district or local board under the proviso to section 33 of the Act, and

(*c*) such other contributions as the district board may make under the first part of section 45 to assist in the ordinary routine administration,

and on the expenditure side—

expenditure on roads, drainage, water-supply, sanitation, conservancy, schools dispensaries, etc.

(*4*) The amount of the contribution mentioned in clause (*b*) of sub-rule (*3*) shall be fixed by the district or local board once for all when the work for which it is meant is transferred to the union board and shall be based on the average of actuals for the three years immediately preceding such transfer. The contributions mentioned in clause (*c*) of sub-rule (*3*) will ordinarily be comparatively small sums allotted to all union boards in the district, irrespective of their efficiency, to enable them to meet their ordinary routine expenditure. These contributions shall be fixed for a term of years. The amounts of the contributions under both clauses (*b*) and (*c*) of sub-rule (*3*) shall be communicated by the district or local board not later than the 23rd December immediately preceding the year to which the budget relates.

(*5*) Part III shall include the special contributions to be received by the union board during the ensuing year from the district board under section 45 as a recognition of efficient administration or under the proviso to that section and the expenditure to be incurred from such contributions.

(*6*) The district board, when considering its own budget in December, shall determine the total amount which it will provide for the entire district on account of both the special contributions mentioned in sub-rule (*5*) and of the fixed grants mentioned in clauses (*b*) and (*c*) of sub-rule (*3*), but the amount to be allotted to any union board under sub-rule (*5*) shall be determined after the district board has considered the circle officer's report regarding the working of such union board in the year previous to that for which the budget is framed. Where no rate is imposed under clause (*b*) of section 37, a special supplementary grant under sub-rule (*5*) may still be granted on account of efficient administration, in addition to the normal grant under clauses (*b*) and (*c*) of sub-rule (*3*). The circle officer's audit report under rule 19 shall reach the district board not later than the 30th June, and the district board, having regard to the efficiency of the union board as disclosed by this report and to the amount realized in the past year under clause (*b*) of section 37, will proceed to apportion between different union boards the amount provided in its budget in the form of special contributions under the proviso to section 45. The district board shall inform the union board concerned of the amounts thus allotted, before the 15th August.

I-A. (1) Parts I and II of the budget estimate shall be submitted annually by the union board to the district board on or before the 25th January for sanction of items other than those relating to dafadars and chaukidars. Items relating to dafadars and chaukidars (*i.e.*, a copy of Part I) shall be submitted on or before the 25th January to the District Magistrate through the Circle Officer and the Subdivisional Magistrate for sanction.

(2) A copy of Parts I and II of the budget estimate in Bengali shall, as soon as they are adopted by the union board, be lodged in the office of the union board for public inspection.

(3) Every union board which is to receive the special contributions mentioned in sub-rule (*5*) of rule 1 shall submit to the district board not later than the 30th September Part III of the budget estimate showing the manner in which it proposes to spend the allotment.

I-B. If the district board is generally satisfied with the proposed expenditure shown in Part III of the budget estimate, it shall forthwith proceed to disburse the grant so as to enable the union board to make full use of the working season. The union board shall be given as much discretion as possible in the utilization of the special grant which it may have earned by its work in the previous year.

A copy of Part III of the budget as approved by the District Board shall be lodged in the office of the union board for public inspection.

I-C. When a union board is for the first time constituted in any union it may prepare its first estimate for a part only of the year in which it is so constituted or of the year next following.

II. *For* rule 19 *substitute* the following, namely :—

A complete audit of the union board's accounts shall be carried out within the union by the Circle Officer, and a report on such audit and the working of the union board during the past year shall be submitted by him to the district board not later than the 30th June of the ensuing year. The report shall be written after the Circle Officer has examined the accounts and inspected the work done by the union board. Such inspection should be conducted by him in a public manner after notice has been given of his visit to the union.

III. *For* Form No. I *substitute* the following :—

NOTE.—The following suggestions are made as to the matters which should specially engage the attention of the Circle Officer during his audit:—

The Circle Officer should not confine himself to a mere checking of a receipt against an entry in a register, or of one register against another. He should ascertain whether the union board has realized during the year the whole of the sums due to it, and in the case of deficit he should note what action the union board has taken to enforce payment As regards pounds, for example, he should ascertain whether the union board realized during the year the full amount for which each pound was sold. If not, he should note whether the union board enforced payments quarterly in advance, and on the lessee's failure to comply, whether the union board cancelled his lease and resold the pound for the remainder of the year. As regards union rates, the Circle Officer shall see whether the union board took prompt and adequate steps to ensure the realization of the rates within the year. For example, did the union board publish lists of defaulters, issue distress warrants in time, and take prompt steps for the realization of the arrear rates by selling the defaulters' property? If not, the Circle Officer should ascertain whether the union board has any explanation to offer. The Circle Officer should also advise the board as to what action can still be taken to recover such of the arrears as have not become time-barred. As regards expenditure, the Circle Officer should bear in mind that a voucher or receipt is not necessarily a proof that the money was actually spent for the purpose against which it is shown in the receipt and cash book. Two or three items should be selected haphazard, and the Circle Officer should make independent enquiries as to whether money to that extent was actually spent on the purpose named.

Calcutta.

No. 575T.-M.—The 23rd October 1924.—In pursuance of section 49, sub-section (*1*) of the Calcutta Improvement Act, 1911 (Bengal Act V of 1911), it is hereby notified for general information that in exercise of the powers conferred by section 48 of that Act, read with rule 2 (*2*) of the Transferred Subjects (Temporary Administration) Rules, the Governor of Bengal is pleased to sanction the Street Scheme known as Scheme No VII-F (from Central Avenue to Chitpur Road Upper) in Ward No. 6 of the Calcutta Municipality which has been submitted to him by the Board of Trustees for the Improvement of Calcutta under section 47 of the said Act.

Description of the Scheme.

The scheme provides for the construction of a portion of proposed Public Street No. XIII (Juggernath Ghat Road) which has been sanctioned by Government. It provides for the construction of an 84-ft. road from Central Avenue to Chitpur Road Upper in continuation of the Trust's Scheme No. VIIC. It also provides for the widening of portions of Balaram De Street and Chitpur Road Upper to 40 feet and 50 feet respectively, in accordance with the Calcutta Corporation alignments.

The scheme provides for the acquisition of the land within the blue verge as shown on the plan of the scheme, and the surplus land will be relaid in suitable building plots as shown approximately on the plan showing the lay-out. It is however the intention of the Board of Trustees for the Improvement of Calcutta to arrange that where a plot is formed principally out of land in one ownership, such owner will have the opportunity of acquiring or retaining the new plot.

2. The area covered by the Scheme is bounded as follows :—

On the North—From a point on the middle of Chitpur Road Upper about 25 feet west from the north-western corner of No. 78, Chitpur Road Upper, running eastwards in a straight line across Balaram De Street to the north-eastern corner of 48-2-2, Balaram De Street.

On the East—From this point southwards along the eastern boundaries of 48-2-2, Balaram De Street, 48, 49 and 47, Chasadhobapara Street, to the south-eastern corner of No. 47, Chasadhobapara Street, thence crossing Chasadhobapara Street in a straight line to the north-eastern corner of 36, Chasadhobapara Street, thence running southwards along the eastern boundary of No. 36, Chasadhobapara Street to its southern corner, thence westward in a straight line to a point on a public passage about 5 feet south from the south-western corner of No. 38, Chasadhobapara Street. Thence southwards and eastwards along the said

passage to a point about 10 feet north from the north-eastern corner of No. 32, Jorapukur Square Lane, thence southwards in a straight line to a point on the northern boundary of No. 33, Jorapukur Square Lane, about 11 feet west from its north-east corner, thence eastwards along the northern boundaries of Nos. 33 and 26, Jórapukur Square Lane, thence westwards along the southern boundaries of Nos. 26, 27, 27-1, 31, 28 and 29, Jorapukur Square Lane, to the south-western corner of No. 29, Jorapukur Square Lane. Thence southwards in a straight line along the western edge of Jorapukur Square Lane to a point on the said lane about 120 feet south from the north-eastern corner of No. 39, Jorapukur Square Lane.

On the South—From this point running westwards in a straight line to a point on Chitpur Road Upper, about 20 feet west from south-western corner of No. 69-1, Chitpur Road Upper.

On the West—From this point northwards in a straight line to the starting point.

NOTIFICATIONS.

No. 79 Marine.—The 29th October, 1924.—In exercise of the power conferred by section 21 of the Indian Merchant Shipping Act, 1923 (XXI of 1923), and with the previous sanction of the Governor-General in Council, the Governor in Council is pleased to make, in supersession of the previous rules on the subject, the following rules for the conduct of examinations for masters and mates of foreign-going ships and home-trade ships and regarding the qualifications to be required.

A. MARR,
Secretary to the Government of Bengal.

REGULATIONS RELATING TO THE EXAMINATION OF MASTERS AND MATES.

CHAPTER I.

GENERAL RULES.

1. **Authority for Regulations.**—These regulations are issued in pursuance of Act XXI of 1923.

By sections 15 and 21 of that Act provision is made for holding examinations for the grant of certificates of competency and power is given to the Local Government with the sanction of the Governor-General of India in Council to make rules for the conduct of such examinations and the qualifications of the applicants.

In accordance with section 11 of the same Act every British foreign-going ship* and every British home-trade ship of 300 tons or upwrads when going to sea from any place in British India shall be provided with officers duly certificated under that Act or under the Merchant Shipping Act, 1894, and whoever, having been engaged to serve as Master or Mate, goes to sea as aforesaid as such Master or Mate, without being at the time entitled to and possessed of such a certificate, and whoever employs any person as such Master or Mate without ascertaining that he is at the time entitled to and possessed of such certificate is, for each such offence, liable to a penalty of Rs. 500.

For rules for the examination of candidates for certificates of competency as Master and Mate of home-trade sailing-vessels exceeding 300 tons, but not exceeding 1,000 tons burden, *see* the rules in Appendix M.

2. **Time and place of examinations.**—Examinations will be held at the Port Office, Calcutta, on the following days: 1st Monday in January, April, July and October and 2nd Monday in February, May, August and November.

Examinations of candidates for certfiicates of competency as Master and Mate of home-trade sailing vessels exceeding 300 tons, but not exceeding 1,000 tons burden will be held at the Port Office, Chittagong on such dates as may be fixed by the Port Officer, Chittagong, with the sanction of the Local Government.

3. **How to apply.**—Candidates for examination must fill up a form of application (Form Exn. 2) at the Port Office. The form, properly filled in, together with the candidate's testimonials and discharges, must be lodged with the Port Officer, Calcutta, not later than the day before the day of examination; and the candidate must conform to any regulations in this respect which may be laid down by the Local Government. The discharges and testimonials should be handed in, together with the form of application, as many days as possible before the date of the examination which the candidate desires to attend. In the absence of the necessary verification the candidate cannot be examined.

The Examiner should be particularly careful to ascertain that there are no gaps in the candidate's service which are not properly accounted for, before he is allowed up for examination.

* "Foreign going ship" means a ship not being a home trade ship employed in trading between any port in British India and any other port or place, and "Home Trade Ship" means a ship employed in trading between any ports in British India or between any port in British India and any port or place on the Continent of India or in the Straits Settlements or in the Island of Ceylon.

4. **How to apply in special cases.**—In cases where a candidate is in doubt whether his service complies with the Regulations, and wishes to submit his case for special consideration, all certificates, discharges, and testimonials, together with the form of application,* properly filled in, should be submitted to the Port Officer. If necessary, the officer will, after seeing that all the required information is clearly set forth in the papers, forward them with his observations to the Local Government for decision.

5. **Inquiries.**—All other inquiries regarding examinations should be made and dealt with in the same way. The point on which information is sought should be clearly stated, and certificates, discharges, testimonials, etc., should always be forwarded with the inquiry.

6. **Nature of service determined by actual position on board ship.**—Sea service, in the foreign or home trade, cannot be regarded as qualifying for examination for certificates of competency unless it can be verified by reference to the articles of the ship on which it was performed, *e.g.*, service claimed by testimonial or otherwise to have been as Mate when the actual rating as shown by the articles was only that of boatswain or other petty officer will not be accepted where officer's service is required. Where servicce as First (or Second) Mate is required to qualify for examination the candidate must actually have held the executive position next (or next but one) to the Master.

Candidates who represent themselves as having served in a higher capacity than that actually held in the ship render themselves liable to prosecution.

In this connection examiners should remember that it has been a common practice for officers to be rated on ship's articles as "Second Mate," although in reality they were only Third or Fourth Mates and acted in one of those positions on board ship.

In every case where a candidate for a Master's certificate of competency claims service as Second Mate, he should be requested to make a declaration in Divn. H of the Form Exn. 2*, to the effect that during his service as Second Mate he had only one officer over him, or if more than one that a Third and Fourth Mate were also carried.

If the service claimed is as "auxiliary Second Mate" the candidate should be required to state the number of officers serving in a junior capacity.

A candidate with First Mate's service should make a declaration that he was the senior officer under the Master, or if not, he must comply with the requirements of rule 85, as it has been found that in some cases the Second Mate has been signed on the articles as First Mate, the proper First Mate being called chief officer simply for examination purposes.

It must be clearly understood that the amount of service laid down in the Regulations for each grade of certificate of competency is the absolute minimum that can be accepted, and unless a candidate can show the full amount he must in no case be allowed up for examination.

7. **Testimonials required.**—Testimonials to character, including sobriety, and to experience and ability, on board ship for at least the last twelve months of sea service preceding the date of application to be examined, will be required of all candidates, and without producing them no person will be examined.

8. **Penalty for misconduct.**—Candidates who have neglected to join their vessels after having signed articles, or who have deserted their vessels after having joined, or who have been found guilty of gross misconduct on board, will be required to produce satisfactory proofs of two years' subsequent service and good conduct at sea, unless the Local Government, after having investigated the matter, should see fit to reduce the time.

9. **Deafness and other physical and mental disabilities.**—If during the progress of the examination the examiner finds that a candidate is afflicted with deafness, with an impediment in his speech, or with some other physical or mental infirmity, and he is satisfied upon further investigation that the degree of deafness or of the impediment or other infirmity is such as to render the candidate incompetent to discharge the ordinary duties of a Mate or Master at sea, he should not allow the candidate to complete his examination and should return his examination fee; but every case in which this action is taken must be reported to the Port Officer.

If the candidate subsequently produces a medical certificate to the effect that his hearing, speech, or physical or mental condition has improved or is normal, the Port Officer will take into consideration the question of allowing the candidate to sit again for examination.

* Form Exn 2, which can be obtained at Port Office.

10. **Foreigners must know English.**—Foreigner must prove to the satisfaction of the examiners that they can speak and write the English language sufficiently well to perform the duties required of them on board a British vessel. If a candidate fails for ignorance of the English language he will not be re-examined until after a lapse of six months. In the case of candidates for Home Trade certificates, the certificates of Asiatics who may not be able to speak English shall be endorsed to the effect that they are valid only for vessels manned and officered entirely by Asiatics.

11. **Issue of certificate.**—If the candidate passes he will receive a form (Form Exn. 16) authorising the Port Officer to whom it is addressed to issue the certificate. It is, therefore, important that the port at which the certificate is to be issued should be the same on both the Form Exn. 16 and the Form Exn. 2. If circumstances should make any alteration necessary, the examiner should see that it is made in both forms, otherwise delay in the issue of the certificate may be caused.

12. **Service found to be insufficient.**—If after a candidate has passed the examination it is discovered on further investigation that his services are insufficient to entitle him to receive a certificate of the grade for which he has passed, the certificate will not be granted to him; but if the Local Government is satisfied that the error in the calculation of the candidate's services did not occur through any fault or wilful misrepresentation on his part, he may either have the fee returned to him or have it placed to his credit. Should his services entitle him to a certificate of a lower grade it may be granted to him, and the difference, if any, between the fee paid by him for the superior certificate and the fee payable for the inferior certificate will be returned to him or placed to his credit. The superior certificate will not be granted until the candidate has performed the amount of service in which he was deficient, and has been re-examined in all the subjects, unless the Local Government see fit to dispense with the re-examination.

13. **Failure in Examination.**—In all cases of failure the candidate must be examined anew. If a candidate fails in Seamanship he will not be re-examined until after a lapse of six months. Whether the whole or part of this period must be served at sea must depend upon the subjects in Seamanship in which the candidate failed, but the amount of further sea service to be required will be left to the discretion of the examiner.

14. **Examiner's Report.**—The examiner, in making his report on the Form Exn. 14, should state what amount, if any, of further sea service the candidate must perform, and he should also insert this information in the Form Exn. 2.

15. **Failure in Navigation.**—If a candidate fails three times in Navigation within three months, he will not be re-examined until after a lapse of three months from the date of the last failure.

16. **Candidates failing may be examined for certificate of lower grade.**—If a candidate fails in his examination for a foreign-going certificate, and the subjects in which he has failed are not included in the syllabus prescribed for a certificate of a lower grade, he may, if he so desires, be examined for the lower grade certificate without further formal application or payment of fee, but he will be required to complete the whole of the work prescribed for such lower grade.

No part, however, of the fee he has paid will be returned to him, and on presenting himself, when qualified, for re-examination for the higher certificate, he will be required to pay again the full fee for the examination.

17. **Failure in Seamanship.**—If a candidate fails in Seamanship so far as regards the management of square-rigged sailing vessels, in his examination for an ordinary certificate, he may, if qualified as to service, without further formal application or further payment of fee proceed with the examination for a certificate of competency for foreign-going steamships, or for fore-and-aft rigged vessels.

18. **Fee always paid first.**—Candidates for examination and persons enquiring as to the eligibility will be required in making their application on Form Exn. 2, to pay the examination fee before any step is taken in the way of inquiring into their services or testing their qualifications. If the candidate is found not to be eligible the fee will either be returned to him or placed to his credit until he is eligible.

19. **Where to pay fees.**—The fee for examination must be paid to the Port Office. If a candidate offers a gratuity to any officer of the Department, he will be regarded as having committed an act of misconduct, and will be rejected, and not allowed to be again examined for

twelve months either at the port where the offence was committed, or at any other port.

20. **Fee not returned on failure.**—If a candidate fails to pass the examination no part of the fee will be returned to him.

21. **Table of fees.**—The fees are as follows:—

FOR FOREIGN-GOING SHIPS.

	RS.	A.	P.
Second Mate	15	0	0
First or Only Mate—			
If previously possessing an inferior certificate, either granted by the Board of Trade, or by the Government of a British possession under Order in Council	7	8	0
If not	15	0	0
Master	30	0	0
Where a candidate is in possession of a certificate for fore-and-aft rigged vessels, and requires an Ordinary or a Steamship certificate of the same grade; or where a candidate is in possession of a Steamship certificate, and requires an Ordinary certificate of the same grade	Half the usual fee.		
Where a candidate is in possession of a Colonial certificate for foreign-going ships, not granted under Order in Council; or of a provisional certificate of qualification obtained after examination on board one of His Majesty's ships; and requires a colonial certificate issued by the Government of Bengal of same grade; for first attempt	No fee.		
Every subsequent attempt	Usual fee.		

FOR HOME-TRADE SHIPS.

	RS.	A.	P.
Mate	7	8	0
Master	15	0	0

VOLUNTARY EXAMINATIONS.

	RS.	A.	P.
Voluntary examination in Steam	15	0	0
Voluntary examination in Compass Diviation	15	0	0
Voluntary examination in Signalling; if taken at the same time as the examination for a certificate of competency	No fee.		
If taken at any other time	15	0	0

FOR YACHTS.

	RS.	A.	P.
Master	30	0	0

NOTE.—No abatement will be made in the fee charged to a candidate for a certificate for foreign-going ships in consequence of his possessing a Master's or Mate's certificate for home-trade passenger ships.

22. **Copy of Lost Certificate.**—An applicant for a certified copy of a lost Certificate either of Competency or Service, must fill in a form of application, Exn. 23, giving the particulars required, and hand it to the Port Officer of Calcutta. A declaration as to the circumstances in which the certificate was lost must be made by the applicant before the Port Officer who will state thereon whether a fee is to be charged or not, and will forward a certified copy of the lost certificate to the applicant.

No fee will be charged if the applicant can prove that the certificate was lost through ship wreck or fire.

23. **First Aid to the Injured.**—(*a*) Every candidate for a Certificate of Competency of any grade as Master or Mate will be required to produce a certificate issued by the St. John's Ambulance Association, the St. Andrew's Ambulance Association, the St. Patrick's Ambulance Association, the British Red Cross Society, the London County Council, the Glamorgan County Council, the Leith Nautical College or other approved body or by a Medical Officer of one of His Majesty's ships, to the effect that he has passed examination in First Aid to the injured.

(*b*) The certificate must be an adult certificate, *i.e.*, obtained by the candidate when sixteen years of age or more, and the examination for it must have been passed not more than three years before the date of the examination for the certificate of competency. Certificates issued by the St. John's Ambulance Association more than three years before the examination for a certificate of competency will, however, be accepted, provided that, at the expiration of three years since its issue, the certificate has attached to it the "Voucher" or "Label" of the Association certifying that the holder has passed re-examination in First Aid.

(c) If a candidate does not possess such a certificate of proficiency in First Aid he should apply some time before he wishes to sit for examination for a certificate as Master or Mate to the local secretary of one of the approved Associations, who will inform him of the available facilities for the instruction and examination of candidates in First Aid. A list of the names and addresses of the local secretaries of the Associations is given in Appendix B.

(d) Besides the courses of instruction which are provided on shore at the ports in the United Kingdom, at which examinations for certificates as Master and Mate are held courses of instruction given by qualified surgeons on board merchant vessels will be accepted by the St. John's Ambulance Association as qualifying the candidate for examination for their certificate of proficiency in First Aid, provided the surgeon certifies that he has followed the syllabus of instruction laid down by the Association.

(e) The St. Andrew's Ambulance Association will also accept instruction by a ship's surgeon on board ship as qualifying a candidate for examination for their certificate of proficiency in First Aid, provided their syllabus is followed. In this case the candidate must previously have enroled and obtained an attendance card, by applying to the local secretary of the Association, or to the head office at 176, West Regent Street, Glasgow.

(f) It will not be necessary for the candidate for a certificate as master or mate in all cases to produce the formal certificate of proficiency in First Aid issued by the Associations. In order to prevent delay in proceeding with the examination for the certificate as Master or Mate and in the issue of the certificate to successful candidates, the special Mercantile Marine linen certificate issued by the St. John's Ambulance Association and duly signed by the Lecturer, the Surgeon Examiner, and the Association's local representative, or, in Scotland, a certificate signed by the Local Examiner of the St. Andrew's Ambulance Association, to the effect that the candidate has passed the examination for a certificate of proficiency, may be accepted as showing that the candidate possesses the required knowledge of First Aid.

24. **Sight tests.**—(a) Every candidate for a certificate of competency must pass the prescribed sight tests before a certificate can be issued to him. If circumstances render it necessary for him to proceed with the examination in navigation and seamanship before undergoing the sight tests, he should be informed that the examination in navigation and seamanship will be cancelled in the event of his failure to pass either of the sight tests.

(b) **Letter test.**—Every candidate for a certificate must pass the letter test. If he obtained a certificate of competency before January 1st, 1914, he will only be required to possess half normal vision using both eyes together. Otherwise he must pass a higher standard, viz., normal vision using both eyes or either eye separately.

Any candidate who has obtained his first certificate under these conditions may obtain his higher certificates, provided that he has normal vision using both eyes or either eye separately.

Detailed information with regard to the conduct of the examination and the standards required is contained in Appendix H.

(c) **Lantern test.**—Every candidate must undergo the lantern test on every occasion on which he presents himself for examination for his first certificate of competency; but, if he then passes, he will not be required to undergo the lantern test on any subsequent occasion.

No person who holds a certificate of competency should be examined in colour vision.

(d) A candidate who fails to pass the prescribed form vision test may present himself for re-examination at intervals of three months. A candidate who fails to pass the lantern test cannot be re-examined. In the case of a candidate who is referred for further examination the Port Officer will make arrangements for a special examination. It is also open to any candidate who is adjudged to have failed in the lantern test to appeal to the Local Government, who may, if they think fit, remit the case to a special body of examiners for decision.

(e) The Local Government will repay, at a rate which will be notified to the candidate, the travelling expenses of any candidate who is referred for further examination, as well as the travelling expenses of any candidate who, having appealed against failure, is reported by the special examiners to have passed. No payment whatever will be made towards the expenses of candidates who, upon their own application, are examined by the Special Examiners, and are reported by them to have failed, unless

the Local Government consider that the particular circumstances of the case justify such payment.

(*f*) When a candidate fails to pass the lantern test, the examiner will point out to him the conditions under which he can appeal. Appeals are to be made through the Port Officer, and forwarded to Local Government with the Examiner's remarks.

(*g*) Only Examiners who have themselves passed the lantern tests are to undertake the local examinations.

(*h*) The fee paid for examination for a certificate of competency includes the fee of two rupees for examination in form and colour vision, and if the candidate fails to pass those tests, this fee will, with the exception of two rupees, be returned to him.

(*i*) No additional fee will be charged to any candidate referred for special examination, but a candidate who appeals against failure will be required to pay a special fee which will be returned to him if he passes the special examination. If a candidate, who has been reported by the Special Examiners as having failed, is still dissatisfied, it will be open to him, if he so desires, to present himself for a second special examination on payment of a fee of rupees seventy-five, provided that he brings with him a friend to witnesss the examination.

This second examination will, however, be entirely voluntary, and will form no part of the examination for a certificate of competency. The Local Government will, however, give consideration to the result of such examination in determining whether a certificate shall be granted.

The sight tests are open to all persons serving or intending to serve in the Mercantile Marine or in fishing vessels, and all such persons recommended to take the earliest opportunity of ascertaining whether their vision is such as to qualify them for service in that profession. Any such person, if desirious of undergoing the tests, must make application to the Port Officer, on the Form Exn. 2a, and must pay a fee of two rupees.

This fee will be payable on each occasion on which a candidate is examined.

24A. **Fees in Appeal Cases.**—Candidates who on appeal from the result of the local tests are granted a special examination are notified by the Port Officer of the time at which they should attend for special examination and are expected to inform the Port Officer whether or not they will be able to attend at that time. A candidate who, after informing the Port Officer that he will attend, fails to appear at the time appointed, will forfeit the appeal fee of Rs. 30 and will be required to deposit a further fee of the same amount before further arrangements can be made for his special examination.

CHAPTER II.

QUALIFICATIONS REQUIRED FOR THE VARIOUS GRADES.*

[Certificates for Foreign going Ships, or Ordinary Certificates.]

25. **Square-rigged service required.**—A candidate for an Ordinary certificate of any grade who has not previously held an Ordinary certificate of a lower grade must prove that he has served 12 months in the Foreign trade, or 18 months in the Home or Coasting trade, in a square-rigged sailing vessel.

26. **Value of Ordinary Certificates.**—Ordinary certificates will entitle the holders to go to sea as Mates or Masters of any vessel, sailing or steam.

27. **Second Mate.**—A candidate must be not less than eighteen years of age, and must have served four years at sea.

27A. **Second Mate.**—Every candidate will be required to produce a valid Board of Trade Certificate of Efficiency as Lifeboatman.

28. **Second Mate, Ordinary; Navigation.**—A candidate for a Second Mate's certificate will be required—

(*a*) To write a legible hand and spell correctly. For the purpose of testing his ability the candidate will be required to write a short essay on some suitable subject.

(*b*) To show a competent knowledge of the first five rules of arithmetic and the use of logarithms.

(*c*) To answer questions on elementary plane trigonometry.

(*d*) To work a day's work complete, correcting the courses for leeway, deviation and variation.

* These qualifications are shown in tabular form in Appendix I

† Rule 27A will come into force from the 1st January 1926.

(*e*) To find the latitude by the meridian altitude of the sun.
(*f*) To work any practical problem in parallel sailing.
(*g*) To find the true course and distance from one given position to another by mercator's method; also the compass course, the variation and deviation being given.
(*h*) To find the true amplitude of the sun and the error of the compass therefrom, also the deviation, the variation being given.
(*i*) To find the longitude by chronometer from altitude of the sun by the usual methods, computing the daily rate of chronometer from errors observed, when required; also to find the true azimuth of the sun, and the error of the compass; and the deviation, the variation being given.
(*j*) To find the true azimuth of the sun by the "Time Azimuth" tables; the error of the compass; also the deviation, the variation being given.

NOTE.—The candidate will be required to give a figure and explanation for each problem worked, and give a written explanation of any of the terms used in navigation or nautical astronomy that may be asked.

(*k*) To find on a chart or plan the course or courses to steer and the distance or distances from one given position to another; to find the ship's position together with the set and drift (if any) on the chart or plan from cross-bearings of two objects; to find the ship's position from two bearings of the same object, the course and distance run between taking the bearings being given, making due allowance for a given tide or current; also, the distance of the ship from the object or any given position at the time of taking the second bearing; to find on a chart or plan the course to steer by compass in order to counteract the effect of a given tide or current, and find the distance the ship will make good towards a given point in a given time; to fix a ship's position on a chart or plan by horizontal sextant angles, using a station pointer; and to work out practically the correction to apply to soundings taken at a given time and place to compare with the depth marked on the chart; and give a method of finding approximately the time of high water at any given place without the aid of the Admiralty or other Tide Tables.

He will be examined orally in the following subjects:—

(*l*) The Morse and British movable semaphore alphabets, the International Code of Signals, and the Allied Signal Manual. He will be required to attain a minimum speed of 10 words a minute in semaphore and 6 words a minute in Morse flashing and 5 words a minute in Morse flag waving. (*See* Appendix C.)
(*m*) The use and adjustment of the sextant, read off and on the arc, and the mode of finding the index error by both horizon and sun.
(*n*) The construction, use and principle of the barometer, thermometer and hydrometer. Also the use and care of a chronometer.
(*o*) Weights and measures.
(*p*) The markings, signs and abbreviations on Admiralty charts or plans.
(*q*) The General Notices published in the Board of Trade Summary of Notices to Mariners.
(*r*) Elementary questions on the main parts of a ship's construction.

29. **Second Mate, Ordinary: Seamanship.**—He must understand and give satisfactory answers on the following subjects:—

(*a*) The standing and running rigging of ships.
(*b*) Bending, unbending, setting, reefing, taking in, and furling sail.
(*c*) Sending masts and yards up and down, etc.
(*d*) Management of a ship when under canvas.
(*e*) Management of ship's boats in heavy weather.
(*f*) Dunnaging and stowing cargo, etc.
(*g*) The Rule of the Road as regards both steamers and sailing vessels, their regulation lights and fog and sound signals.
(*h*) The signals of distress, and the signals to be made by ships wanting a pilot, and the liabilities and penalties incurred by the misuse of these signals.

(*i*) The marking and use of the lead and log lines. Also care and use of sounding machines and mechanical logs.

(*j*) The use and management of the rocket apparatus in the event of a vessel being stranded.

(*k*) Any questions appertaining to the duties of a Second Mate that the Examiner may think necessary to ask.

(*l*) Also questions on the additional subjects which are specified in the rules of examination for Second Mates' certificates of competency for foreign-going steamships. (*See* rule 42.)

30. **Only Mate, ordinary.**—A candidate must not be less than nineteen years of age, and have served five years at sea.

31. **First Mate, Ordinary.***—A candidate must be not less than nineteen years of age, and have served five years at sea, of which—

(*a*) One year must have been in a capacity not lower than Fourth Mate of a foreign-going vessel whilst holding Second Mate's certificate for foreign-going vessels;

if his service was as Third or Fourth Mate proof will be required that he had during the whole year *charge of a watch* (*see* rule 84);

(*b*) *or* one year and a half must have been in a capacity not lower than Only Mate in a home-trade or coasting vessel whilst holding a Second Mate's certificate for foreign-going vessels, or a Mate's certificate for home-trade passenger ships;

(*c*) *or* one year must have been as Pilot with a First Class Pilot's Certificate (*see* rule 81).

31A.† **First and Only Mate.**

(*i*) Candidates will as a rule be allowed to employ any recognised method for the solution of the problem mentioned in rule 32 (*i*) of the rules (to find line of position and the true bearing of the sun, and the ship's position), but all candidates will be expected to have a knowledge both of Summer's Method and of the Marc St. Hilaire method of position lines, and in a few of the papers set the candidates will be restricted to one or other of these methods.

(*ii*) Candidates will also be required to answer a few elementary questions on stability.

32. **Mate, Ordinary: Navigation.**—In addition to the work for the Second Mate's certificate, a candidate for the Only or First Mate's certificate will be required—

(*a*) To answer questions on right-angled spherical trigonometry.

(*b*) To compute the time at which a given star will be on the observer's meridian. [Occasionally by inspection.]

(*c*) To determine what bright stars will be within a certain hour-angle from the observer's meridian, above the pole and above the horizon, at any given time; also the hour-angle, east or west, of each of the stars, and whether they are to the north or south of the observer's zenith when passing the meridian.

(*d*) To compute the approximate meridian altitude of a star, for setting the sextant.

(*e*) To find the latitude from the meridian altitude of a star.

(*f*) To find the longitude by chronometer by altitude of a star.

(*g*) To find the true azimuth of a star by the "Time Azimuth" tables, and get the deviation there from.

(*h*) To find the latitude by ex-meridian altitude of the sun or a star.

(*i*) To find the line of position and the true bearing of the sun, and the ship's position, by Sumner's method by projection.

NOTE.—The candidate will be required to give a figure and explanation for each problem worked, and give a written explanation of any of the terms used in navigation or nautical astronomy that may be asked.

(*j*) To answer certain questions on meteorology.

He will be examined orally in the following subjects:—

(*k*) How to keep a ship's log-book.

(*l*) How to calculate the capacity of a given bunker or hold.

(*m*) How to calculate a freight and its commissions.

(*n*) The measurement and equipment of ship's life-boats and number of persons allowed to be carried in each class of boat.

(*o*) Testing of life-buoys and life-belts.

(*p*) The screening of ship's side-lights.

(*q*) More advanced questions on the main part of a ship's construction and general use.

* For convenience of calculation the service required is stated in a tabular form in Appendix I.
† Rule 31A will come into force from the 1st January 1926.

33. **Mate, Ordinary: Seamanship.**—In addition to the qualifications required for a Second Mate's certificate, an Only or First Mate will be required to show a knowledge of the following subjects:—

(*a*) Shifting large spars, rigging sheers, taking lower masts in and out.

(*b*) How to moor and unmoor ship; to keep a clear anchor; and to carry out an anchor.

(*c*) How to manage a ship in stormy weather, and to cast a ship on a lee shore.

(*d*) How to secure the masts in the event of accident to the bowsprit.

(*e*) How to rig purchases for getting heavy weights, anchors, machinery, etc., in or out.

(*f*) How to dispose various kinds of cargo and weights in a stiff and in a tender vessel.

(*g*) The ventilation of holds, and the stowage of explosives.

(*h*) The stowage of grain cargoes.

(*i*) How to rig a sea anchor, and what means to employ to keep a vessel, disabled or unmanageable, out of the trough of the sea, and lessen her lee drift.

(*j*) How to get a cast of the deep sea lead in heavy weather.

(*k*) Accidents, and how to deal with them.

(*l*) Any other questions appertaining to the duties of an Only or First Mate which the Examiner may think necessary to ask.

(*m*) Also questions on the additional subjects which are specified in the rules of examination for Only and First Mate's certificates of competency for foreign-going steamships. (*See* rule 46.)

34. **Master, Ordinary*.**—A candidate must be not less than twenty-one years of age and—

(*a*) he must have served six years at sea, of which one year must have been in a capacity not lower than Only Mate of a foreign going vessel, whilst holding a certificate not lower than an Only Mate's certificate for foreign-going vessels, provided that, if this service as officer was not performed whilst holding a First Mate's certificate for foreign-going vessels, the candidate will also be required to prove the officer's service prescribed for that grade (rule 31);

(*b*) *or*, he must have served six years at sea, of which one year and a half must have been in a capacity not lower than Only Mate of a home-trade or coasting vessel whilst holding a certificate not lower than an Only Mate's certificate for foreign-going vessels, provided that, if this service as officer was not performed whilst holding a First Mate's certificate for foreign-going vessels, the candidate will also be required to prove the officer's service prescribed for that grade (rule 31);

(*c*) *or* he must have served six and a half years at sea, one year of which must have been in a capacity not lower than Second Mate of a foreign-going vessel whilst holding a First Mate's certificate for foreign-going vessels, provided that, if this service as Second Mate was performed under an additional or auxiliary First Mate, it will only be accepted if a Third or Fourth Mate were also carried, *and* one year and a half not lower than Third or Fourth Mate of a foreign-going vessel *in charge of a watch* whilst holding a Second Mate's certificate for foreign-going vessels (*see* rule 6);

(*d*) *or* he must have served seven and a half years at sea, two years of which must have been in a capacity not lower than Third Mate of a foreign-going vessel whilst holding a First Mate's certificate for foreign-going vessels (*he must prove that he had only two officers over him besides the master*), *and* one year and a half not lower than Third or Fourth Mate of a foreign-going vessel *in charge of a watch* whilst holding a Second Mate's certificate for foreign-going vessels (*see* rule 6);

(*e*) *or*, he must have served nine years at sea in the Home or Coasting trade; of which three years must have been as Master *or* one year as Master and three years in a capacity not lower than that of Mate, provided, that in either case, he has served in such capacity for not less than one year with a Second Mate's certificate for foreign-going vessels or a Master's certificate for home-trade passenger ships.

* For convenience of calculation the service required is stated in a tabular from in Appendix I.

35. **Master, Ordinary: Navigation.**—A candidate for an ordinary Master's certificate will, in addition to the work prescribed for the grades of Second and First Mate that may be given him by Examiner, be required—

(*a*) To write an essay on some technical subject.
(*b*) To find the latitude by the altitude of the Polar star at any time.
(*c*) To find the latitude by the meridian altitude of the moon.

NOTE.—The candidate will be required to give a figure and explanation for each problem worked, and give a written explanation of any of the terms used in navigation or nautical astronomy that may be asked.

(*d*) To find the magnetic bearing of any fixed object when at sea or at anchor from bearings of the object taken with the ship's head on equidistant compass points, and to compute the deviation therefrom; to construct a deviation curve upon a Napier's diagram which will be furnished by the Examiner, and show that he understands its practical application; to give satisfactory written and oral answers to certain practical questions as to the effect of the ship's iron upon the compasses, and the method of determining the deviation, and show how to compensate the deviation by magnets and soft iron by the aid of Beall's Compass Deviascope.
(*e*) Questions on ship construction and naval architecture and a few elementary questions on stability.

He will be examined orally in the following subjects:—

(*f*) The law as to the engagement and discharge and management of the crew, and the entries to be made in the official log.
(*g*) How to prevent and check an outbreak of scurvy on board ship.
(*h*) The law as to load-line marks, and the entries and reports to be made respecting them.
(*i*) Invoices, charter party, bills of lading, Lloyd's agent, nature of bottomry, bills of exchange, surveys, averages, etc.
(*j*) The prevailing winds and currents of the globe.
(*k*) The trade routes.
(*l*) Tides.

*35A. **Master.**—In addition to the work specified in rule 35 of the rules, candidates will be required—

(*i*) To determine the initial Great Circle Course, and the distance from one given position to another, the latitude and longitude of vertex, the longitude from vertex and the latitudes and longitudes through which the Great Circle will pass, laying the track, composite or otherwise, down on a Mercator's Chart, and explaining briefly how the course and distance from one point to another on this track is then found. This problem may, subject to the decision of the examiner, be solved either by calculation, or by any tables, graphic method, or Great Circle Chart, known to and preferred by the candidates and it will usually be set so as to leave the choice of method to the candidate.
(*ii*) To show a slightly more advanced knowledge of stability than is at present required.

In order not to lengthen the examination, either the paper on Meteorology or the Essay will be omitted where a paper on the Great Circle is set (*see* rule 106).

36. **Master, Ordinary: Seamanship.**—In addition to the qualifications required for the grades of Second and First Mate, an Ordinary Master will be required to show a knowledge of the following subjects:—

(*a*) Construction of jury rudders for both wooden and iron vessels, also rafts.
(*b*) Resources for the preservation of the ship's crew in the event of wreck.
(*c*) Management of ship in heavy weather.
(*d*) Rescuing the crew of a disabled vessel.
(*e*) Steps to be taken when a ship is on her beam ends, or in any danger or difficulty, or disabled or unmanageable and on a lee shore.
(*f*) Heaving a keel out.
(*g*) How to proceed when placing a ship in dry dock, and directing repairs, and when putting into port in distress with damage to cargo and ship.
(*h*) Any other question appertaining to the management of a ship which the examiner may think it necessary to ask.

* Rule 35A will come into force from the 1st January 1926.

37. **Special Regulations relating to the examination of Masters and Mates to apply only where the candidate has served an apprenticeship in an approved sea-going training ship, with a view to promotion in the service of the company to which the training ship is attached.**—(1) The training ship must be a sea-going cargo carrying square-rigged sailing vessel, and the course of study and practical training which the cadets receive must be approved by the Local Government.

At the end of four years' service in the training ship the cadet will be qualified for examination for a certificate as Second Mate, provided (*a*) he can produce a testimonial to the effect that both his conduct and his ability have given satisfaction during the whole period, and (*b*) that he has served *at sea* for not less than four-fifths of the time, that is to say, has not spent more than one-fifth of the time in home ports, *cf.* rule 101.

If the cadet has served previously for two years in either the "Conway" or the "Worcester" training ship, this time will be allowed to count as one year's qualifying service (*cf.* rule 98), and he will be required to serve for 3 years only in the company's training ship before he can be allowed up for examination for a certificate as Second Mate (ordinary).

(2) A candidate who has served for four (or three) years on the training ship may be allowed up for examination for a certificate as First Mate (ordinary) when he has served, whilst holding a certificate as Second Mate *for two years as junior bridge-keeping officer of the watch* upon vessels of the Company satisfying certain requirements [*see* sub-rule (4)]. The words "junior bridge-keeping officer" must be interpreted as meaning the junior of *two* bridge-keeping officers. Where three officers are on the bridge together, the service of the third does not fall within the scope of the Special Regulations, and his service cannot be accepted as qualifying. All cases where cadets, to whom these special regulations apply, subsequently present themselves for examination for First Mate or Master referred to the Port Officer so that their real position on board vessels of the Company satisfying the requirements of this rule may be verified by reference to the official logs before they are accepted as eligible for examination.

(3) A candidate who has obtained a certificate as First Mate in the above way may be allowed up for examination for a cerificate as Master (ordinary) when he has served for eighteen months whilst holding the Certificate as First Mate, as a senior watch-keeping officer upon the vessels of the Company satisfying the same requirements [*see* sub-rule (4)].

If the candidate has served for eighteen months as senior of the junior officers, *i.e.*, the officer next below the junior of the officers in full charge of the watch whilst holding the certificate as First Mate, he may be allowed up for examination for a certificate as Master (ordinary) on the understanding that the certificate as Master would not be issued to him until he had completed twelve months' service as a senior watch-keeping officer, the service in both cases to be performd on vessels satisfying the same requirements [*see* sub-rule (4).]

(4) The special regulations (sub-rules 2 and 3) in regard to the acceptance of service as qualifying for the examination for certificates as First Mate and Master shall apply only when the service is performed in the specified capacities upon ocean-going steamers of not less than 8,000 tons gross, making an average speed of 15 knots or upwards and carrying a crew of not less than 130 men, including at least five deck officers besides the Master.

38. **Fore-and-aft certificates.**—Certificates for the grades of Second Mate, Only Mate, First Mate, and Master of fore-and-aft rigged vessels will be issued to candidates who have not complied with the regulation which requires them to have served at least one year in square-rigged sailing vessels, or who prove in course of examination that they are ignorant of the management of square-rigged ships. In other respects the qualifications for examination for such certificates are the same as for Ordinary certificates.

The examinations for the grades of Second Mate, Only Mate, First Mate, and Master, of fore-and-aft rigged vessels will be precisely the same as for the Ordinary certificates, excepting that in seamanship a knowledge of the management of square-rigged vessels is not required.

A certificate for fore-and-aft rigged vessels will not entitle the possessor to act in any case in which a certificate for square-rigged vessels is required. Amongst square-rigged vessels are classed full-rigged ships, barques, brigs, barquentines, brigantines, and steamships carrying square sails.

A candidate possessing a certificate for fore-and-aft rigged vessels and desiring to be examined for an Ordinary certificate, must prove that he has served at sea at least one year in a square-rigged sailing vessel, unless he has previously held an Ordinary certificate of a lower grade.

39. **Steamship Certificates.**—Certificates applying only to steamships are issued to candidates who are either unable to comply with the regulations which require them to have passed one year in square-rigged sailing vessels or who prove in course of examination that they are ignorant of the management of square-rigged sailing vessels. All the qualifying service prescribed for these certificates may have been performed in steamships.

These certificates will entitle the holders to go to sea as Masters or Mates of foreign-going steamships, but will not entitle them to go to sea as Masters or Mates of foreign-going sailing ships.

There will be no distinction in these certificates between fore-and-aft rigged steamships and square-rigged steamships.

40. **Second Mate, Steamships.**—The qualifications as to age and service are the same as for an Ordinary Second Mate's certificate (*see* rule 27) excepting that the whole of the service may have been performed in steamships and that no service in square-rigged sailing vessels is required.

41 **Second Mate, Steamships: Navigation.**—The examination in navigation for a Second Mate's certificate for foreign-going steamships will be precisely the same as that prescribed for an Ordinary Second Mate's certificate.

42. **Second Mate, Steamships: Seamanship.**—The candidate must understand and be able to give satisfactory answers on the following subjects:—

(*a*) The standing and running rigging of steamships.
(*b*) Bending, unbending, setting, taking in, and furling sail.
(*c*) Sending masts and yards up and down, etc.
(*d*) Seeing everything in readiness and clear for getting under way, and the precautions to be then observed with regard to steering gear and connection, engines, propeller, etc.
(*e*) Care and usage of mechanical logs and sounding machines.
(*f*) Management of ships' boats in heavy weather.
(*g*) Dunnaging and stowing cargo, etc.
(*h*) The rules of the Road as regards both steamers and sailing vessel their regulation lights and fog and sound signals.
(*i*) Signals of distress, and signals to be made by ships wanting a pilot, and the liabilities and penalties incurred by the misuse of these signals.
(*j*) The marking and use of the ordinary lead and log lines.
(*k*) The construction, use, and action of the sluices, and of the water-ballast tanks.
(*l*) Engine-room and other telegraphs used on board ship, and deck appliances generally.
(*m*) Use and management of the rocket apparatus in the event of a vessel being stranded.
(*n*) Any other questions appertaining to the duties of the Second Mate of a steamship which the examiner may think necessary to ask.

43. **Only Mate, Steamships.**—The qualifications as to age and service are the same as for an Only Mate's Ordinary certificate *see* rule 30) excepting that the whole of the service may have been performed in steamships and no service in square-rigged vessels is required.

44. **First Mate, Steamships.**—The qualifications as to age and service are the same as for a First Mate's Ordinary certificate (*see* rule 31) excepting that the whole of the service may have been in steamships, and that no service in square-rigged vessels is required.

45. **Mate, Steamships: Navigation.**—The examination in navigation for an Only or First Mate's certificates for foreign-going steamships will be precisely the same as that prescribed for an Ordinary First Mate's certificate (*see* rule 32).

46. **Mate, Steamships: Seamanship.**—In addition to the qualifications required for a Second Mate's certificate, an Only or First Mate will be required to show a knowledge of the following subjects:—

(*a*) Shifting large spars; rigging sheers; and taking lower masts in and out.
(*b*) How to moor and unmoor ship; keep a clear anchor; and carry out an anchor.
(*c*) Management of a steamship in stormy weather.
(*d*) How to rig purchases for getting heavy weights, anchors, machinery, etc., in and out.
(*e*) How to dispose various kinds of cargo and weights in a stiff and in a tender vessel.
(*f*) Ventilation of holds, and the stowage of explosives.
(*g*) Stowage of grain cargoes.

(*h*) The effects of the screw race upon the rudder; and the effect produced on the direction of the head of the ship by going [ahead] [astern] with a [right] [left] handed screw when the rudder is [ported] [starboarded]; also, the effect of twin screws under the same conditions, and when going ahead with one and reversing the other, etc., etc.

(*i*) How to rig a sea anchor, and what means to employ to keep a steamer, with her machinery disabled, out of the trough of the sea, and to lessen her lee drift.

(*j*) How to turn a steamship short round.

(*k*) How to get a cast of the deep sea lead in heavy weather.

(*l*) Any other questions appertaining to the duties of a First Mate of a steamship which the Examiner may think necessary to put to him.

47. **Master, Steamships.**—The qualification as to age and service are the same as for a Master's Ordinary certificate for a foreign-going ship (*see* rule 34), excepting that the whole of the service may have been performed in steamships, and that no service in square-rigged vessels is required.

48. **Master, Steamships: Navigation.**—The examination in navigation for a Master's certificate for foreign-going steamships will be precisely the same as that prescribed for an Ordinary Master's certificate (*see* rule 35).

49. **Master, Steamships: Seamanship.**—In addition to the qualifications required for the grades of Second and First Mate, a Master will be required to show a knowledge of the following subjects:—

(*a*) Construction of rafts and jury rudders suitable for screw steamships.

(*b*) The preservation of the ship's screw in the event of wreck.

(*c*) Management of steamships in heavy weather.

(*d*) Rescuing the crew of a disabled ship.

(*e*) Steps to be taken when a vessel is on her beam ends, or disabled and on a lee shore.

(*f*) How to use steam appliances in the event of fire.

(*g*) Economy in coal consumption.

(*h*) The best arrangement for towing vessels under different circumstances.

(*i*) Placing ship in dry dock; directing repairs; and the mode of procedure when putting into port in distress with damage to cargo and ship.

(*j*) Any other questions appertaining to the management of a steamship which the Examiner may think it necessary to put to him.

50. **Steamship certificates, how changed.**—A candidate possessing a certificate for foreign-going steamships, and desiring to be examined for an Ordinary certificate, must prove that he has served at sea at least one year in a square-rigged sailing vessel, unless he has previously held an Ordinary certificate of a lower grade.

51. **Mate, Home Trade.**—A candidate must be not less than nineteen years of age, and have served four years at sea.

* 51A. **Mate (Home Trade).**—Every candidate will be required to produce a valid Board of Trade Certificate of Efficiency as Lifeboatman.

A candidate for a Certificate as Mate, Home Trade, will also be required —

(*i*) To find the latitude by the meridian altitude of the sun.

(*ii*) To find the true amplitude of the sun and the error of the compass therefrom, also the deviation, variation being given.

* For convenience of calculation the service required is stated in a tabular form in Appendix I.

52. **Mate, Home-Trade: Navigation.**—He must write a legible hand and spell correctly, and understand the first five rules of arithmetic, both simple and compound. He must be able to take a bearing by compass, be conversant with the use of a Mercator's Chart, and be able to find, on a chart or plan, the course or courses to steer and the distance or distances from one given position to another; to find the ship's position, together with the set and drift (if any) on a chart or plan from cross bearings of two objects; to find the ship's position from two bearings of the same or different objects, the course and distance run between taking the bearings being given, making due allowance for a given tide or current; also the distance of the ship from the objects or any given position at the time of taking the second bearing; to find on a chart or plan the course to steer by compass in order to counteract the effect of a given tide or current and to find the distance the ship will make good towards a given point in a certain time, and to work out practically the correction to apply to soundings taken at a given time and place, to compare with the depth marked on the chart; also, to fix the ship's position by horizontal sextant angles, using a station pointer for plotting it on the chart or plan, etc., and give a method of finding approximately the time of high water at any given place without the aid of the Admiralty or other Tide Tables. He will also be required to explain orally the markings, signs and abbreviations on Admiralty charts and plans, the use of the sextant, to be able to observe with it, to read *off* and *on* the arc, and to find the index error by the horizon. He will also be required to attain a minimum speed of 10 words a minute in semaphore and 6 words a minute in Morse flashing and 5 words a minute in Morse flag waving, and to have a good working knowledge of the International Code of Signals and Allied Signal Manual.

53. **Mate, Home-Trade: Seamanship.**—He must possess a thorough knowledge of the Rule of the Road as regards both steamers and sailing vessels, their regulation lights, and fog and sound signals. He must be able to describe the signals of distress, the signals to be made by ships wanting a pilot, and the liabilities and penalties incurred by the misuse of these signals: also the use and management of the rocket apparatus in the event of his vessel being stranded. He must be able to mark and use the lead log lines, to moor and unmoor a vessel, and to manage a ship's boat in heavy weather, etc., etc. He must also understand the construction, use and action of the bulkhead sluices, the engine-room telegraph, etc., and to answer any other questions appertaining to the duties of the Mate of a home-trade passenger ship which the Examiner may think proper to put to him.

54. **Master, Home-trade*.**—A candidate must be not less than twenty-one years of age and have served five years at sea, of which—

(*a*) One year must have been in a capacity not lower than that of Only Mate of a home-trade or coasting vessel, whilst holding a Mate's certificate for home trade passenger ships, or a Second Mate's certificate for foreign-going vessels;

(*b*) *or*, two and a half years must have been in a capacity not lower than Second Mate of a home-trade or coasting vessel *in charge of a watch*, whilst holding a Mate's certificate for home-trade passenger ships, or a Second Mate's certificate for foreign-going vessels (*see* rule 84);

(*c*) or, one year must have been as Pilot with a First Class pilot's certificate (*see* rule 81);

†54A. **Master (Home Trade).**—A candidate for a certificate as Master will also be required.

(*i*) to lnd the longitude by chronometer from an altitude of the sun by the usual methods, computing the daily rate of chronometer from errors observed, when required.

(*ii*) to find the altitude by the meridian altitude of a star.

(*iii*) to find the deviation of his compass by the Azimuth of the sun or a star.

55. **Master, Home-Trade: Navigation.**—In addition to the qualifications required of a Mate of a home-trade passenger ship, a Master will be required to find the latitude by a meridian altitude of the sun, find compass corrections by Amplitude and Time Azimuth of the sun, and to give written answers to certain practical questions on the subject of the deviation of the compass. (*See* also supplementary *viva voce* test rule 127.)

† For convenience of calculation the service required is stated in a tabular form in Appendix I.

56. **Master, Home-Trade: Seamanship.**—In addition to the qualifications required of a Mate of a home-trade passenger ship, a Master must understand how to rig a sea anchor, and what means to apply to keep a steamship with machinery disabled out of the trough of the sea; also how to get a cast of the lead in heavy weather, etc. He will be examined as to his resources for the preservation of the crew and passengers in the event of wreck and the steps to be taken if his vessel is disabled and drifting towards a lee shore, and will be required to answer any other questions appertaining to the management of a home-trade passenger ship which the Examiner may think necessary to put to him.

57. **Yacht Certificates.**—The examination for these certificates is purely voluntary and is confined to persons who command their own British sea-going pleasure yachts. A Master of a yacht who is not also the sole owner, or who is under 21 years of age, is not eligible for examination.

Only one description of certificate will be issued, whether the yacht is foreign-going or cruises within the home-trade limits.

The certificate will not entitle the holder to command any vessel except the pleasure yacht or yachts, of which he is at the time the sole owner.

Candidates are not required to have served any specified time afloat, as it is believed that their sea knowledge will be sufficiently tested by the examination they will have to pass in seamanship.

Testimonials of service need not be shown, but a candidate for examination will be required to produce a statutory declaration to the effect (1) that he is sole owner of the yacht; (2) that the yacht is sea-going; (3) that it is not to be used for trading purposes. He will also be required to fill up the form of application (Form Exn. 2), and pay the fee of Rs. 30 at the Port Office, as prescribed in rule 5.

In all other respects, except that the candidate will not be required to produce a "First Aid" certificate, the regulations relating to examinations of Masters of foreign-going ships will apply in these cases.

58. **Yacht Master: Navigation.**—The examination in navigation for a Yacht Master's certificate will be precisely the same as that prescribed for an Ordinary Master's certificate, except that in the civil duties of a shipmaster the Master of a yacht will only be expected to possess a knowledge of what he is required to do by M. S. Acts.

59. **Yacht Master: Seamanship.**—He must give satisfactory answers as to his knowledge of making and taking in sail, and as to the management of a yacht under canvas in moderate and in stormy weather. He must have a thorough knowledge of the Rule of the Road at sea as regards both steamers and sailing vessels, their regulation lights and fog and sound signals, and be able to describe the signals of distress, and the signals to be made by ships wanting a pilot and the liabilities and penalties incurred by the misuse of these signals. He must also understand the use and management of the rocket apparatus in the event of his vessel being stranded. He must be able to mark and use the lead and log lines; to cast a vessel on a lee shore; to moor and unmoor a ship; to keep a clear anchor, and to carry out an anchor. He must know how to keep his vessel out of the trough of the sea in the event of accident; how to rig rafts and jury rudders, etc.; and what steps to take if his vessel is disabled or unmanageable and drifting towards a lee shore. He will also be examined as to his resources for the preservation of the crew in the event of wreck. He must alo possess a knowledge of the measures he should adopt for preventing and checking an outbreak of scurvy on board; and be prepared to answer any other questions relating to the management of a yacht, either steam or sailing, which the examiner may ask.

60. **Provisional Certificates.**—Provisional certificates for foreign-going ships or for foreign-going steamships, according to the candidate's qualifications, are granted on the conditions stated below to any officer of the Mercantile Marine who may require such a certificate to qualify him for appointment to or promotion in the Royal Naval Reserve. These certificates are only issued for Royal Naval Reserve purposes, and do not authorise the holders to go to sea as First Mate or Masters.

Candidates for these certificates, must apply to the Port Officer, Calcutta, fill up the form of application (Exn. 2) and pay the usual fee. They must produce their First or Second Mate's certificates of competency, and an authority from the Local Government before they can be examined. This authority should be obtained through the Port Officer.

61. **Provisional Certificates, First Mate.**—Provisional certificates as First Mate are granted to candidates who can prove that they have served five years at sea and that during one year of this period they have

served in a capacity not lower than Fourth Mate while holding a Second Mate's certificate. They must pass the usual examination for First Mate and pay the usual fee. The provisional certificate is exchangeable for the full certificate as First Mate, without further payment or examination, on production to the Port Officer of satisfactory proofs that the holder has served at sea not less than 12 months in a foreign-going vessel in a capacity not lower than Fourth Mate, and that during the whole of that period he has been in regular charge of a watch and in possession of a certificate of competency as Second Mate.

62. **Provisional Certificates, Master.**—Provisional certificates as Master are granted to candidates who can prove not less than six and a half years' service at sea, and who pass the usual examination for Master and pay the usual fee. Of this service two and a half years must have been served in a capacity not lower than Fourth Mate of an ocean-going steamship, during the last 12 months of which the candidate must have been in possession of a full certificate as First Mate. These certificates will be exchanged for the full certificate as Master without further payment or examination, on production to the Port Officer of satisfactory proofs that the holder has served at sea either (*a*) not less than two and a half years in a foreign-going vessel in charge of a watch in a capacity not lower than Fourth Mate, and that during 12 months of this period he has served as Second Mate while in possession of a full certificate of competency as First Mate, or (*b*) not less than three and a half years in a foreign-going vessel in charge of a watch in a capacity not lower than Fourth Mate, and that during two years of this period he has served in a capacity not lower than Third Mate whilst in possession of a full Certificate of competency as First Mate.

63. **Voluntary Examination in Compass Deviation.**—Any person holding a certificate of any grade in the foreign or home trade or as Master of his own pleasure yacht, who wishes to pass a voluntary examination in compass deviation, can at any time be examined upon filling up the usual form of application, and paying to the Port Officer the fee of Rs. 15. If the candidate passes the examination a note to that effect will be made upon his certificate.

64. **Voluntary Examination in signalling.**—The examination in Signalling as prescribed for candidates for the Extra Master's certificate is open as a voluntary examination to all persons holding, or who have passed for, or who are candidates for, a certificate of competency of any grade.

If the candidate passes, the fact with the date and place of passing will be recorded upon his certificate of competency.

Candidates may be examined at any port where Ordinary examinations are held upon filling up the form of application (Exn. 2) and paying the fee of Rs. 15. (*See* Appendix C.)

No fee, however, will be charged for this examination if it is taken at the same time as that at which a candidate is examined for any certificate of competency.

65. **Voluntary Examination in Steam.**—These examinations are provided for the purpose of giving Masters and Mates who are possessed of certificates of competency an opportunity of undergoing a voluntary examination as to their practical knowledge of the use and working of the steam-engine. They are conducted under the superintendence of the Port Officer at such times as he may appoint for the purpose.

The examination is open to any person who holds a Certificate of any grade in the foreign or home trade or as Master of his own pleasure yacht. Full particulars of the examination are given in Appendix G.

66. **Examination in Steam: how to apply.**—Candidates should fill up the form of application (Form Exn. 2) at the Port Office, pay the fee of Rs. 15 and deposit their certificates and testimonials with the Port Officer, who will inform them when and where to attend to be examined. The usual testimonials for sobriety and good conduct for at least the last 18 months preceding the date of application to be examined must be produced.

67. **Examination in Steam: endorsement of certificate.**—If the candidate passes, Form Exn. 15, together with a written report of the examination, should be sent to the Port Officer and the candidate's certificate, together with the form Exn. 2, will be sent to the Local Government; the words "Certified to have passed in Steam," with the date and place of examination, will then be entered on the certificate and its duplicate, and the certificate will be sent to the Superintendent of the Mercantile Marine Office at the port named in the Form Exn. 2, and will be delivered to the candidate in the usual manner.

The endorsement of a Master's or Mate's Certificate for "Steam" does not, however, imply that he is qualified to perform the duties of an Engineer.

68. **Examination in Steam: failure.**—If the candidate fails to pass his Certificate will be returned to him at once, but he may not present himself for re-examination until the expiration of three months from the date of failure.

69. **Certificates of Service.**—A person who has attained the rank of lieutenant in His Majesty's Navy or in His Majesty's Royal Indian Marine Service, is entitled to apply for a certificate of service as Master of a foreign-going ship without examination. This certificate will not entitle the holder to go to sea as Master or Mate of a home-trade passenger ship.

Certificate of service will be issued by the Board of Trade only. Applications for certificates of service of the Royal Indian Marine must be made on a printed form, Exn. 18, which will be supplied free of charge on application to the Director of the Royal Indian Marine.

Applicants on duty in India should submit their claims to the Director for transmission to the Government of India and the India Office. Officers on leave in England should submit their claims to the India Office on the printed form which may be obtained from that office.

Applications for certificates of service by officers of the Royal Navy on the active list must be made through their commanding officers, and applications from officers of the Royal Navy on half-pay must be made to the Secretary of the Admiralty, who in either case will forward the application to the Board of Trade.

70. **Ambulance Certificates and Government Awards.**—An officer in the Mercantile Marine who holds a certificate of proficiency in First Aid to the Injured from the St. John's or St. Andrew's Ambulance Association or some equivalent certificate, can have the fact endorsed on his certificate of competency provided the latter was issued before April 1st, 1908, if the two certificates are forwarded to the Port Officer.

Recipients of Government awards can also have the fact stamped on their certificates of competency, if they submit evidence of the award together with their certificate in a similar manner.

CHAPTER III.

RULES FOR ESTIMATING SEA SERVICE.

71. **Sea service.**—In these Regulations sea service is reckoned from the commencement to the termination of the voyage. The certificates of discharge for service in the foreign trade will generally be accepted as proof of sea service, but certificates of discharge for service in the home or coasting trade must always be sent to the Port Officer for verification. Port Officer and Examiners will be careful to see that these discharges have not been in any way tampered with, and will report any suspicious case to the Local Government.

For all certificates of competency as Master or Mate in the Mercantile Marine, the qualifying service usually required is service performed in ordinary trading vessels. While the Regulationes provide for the acceptance in part of certain kinds of non-trading service (*e.g.*, that performed in fishing-boats, yachts, pilot vessels, etc.), non-trading service not specially provided for in the Regulations cannot be accepted as qualifying service unless it has been submitted to the Local Government and their sanction obtained.

72. **Sea service for foreign-going certificates.**—For foreign-going certificates the term "sea service" means, unless otherwise stated, service performed in foreign-going vessels.

73. **Officers' service: Home Trade.**—Service in a lower grade than First or Only Mate in the home or coasting trade will not be recognized as officers' service towards qualifying a candidate for examination for a foreign-going certificate.

74. **Service under the Admiralty.**—All service afloat in His Majesty's ships or in auxiliary supply ships or any other ships in attendance on the Fleet between August 4th, 1914 and December 31st, 1920 inclusive, will be accepted in full (subject to the ordinary conditions as laid down in these Regulations) as qualifying sea service for either Home Trade or Foreign-going certificate.

The Local Government cannot undertake to accept the whole or any definite proportion of service in the Royal Naval Reserve, which is not qualifying service in accordance with these Regulations, but they will be prepared to consider sympathetically an application for examination from a candidate who has been prevented by his service in the Royal Naval Reserve between August 4th, 1924 and December 31st, 1920 inclusive from complying fully with the requirements.

75. **Service in the Army.**—The Local Government is anxious that, so far as is reasonably possible, seamen or apprentices who served in the Army between August 4th, 1924 and December 31st, 1920 inclusive should not be hindered in their ordinary profession; and they are prepared to consider sympathetically any application to be examined by a candidate who has been prevented from complying fully with the Regulations owing to his service in the Army.

76. **Officers and seamen interned abroad.**—A portion of the time spent by officer and seamen interned abroad between August 4th, 1914 and December 31st, 1920 inclusive, will be accepted in lieu of a portion of the qualifying sea service required to qualify them for examination for a certificate of competency. The amount of such time so allowed will be decided by the Port Officer.

77. **Service in Home Trade.**—For Home-Trade Passenger ship certificates service in the home or coasting trade is regarded as equivalent to service in the foreign trade; but for Foreign-going certificates it is regarded as only equivalent to two-thirds of the time served in the foreign trade, except in the case of Indian coasting voyages extending beyond a distance of 500 miles from the port of departure in vessels commanded by Masters holding foreign-going certificates, when such service will count as foreign voyages, and will be reckoned as full time; but the time spent in the port of departure or home port will not be allowed to count. In all cases the length of service is deemed to commence on the date of sailing from the port of departure or home port and to end on the date of arrival at the home port. Such service must be vouched for in the form laid down in Appendix L.

78. **Certificate, meaning of.**—By the word "certificate" is meant a certificate of competency granted by the Board of Trade under the Merchant Shipping Acts, or by the Government of British self-governing Dominion, Colony, or Possession, under an Order in Council issued in pursuance of the Merchant Shipping Acts.

A list of the Colonial certificates referred to will be found in Appendix K. They are of the same force as the corresponding certificates granted by the Board of Trade.

79. **Colonial local certificates.**—The holder of a Colonial certificate for foreign-going ships *not* granted under the Merchant Shipping Acts who desires to be examined for an Imperial certificate of the same grade, must prove that he has performed the amount of service required by these Regulations to entitle him to hold such a certificate. He must also produce satisfactory testimonials as to character for at least the last 12 months of sea service preceding his application to be examined.

80. **Foreign-going certificates.**—Where a foreign-going certificate is required in order to qualify a candidate for examination, the certificate may be either an Ordinary certificate, or a certificate for fore-and-aft rigged vessels, or a certificate for foreign-going steamships.

81. **Pilot defined.**—The term "pilot" in these Regulations (*see* rules 31 and 54) means a pilot who is employed in general pilotage, and holds a first class pilot's certificate from some competent authority authorising him to pilot vessels outside harbour and partially smooth water limits. A Master Pilot of the Bengal Pilot Service is for the purpose of this rule to be considered as a first class pilot.

82. **Officer's service.**—Officer's service to be recognised as qualifying for purposes of examination must be performed with the requisite certificate as specified in appendix I. The officer's service performed by men who have been duly promoted during the course of a voyage (see rule 86) who, in consequence of serving in vessels plying between ports abroad, have been unable to obtain the necessary certificates, may, however, be recognised, provided that it is other respects satisfactory.

83. **Foreign officers.**—Foreign officers who wish to apply for a British certificate of competency must in all cases have performed their qualifying officer's service with the requisite British certificate. The service may have been performed in foreign vessels if the candidate can produce satisfactory testimonials as to conduct and character, and is able to prove that the service has been in the required capacities, and that during the period of service he has held a British certificate of competency of the grade required by the Regulations (see rule 87).

84. **In charge of a watch.**—When service in charge of a watch in either the foreign or home trade is specified in the regulations, candidates for certificates of competency as First Mate must be able to prove that during eight months at least of their service they have kept full regular watch *during the whole voyage*, i.e., *from port to port*, which, if in the foreign trade, must amount to not less than 8 hours of each 24 hours' service. Where a candidate can prove eight months of such full service, service performed in cases where watches were doubled at any time during the voyage will be accepted as equivalent to half the same period of full watch-keeping service. No amount of occasional service will, by itself, be accepted as qualifying service. Candidates for certificates of competency as Master will be required to have served during the whole of the time specified by the Regulations, in full charge of a watch, and no service performed under the system of double watches, except as the senior officer, will be accepted as qualifying service for a certificate of of this grade. Great care must be exercised by the Examiners and others in regard to such service and unless the candidate produces a clear and satisfactory testimonial specially setting forth the above facts, from the Master or owner of the vessel in which the service was performed, it must not be accepted.

85. **Additional mates.**—Service as additional or auxiliary First or Second mates in large foreign-going vessels, when in both cases Third and Fourth Mates are also carried, will count as First Mate's or Second Mate's service, as the case may be, provided that the candidate was entered on the articles in one of these capacities, and that he produces the necessary certificate (see rule 84) showing that he was in charge of a watch or watches during the whole time claimed. (See also rule 6.)

86. **Promotion during voyage.**—Whenever a man has, from any cause, been regularly promoted on the occurrence of a vacancy in the course of the voyage from the rank in which he first shipped, and such promotion, with the ground on which it has been made, is properly entered in the articles and in the Official Log Book, he will receive credit for his service in the higher grade for the period subsequent to his promotion.

87. **Evidence as to Service in foreign vessels.**—The testimonials of service of foreigners and of British officers and seamen serving in foreign vessels, which cannot be verified by the Port Officer, must be confirmed either by the Consul of the country to which the ship in which the candidate served belonged or by some other recognised official authority of that country, or by the testimony of some credible person on the spot having personal knowledge of the facts required to be established. The production, however, of such proofs will not of necessity be deemed sufficient. Each case will be decided on its own merits, and if the sufficiency of the proofs given appears to be at all doubtful, it must be referred to the Government for decision.

88. **Auxiliary screw ships.**—Service in vessels with auxiliary steam or motor power which use their propelling machinery only in calms or during light winds, is considered as service performed in sailing vessels.

89. **Excursion steamers.**—In the case of excursion steamers only such service as can be proved to have been performed at sea will be accepted.

90. **Service as carpenter, sailmaker, cook, steward, etc.**—Candidates whose service has been performed in capacities other than apprentice, midshipman, cadet, ordinary seaman or able seaman—*e.g.*, men who have served as carpenter, or sailmaker, or as cook in small vessels where cooking is only a part of a man's duty—will be required to satisfy the Port Officer that they have during the whole time claimed performed deck duties in addition to their own particular work, and that they have a good knowledge of seamanship. These facts may possibly be proved by the production of satisfactory certificates from the Masters with whom the candidate has served; but such service will only be accepted as equivalent to two-thirds of the time served as ordinary deck hand. Failing satisfactory evidence, the applicant will be required to perform additional service in the capacity of seaman. Service as cook (under other conditions than the above), or as steward, purser, or wireless operator will not be accepted.

91. **Service as wireless operator.**—If a candidate has been engaged on articles of agreement as seaman or in any seamen rating and has served both as a seaman and as a wireless operator two-thirds of such service may be counted as qualifying service.

If a candidate has been engaged on articles of agreement as a wireless operator and has served as such, one quarter of the service up to a maximum of twelve months may be counted as qualifying service.

92. **Service in fishing or pilot vessels.**—Service performed exclusively in trawlers and other deep sea fishing vessels, or in pilot vessels, will not qualify a candidate for examination. He must in addition prove the following service:—

(*a*) For a Foreign-going certificate, service for at least 18 months in an ordinary trading vessel in the foreign trade, or the equivalent period, 27 months, in the home or coasting trade.

(*b*) For a Home-Trade Passenger Ship certificate, service for at least twelve months in an ordinary trading vessel in the foreign, home, or coasting trade.

93. **Service in yachts.**—Service in pleasure yachts will be accepted as qualifying service under the following conditions:—

(*a*) It must in all cases be verified by satisfactory proofs, which must set forth clearly and in detail the nature and duration of the service claimed; and it must be distinctly understood that only actual sea service will be accepted, and that service in harbour or port is inadmissible.

(*b*) Service in foreign-going yachts will be accepted in full; and service performed within Home-Trade limits in sailing yachts of not less than 50 tons net register or in steam yachts of not less than 80 tons gross register will be accepted in the proportion stated in rule 80; but candidates must also show (1) for a Foreign-going certificate, service for at least 18 months in an ordinary trading vessel in the foreign trade, or for the equivalent period, 27 months, in an ordinary trading vessel in the home or coasting trade; (2) for a Home-Trade Passenger ship certificate, service for at least 12 months in an ordinary trading vessel in the foreign, home or coasting trade.

(*c*) Service within Home-Trade limits in sailing yachts of 20 tons net register, or in steam yachts of 40 tons gross register, will be accepted towards qualifying a candidate for a foreign-going certificate as equivalent to half the same time served in the foreign trade, but no amount of such service shall count as more than two years' service in the foreign trade, and no such service shall count as officer's service to qualify candidates for foreign-going certificates.

(*d*) Service within home-trade limits in sailing yachts of not less than 20 tons net register, or in steam yacht of not less than 40 tons gross register, will be accepted at the ordinary rate as qualifying service for Home-Trade Passenger Ship certificates, but candidates must prove that they have in addition served for at least 12 months in an ordinary trading vessel in the foreign, home, or coasting trade.

(*e*) Service within Home-Trade limits in sailing yachts of less than 20 tons net register, or in steam yachts of less than 40 tons gross register, will not be accepted as qualifying service for any class of certificate.

94. **Service in tugs, War Department vessels, etc.**—Service performed in tugs outside partially smooth water limits may be accepted as sea service for the purpose of qualifying a candidate for a Mate's or Master's certificate for Home-Trade Passenger Ships only.

Service performed in War Department vessels employed outside partially smooth water limits may be accepted as sea service to qualify a candidate for a Mate's or Master's certificate for home-trade passenger ships only. This service cannot be accepted towards qualifying a candidate for a Foreign-going certificate, unless there should be some very exceptional circumstances, when the case, together with all the candidate's papers, should be submitted to the Port Officer for his consideration.

94. **Service in tugs, War Department vessels, etc.**—Service perform-
ject to the provisions of rule 100, be allowed to count towards qualifying a candidate for a Mate's certificate of competency for home-trade passenger ships provided the candidate can prove at least two years' service in an ordinary trading vessel in either the home, coasting, or foreign trade. Service in these steam hoppers will not be accepted as officer's service towards qualifying a candidate for a Master's certificate.

96. **Service in lightships or engine-room.**—Service in lightships or in an engine-room will not be accepted as sea service.

97. **Service on rivers.**—Service performed on rivers, no matter of what size, and service performed within smooth or partially smooth water limits will not be accepted.

Where any doubt whatever exists on this point, the candidate will be required to produce a certificate from the Master or owner of the vessel in which the service was performed, before the service can be accepted.

98. **Training ships.**—Time served on board a training ship will be allowed to count as equivalent to one-half the same time spent in service at sea, up to a limit of two years (*i.e.*, no length of service will be allowed to count as more than one year at sea), provided that the candidate can produce a certificate from the Committee or Captain Superintendent that he has conducted himself creditably and passed a good examination in seamanship so far as it is practised in the training ship, as well as in other matters down to the time of his leaving the ship. Training ship service will not be regarded as equivalent to service in square-rigged vessels.

99. **School for nautical training.**—Time spent at a school for Nautical Training conducted on premises ashore may be allowed to count in some proportion, not exceeding one-half, as service at sea provided that—

(*a*) the school is in receipt of a grant from the Board of Education under the Regulations for Schools of Nautical Training;

(*b*) after an inspection by one of their officers the Board of Trade are satisfied that the school gives a training that justifies time spent there being reckoned as part of the necessary qualifying time for a certificate of competency;

(*c*) the candidate produces a satisfactory certificate as regards conduct and proficiency from the authorities of the school on leaving it.

The proportion in which time spent at a school conducted on premises ashore will be accepted as qualifying under the above provisions will be decided after inspection by one of the Board's officers, but time spent at the school will never be counted as equivalent to more than one-half of the same time spent at sea, nor will it in any circumstances be taken as equivalent to more than one year at sea.

100. **Apprentices.**—The *whole* of the time claimed under indentures of apprenticeship will be accepted as actual sea service to qualify under rule 30 for a second Mate's certificate provided (*a*) that the indentures have not been cancelled through some fault of the candidate, but are endorsed by the owner or Master to whom he was bound to the effect that he has performed his service faithfully during the time he remained as apprentice; and (*b*) that the candidate has served at sea four-fifths of the time claimed, that is to say, has not spent more than one-fifth of the time in home ports.

In cases where an apprentice is qualified for examination before the expiration of his indentures, *e.g.*, where he has had training ship or other sea service prior to being bound, which, together with his actual time as apprentice, makes up the required four-years, or where his indentures are for a period of more than four years, a letter from the owner or Master will be accepted in place of the endorsement referred to above.

In the event of the candidate being short of the required four-fifths of the time claimed as apprentice out of the United Kingdom, he will be required to show sufficient additional sea service, either as seaman or junior officer to make up four-fifths of the time claimed.

101. **Midshipmen and cadets.**—The *whole* of the time served as midshipmen or cadet under indentures will also be accepted subject to the *same* condidions as those laid down for apprentices; and the same will be the case even when not bound by indentures, provided that the service as midshipman or cadet has been continuous, and that on the date of the termination of the period of service claimed in this capacity the candidate was on articles of agreement, and that he is able to comply with the requirements laid down in the matter of serving or making up the four-fifths period at sea during the time claimed.

102. **Lighthouse tenders.**—Service performed in the sea-going steam vessels of the Trinity House, of the Commissioners of Northern Lighthouses, or of the Commissioners of Irish Lights, or in Irish and Scotch Fishery Cruisers, will be accepted as sea service for the purpose of qualifying a candidate for examination for a home-trade passenger ship certificate; but for a foreign-going certificate a candidate must show in addition to this service calculated in accordance with rule 77 at least twelve months in an ordinary trading vessel. In order to qualify a candidate for an ordinary certificate, this twelve months must have been performed in a square-rigged sailing vessel. (See rule 25.)

103. **Service in Royal Navy.**—Officers of the Royal Navy are at liberty to apply for certificates of service and to be examined for certificates of competency in the Mercantile Marine, but the Lords Commissioners of the Admiralty have directed that the applications of officers on the active list should be made through their commanding officers, and that the applications of officers on half-pay should be made to the Secretary of the Admiralty, who, in either case, will forward the application to the Board of Trade. In the case of Royal Indian Marine officers, applications for certificates of service should be made on a printed form Exn. 18, which will be supplied free of charge on application to the Director of the Royal Indian Marine. Applicants on duty in India should submit their claims to the Director for transmission to the Government of India and the India Office. Officers on leave in England should submit their claims to the India Office on the printed form which may be obtained from that office.

The conditions on which certificates of service are issued are stated in rule 69.

104. **Qualifications required of Naval and Indian Marine Officers.**—Officers of the Royal Navy or of the Royal Indian Marine who wish to be examined for certificates of competency in the Mercantile Marine will be required to prove the following service; and if an officer wishes to obtain the ordinary certificate for foreign-going ships he must prove that at least twelve months of this required period was served under sail alone:—

(*a*) For second Mate. The officer must prove four year's service at sea.

(*b*) For only Mate. Five years' service at sea.

(*c*) For First Mate or Master. The officer must prove that he has attained the rank of lieutenant in the Royal Navy, or in the Royal Indian Marine.

105. **Service in Royal Naval Reserve.**—Lieutenants, sub-lieutenants, and acting sub-lieutenants of the Royal Naval Reserve who perform sea service on board His Majesty's ships, will, if accompanied by a good report, be allowed to count such service as if it had been performed in foreign-going merchants ships, and the service will rank according to the certificate of competency held by the candidate at the time.

The time spent in Periodical Training in the Royal Naval Reserve on board sea-going vessels of the Royal Navy, if accompanied by a good report, will be accepted in full, but in the case of midshipmen, will not count as officer's service. In the case of service in Harbour ships of the Royal or Colonial Navies, only one-half of the time will be accepted as sea service, and no such service must amount to more than one-fourth of the time required for the particular grade of certificate applied for.

CHAPTER IV.

CONDUCT OF THE EXAMINATION.

106. The examinations will begin at 10 A.M. on each day. A regular luncheon interval will be given each day between 1 P.M. and 2 P.M., the *viva voce* and practical parts of the examination being taken at such times as may be convenient. The time allotted for each written part of the examination for each grade of certificate will be as follows:—

SECOND MATE.—Paper on Navigation and Nautical Astronomy, 3 hours; Nautical Astronomy and Trigonometry, 2 hours; Chart work, 3 hours; Essay 1 hour.

FIRST OR ONLY MATE.—Paper on Navigation and Nautical Astronomy, 3 hours; Nautical Astronomy and Trigonometry, 2 hours; Chart work, 3 hours; Sumner problem, 2 hours; Meteorology paper, 1½ hours.

MASTER.—Paper on Navigation and Nautical Astronomy, 3 hours; Nautical Astronomy and Trigonometry, 2 hours; Chart work, 3 hours; Meteorology paper, 1½ hours; Compass Deviation, 1½ hours; Naval Architecture, 1½ hours; Essay, 2 hours.

HOME TRADE MATE.—Arithmetic paper, 2 hours; Chart work, 3 hours.

HOME TRADE MASTER.—Arithmetic paper, 2 hours; Chart work, 3 hours; Nautical Astronomy and Deviation questions, 3 hours.

107. **Candidates to be punctual.**—Candidates are required to appear at the examination room punctually at the time appointed.

108. **Loose paper and books removed.**—Before commencing the examination the tables or desks must be cleared of all scraps of paper or books that are not used in the examination.

109. **No strangers admitted.**—No person will be allowed in the room during the examination other than those whose duties require them to be present.

No instructors will be allowed on the premises.

110. **Books and papers strictly forbidden.**—Candidates are prohibited from bringing into the examination room books or papers of any kind whatever. The slightest infringement of this rule will subject the offender to all the penalties of a failure, and he will not be allowed to present himself for re-examination for a period of three months.

111. **All work to be shown.**—No candidate will be allowed to work out his problems on waste paper, or to write on the blotting paper supplied for his use in the examination. Violation of this rule will subject the candidate to all the penalties of a failure.

A sheet of blotting paper should be issued to each candidate with the first examination paper, and it must be returned to the examiner when the last paper is completed each day. The Examiner will be careful to see that the blotting paper has not been used by the candidate in solving his problems, or for conveying information to other candidates.

112. **Instruments, Books, etc., are provided.**—All instruments, books, etc., necessary for use in the examinations are supplied by the Local Government.

113. **Leaving room or building.**—No candidate may leave the examination room without permission and without giving up the paper on which he is engaged. Under no circumstances will a candidate be allowed to leave the building while the examination is proceeding. Violation of this rule will subject the candidate to all the penalties of a failure.

114. **Copying, etc., to be prevented.**—Candidates should be so placed as to prevent one copying from the other, and no communication whatever between the candidates should be allowed.

115. **Penalty for Copying, etc.**—In the event of any candidate being discovered referring to any book or paper, or copying from another, or affording any assistance or giving any information to another, or communicating in any way with another, during the time of examination, or copying any part of the problems for the purpose of taking them out of the examination rooms he will subject himself to all the penalties of a failure and will not be allowed to be examined for a period of six months.

A candidate guilty of a second offence will not be allowed to be examined until 12 months have elapsed.

116. **Injury to books, Instrument, etc.**—If a candidate defaces, blots, writes in, or otherwise injures any book or form belonging to the Local Government, his papers will be retained until he has replaced the damaged book or document. He will not be allowed to remove the damaged book or document or instruments and will be subjected to all the penalties of a failure.

117. **Silence.**—Perfect silence is to be preserved in the examination room.

118. **Penalty for breach of rules.**—Any candidate violating any of the regulations, or being guilty of insolence to the Examiner, or of disorderly or improper conduct in or about the room, will render himself liable to the postponement of his examination, or, if he has passed, to the detention of his certificate for such period as the Local Government may direct.

119. **Examination papers: how to be dealt with.**—The examination papers of candidates must in all cases be sent to the Port Officer for his approval, together with the report of the examination on the forms Exn. 14 and Exn. 34.

120. **Examination in Navigation.**—The whole of the written portion of the examination will be taken on the marks system. The candidate will be furnished with sheets of the blank ruled paper (Exn. 30) which is supplied for the purpose, with instructions that he is to work or write only on one side of the paper, and to answer in a clear and legible hand each of the questions on the paper, and to commence each answer by writing down the number of the question to which it relates in the margin. Marks will be allotted for each question, and candidates will be required to obtain 75 per cent. of the total marks in order to pass for an Ordinary Certificate. Papers will not be handed back to candidates for correction.

121. **Compass Deviation.**—In answering questions on the tentative method of compass adjustment, the candidate will be tested by Beall's Compass Deviascope.

122. **Barometer, tides, &c.**—The examination on the barometer, thermometer, and hydrometer, prevailing winds and currents of the globe, trade, routes, and tides, will be conducted orally, and the questions asked by the examiner, which will be constantly varied, will be confined to

and based on the information given in the text-books mentioned in Appendix J; candidates will be required to have a fair and intelligent knowledge of the contents of those books.

123. **Sextant.**—Particular attention should be paid to the sextant, the examination in which will be conducted orally and practically. Every candidate will be required to measure both vertical and horizontal angles, and will be examined practically as to his knowledge of the adjustments and the use of the various screws; he must be able to read correctly on and off the arc, and must also be able to find the index error both by the horizon and by the sun.

124. **Corrections by tables.**—The corrections by inspection of tables given in some of the works on navigation will not be allowed; every correction must appear on the papers of the candidates.

125. **Degree of precision required.**—Degree of precision required in the solution of the problems:—

(*a*) Candidates are expected to work their problems to the nearest half-minute of arc and to the nearest second in time.

(*b*) In interpolating for the correct deviation to be applied in solving the chart questions, it will usually be sufficient if the candidate works throughout with the nearest degree of deviation taken from the deviation card; and even in cases where the deviations may vary but little, the nearest half degree used throughout will be sufficiently precise. It is not necessary that the candidate should waste his time in solving the course to odd minutes, as is sometimes done.

(*c*) In calculating the correction to apply to soundings the candidate is not required to work to the exact inch, as is sometimes done. It will be sufficient if he brings his answer within half a foot or so of a precise result.

126. **Candidates may use own method.**—Candidates will be allowed to work out the various problems according to any method they have been accustomed to use, provided such method is correct in principle.

127. **Supplementary viva voce.**—Candidates will be examined orally as to their knowledge of all their written and worked papers.

128. **No candidate to be examined twice in a week.**—A candidate will not be allowed to undergo examination twice in the same week, unless, under very special and urgent circumstances, the Examiner should see fit to relax this rule. In that case a special set of problems should be supplied to the candidate.

APPENDIX A.

(*See* Rule 24.)

PORTS WHERE EXAMINATIONS IN THE SIGHT TESTS ARE HELD.

The Sight Tests can only be conducted in a good light, and it will often be impossible for candidates to have their sight tested later than two o'clock in the afternoon in the winter months (September to March inclusive), or even earlier on dull or foggy days. Where definite hours are mentioned in the following list of ports candidates can only be tested within those hours; at all ports candidates should attend as early in the morning as practicable:—

Aberdeen.—Monday before the 2nd and 4th Tuesday in each month.
Belfast.—Monday before the 1st and 3rd Tuesday in each month.
Bristol.—Monday before the 1st and 3rd Tuesday in each month.
Cardiff.—Any Monday between 10 A.M. and 11 A.M.
Dublin.—Monday before the 2nd and 4th Tuesday in each month.
Dundee.—Monday before the 1st, 3rd and 5th Tuesday in each month.
Glasgow.—Any day between 10 A.M and noon.
Greenock.—Monday before the 2nd and 4th Tuesday in each month, between 10 A.M. and noon.
Grimsby.—Monday before the 1st and 3rd Tuesday in each month.
Hartlepool (West).—Monday before the 4th Tuesday in each month.
Hull.—Any day.
Leith.—Monday before the 2nd and 4th Tuesday in each month.
Liverpool.—Every Thursday, Friday and Saturday.
London (Dock Street, E.).—Every Friday and Saturday.
London (133, E. India, Dock Road, Poplar, E. 14).—Any day between 10 A.M. and noon.
London (Tilbury, Essex).—Every Thursday and Friday between 10 A.M. and noon.

London (Victoria Docks, E. 16).—Any day.
Manchester (Salford).—Any day.
Newport.—Any Monday at 10 A.M.
Plymouth.—Monday before the 2nd and 4th Tuesday in each month.
Southampton.—Every Monday and other days by special arrangement.
South Shields.—Monday before the 1st and 3rd Tuesday in each month.
Sunderland.—Monday before the 2nd and 5th Tuesday in each month.
Swansea.—Any Monday at 10 A.M.
Calcutta.—Any day.
Chittagong.—Any day.

EXAMINATION IN SIGNALLING.

The examination in Signalling should in all cases and for all grades commence with an examination in the International Code and be followed by an examination in the Allied Signal Manual, including Morse Flashing, Flagwaving and Semaphore.

International Code.—Examiners are recommended to frame the examination in the International Code of Signals, upon the instructions and illustrations given at the commencement of Parts I and II of the Signal Book. The information there given will be found sufficient to indicate all the characteristics of the Code.

By the form of the hoist, an observer can at sight understand the nature of any signal he sees flying; the examination should, therefore, tend to elicit a clear knowledge of all the distinctive features of the Code.

With this object in view, the examiners should question the candidates as to the distinguishing forms of the respective hoists, which will be indicated according as a burgee, a pennant, or a square flag is uppermost, and also with regard to the number of flags, and the position of the Code flag when used in the hoist; making the 1, 2, 3 and 4 flag signals with the flags supplied for the purpose, and varying the signals made, showing 2 and 3 flag signals, with and without the Code flag included, or a Geographical or a Vocubualry signal, the name of a merchant ship or of a ship of war.

As the two latter signals would not be found in the Signal Book, the candidate should know where to find them and how to look them out.

The candidate should:—(*a*) Be able to read a signal at sight, so far as to name the flags composing the hoist. (*b*) Know the use of the Code pennant and of the pennants C and D, "Yes" and "No," also of the two burgees A and B, and the square flags S and P, and the flags used to indicate cholera, plague, etc., on board, and the quarantine flag. (*c*) Be required to signal some word or words not included in the vocabulary of the Code either by letters or by the Spelling Table (page 516) or both. (*d*) Have a knowledge of the Distant Signals, and of their object, and the different modes of signalling therewith. (*e*) Know the special Morse signals indicated by certain letters as given on page 550. (*f*) Have a good knowledge of the Distress Signals and understand the penalty which may be incurred by their improper use.

The International Code is used on board His Majesty's ships, and it has been adopted by all the principal Maritime Powers for their public as well as merchant ships.

Allied Signal Manual.—Candidates will be expected to know the meaning of any or all of the single flag signals given therein, and the significations of the Pilot Jack when incorporated in a hoist. They should also be required to make or read from the Pilot Jack table a hoist given by the Examiner. Candidates need not be expected to commit the Pilot Jack table to memory, but there should be no hesitation whatever in making or reading a signal. They should also know how to recognise any of the Special Signals given at the end of the Allied Signal Manual.

Morse Flashing, Flagwaving and Semaphore.—Candidates for the voluntary examination in signalling will be required to attain a minimum speed of 12 words a minute in semaphore, 10 words a minute in Morse flashing and 6 words a minute in Morse flagwaving (the average length of a word being taken as 5 letters).

Candidates for other certificates will only be required to attain a speed of 6 words a minute in Morse flashing and 5 words a minute in Morse flagwaving and 10 words a minute in Semaphore.

In the ordinary examination, it will be sufficient if in Morse flashing a candidate is given a test card and a spelling message of 10 words, in Morse flagwaving a spelling message of 10 words, and in Semaphore a spelling message of 25 words.

In the voluntary examination in signalling, the Semaphore test will be a spelling message of 50 words.

The Morse, flashing and flagwaving test will be a test message (*see* Allied Signal Manual) followed by a spelling message of 25 words.

The candidates must attain a degree of accuracy of at least 90 per cent. both in making and reading in each method, *i.e.*, Flashing, Flagwaving and Semaphore.

In the examination in Morse flashing and flagwaving the candidate should be first required to make a test message, followed by a spelling message of 25 words. The examiner should then make a test message, followed by a spelling message of 25 words to be read by the candidate.

The same procedure must be observed in the Semaphore examination, except that, as a test message is not given, the candidate will be required to make a spelling message of 50 words and then to read a message of 50 words made by the Examiner. The Semaphore messages may be made either by hand flags or mechanical Semaphore or both at the discretion of the Examiner.

In the Morse flashing and flagwaving examination, marks will be allotted for the test message in the proportion of 50-78 of a mark for each correct letter (see table at back of test card), and for the spelling message 2 marks for each correct word or group of figures. The candidate must for a pass gain an aggregate of at least 90 per cent. of the maximum marks in both spelling and test messages.

In the Semaphore examination 2 marks will be allotted for each correct word and 90 per cent. of the maximum must be obtained for a pass.

The spelling message is left to the discretion of the Examiner, and may be a passage from any book or newspaper in English. When the passage contains figures and the candidate does not choose to spell them out, the Examiner should see that the proper signs are made before and after the figures.

The message as read by the candidate should be taken down by another candidate where possible, otherwise by a clerk, or other person according as the Examiner may deem expedient.

Candidates should be thoroughly tested in the various signs and the procedure of calling up, sending and answering a signal, as laid down in the Allied Signal Manual, and this course should always be strictly adhered to.

Particular attention should be paid by Examiners to the accurate spacing of the Morse signs, and to the intervals between letters and words, both in flashing and flagwaving, and also to the correct making of the Semaphore signs. Any attempted increase of speed at the expense of accuracy should be discouraged.

The block letter test and spelling message as read by the candidate should be forwarded on the Form Exn. 19*a*, together with the percentage of marks allotted and report on the Form Exn. 19*b* to the Principal Examiner, with any remarks the Examiner may have to add with respect to the examination.

Note.—The International Code of Signals, with the Signal Letters of British Ships, is prepared by the Registrar-General of Shipping and Seamen, and may be obtained of the publishers, Messrs. Spottiswoode, Ballantyne & Co., 1, New Street Square, London, E. C. 4, and the principal booksellers at the various ports, price 5*s*.

The Official Mercantile Navy List and Maritime Directory may be obtained in like manner, price 12*s*.

The Allied Signal Manual may be obtained through any bookseller, or directly from His Majesty's Stationery Office, price 1*s*.

APPENDIX D.

REGULATIONS FOR PREVENTING COLLISIONS AT SEA.

1. ORDER IN COUNCIL OF OCTOBER 13, 1910.

SCHEDULE I.

Preliminary.

These Rules shall be followed by all vessels upon the high seas and in all waters connected therewith navigable by sea-going vessels.

In the following Rules every steam vessel which is under sail and not under steam is to be considered a sailing vessel, and every vessel under steam, whether under sail or not, is to be considered a steam vessel.

The word "steam vessel" shall include any vessel propelled by machinery.

A vessel is "under way" within the meaning of these Rules, when he is not at anchor, or made fast to the shore or aground.

Rules concerning lights, etc.

The word "visible" in these Rules, when applied to lights, shall mean visible on a dark night with a clear atmosphere.

Article 1. The rules concerning lights shall be complied with in all weathers from sunset to sunrise and during such time no other lights which may be mistaken for the prescribed lights shall be exhibited,

Article 2. A steam vessel when under way shall carry:—

(a) On or in front of the foremast, or if a vessel without a foremast, then in the fore part of the vessel, at a height above the hull, of not less than 20 feet, and if the breadth of the vessel exceeds 20 feet, then at a height above the hull not less than such a breadth, so, however, that the light need not be carried at a greater height above the hull than 40 feet, a bright white light so constructed as to show an unbroken light over an arc of the horizon of 20 points of the compass, so fixed as to throw the light 10 points on each side of the vessel, viz., from light ahead to 2 points abaft the beam on either side, and of such a character as to be visible at a distance of at least 5 miles.

(b) On the starboard side a green light so constructed as to show an unbroken light over an arc of the horizon of 10 points of the compass, so fixed as to throw the light from right ahead to two points abaft the beam on the starboard side, and of such a character as to be visible at a distance of at least 2 miles.

(c) On the port side a red light so constructed as to show an unbroken light over an arc of the horizon of 10 points of the compass, so fixed as to throw the light from right ahead to two points abaft the beam on the port side, and of such a character as to be visible at a distance of at least two miles.

(d) The said green and red side-lights shall be fitted with in-board screens projecting at least 3 feet forward from the light, so as to prevent these lights from being seen across the bow.

(e) A steam vessel when under way may carry an additional white light similar in construction to the light mentioned in subdivision (a). These two lights shall be so placed in line with the keel that one shall be at least 15 feet higher than the other, and in such a position with reference to each other that the lower light shall be forward of the upper one. The vertical distance between these lights shall be less than the horizontal distance.

Article 3. A steam vessel when towing another vessel shall, in addition to her side-lights, carry two bright white lights in a vertical line one over the other, not less than 6 feet apart, and when towing more than one vessel shall carry an additional bright white light 6 feet above or below such lights, if the length of the tow, measuring from the stern of the towing vessel to the stern of the last vessel towed, exceeds 600 feet. Each of these lights shall be of the same construction and character, and shall be carried in the same position as the white light mentioned in Article 2 (a), except the additional light, which may be carried at a height of not less than 14 feet above the hull.

Such steam vessel may carry a small white light abaft the funnel or aftermast for the vessel towed to steer by, but such light shall not be visible forward of the beam.

Article 4. (a) A vessel which from any accident is not under command shall carry at the same height as the white light mentioned in Article 2 (a), where they can best be seen, and, if a steam vessel, in lieu of that light, two red lights, in a vertical line one over the other, not less than 6 feet apart, and of such a character as to be visible all round the horizon at a distance of at least 2 miles; and shall by day carry in a vertical line one over the other not less than 6 feet apart, where they can best be seen, two black balls or shapes each 2 feet in diameter.

(b) A vessel employed in laying or in picking up a telegraph cable shall carry in the same position as the white light mentioned in Article 2 (a), and if a steam vessel, in lieu of that light, three lights in a vertical line one over the other, not less than 6 feet apart. The highest and lowest of these lights shall be red, and the middle light shall be white, and they shall be of such a character as to be visible all round the horizon, at a distance of at least 2 miles. By day she shall carry in a vertical line one over the other, not less than 6 feet apart, where they can best be seen, three shapes not less than 2 feet in diameter, of which the highest and lowest shall be globular in shape and red in colour, and the middle one diamond in shape and white.

(c) The vessel referred to in this Article when not making way through the water, shall not carry the side-lights, but when making way shall carry them.

(d) The lights and shapes required to be shown by this Article are to be taken by other vessels as signals that the vessel showing them is not under command and cannot therefore get out of the way.

These signals are not signals of vessels in distress and requiring assistance. Such signals are contained in Article 31.

Article 5. A sailing vessel under way, and any vessel being towed, shall carry the same lights as are prescribed by Article 2 for a steam vessel under way, with the exception of the white lights mentioned therein, which they shall never carry.

Article 6. Whenever, as in the case of small vessels under way during the bad weather, the green and red side-lights cannot be fixed, these lights shall be kept at hand lighted and ready for use, and shall, on the approach of or to other

vessels, be exhibited on their respective sides in sufficient time to prevent collision, in such manner as to make them most visible, and so that the green light shall not be seen on the port side nor the red light on the starboard side, nor, if practicable, more than 2 points abaft the beam on their respective sides.

To make the use of these portable lights more certain and easy, the lanterns containing them shall each be painted outside with the colour of the light they respectively contain, and shall be provided with proper screens.

Article 7. Steam vessels of less than 40, and vessels under oars or sails of less than 20 tons gross tonnage, respectively, and rowing boats, when under way, shall not be obliged to carry the lights mentioned in Article 2 (*a*), (*b*) and (*c*) but if they do not carry them they shall be provided with the following lights:—

1. Steam vessels of less than 40 tons shall carry:—

(*a*) In the forepart of the vessel, or on or in front of the funnel, where it can best be seen, and at a height above the gunwale of not less than 9 feet a bright white light constructed and fixed as prescribed in Article 2 (*a*) and of such a character as to be visible at a distance of at least 2 miles.

(*b*) Green and red side-lights constructed and fixed as prescribed in Article 2 (*b*) and (*c*) and of such character as to be visible at a distance of at least a mile, or a combined lantern showing a green light and a red light from right ahead to 2 points abaft the beam on their respective sides. Such lanterns shall be carried not less than 3 feet below the white light.

2. Small steamboats, such as are carried by sea-going vessels, may carry the white light at a less height than 9 feet above the gunwale, but it shall be carried above the combined lantern, mentioned in subdivision 1 (*b*).

3. Vessels under oars or sails, of less than 20 tons, shall have ready at hand a lantern with a green glass on one side and a red glass on the other, which on the approach of or to other vessel shall be exhibited in sufficient time to prevent collision, so that the green light shall not be seen on the port side nor the red light on the starboard side.

4. Rowing boats, whether under oars or sail, shall have ready at hand a lantern showing a white light, which shall be temporarily exhibited in sufficient time to prevent collision.

The vessels referred to in this Article shall not be obliged to carry the lights prescribed by Article 4 (*a*) and Article 11, last paragraph.

Article 8. Pilot-vessels, when engaged on their station on pilotage duty, shall not show the lights required for other vessels, but shall carry a white light at the masthead, visible all round the horizon, and shall also exhibit flare-up lights on flare-up lights at short intervals, which shall never exceed fifteen minutes.

On the near approach of or to other vessels they shall have their side-lights lighted, ready for use, and shall flash or show them at short intervals, to indicate the direction in which they are heading, but the green light shall not be shown on the port side, nor the red light on the starboard side.

A pilot-vessel of such a class as to be obliged to go alongside of a vessel to put a pilot on board, may show the white light instead of carrying it at the masthead and may, instead of the coloured lights above mentioned, have at hand ready for use a lantern with a green glass on the one side and a red glass on the other, to be used as prescribed above.

A steam pilot-vessel exclusively employed for the service of pilots licensed or certified by any pilotage authority or the Committee of any pilotage district, when engaged on her station on pilotage duty and not at anchor, shall, in addition to the lights required for all pilot boats, carry at a distance of eight feet below her white masthead light a red light visible all round the horizon and of such a character as to be visible on a dark night with a clear atmosphere at a distance of at least two miles, and also the coloured side-lights required to be carried by vessels when under way.

When engaged on her station on pilotage duty and at anchor she shall carry, in addition to the lights required for all pilot boats, the red light above mentioned, but not the coloured side lights.

Pilot-vessels, when not engaged on their station on pilotage duty, shall carry lights similar to those of other vessels of their tonnage.

Article 9.*†Fishing-vessels and fishing-boats, when under way and when not required by this Article to carry or show the lights hereinafter specified, shall carry or show the lights prescribed for vessels of their tonnage under way.

(*a*) Open boats, by which it is to be understood boats not protected from the entry of sea water by means of a continuous deck, when engaged in any fishing at night with outlying tackle extending not more than 150 feet horizontally from the boat into the seaway shall carry one all-round white light.

---

* This article does not apply to Chinese or Siamese vessels

† The expression "Mediterranean Sea" contained in sub-sections (*b*) and (*e*) of this article includes the Black Sea and the other adjacent inland seas in communication with it.

Open boats, when fishing at night with outlying tackle extending more than 150 feet horizontally from the boat into the seaway, shall carry one all round white light, and in addition, on approaching or being approached by other vessels, shall show a second white light at least 3 feet below the first light and at a horizontal distance of at least 5 feet away from it in the direction in which the outlying tackle is attached.

(*b*)‡ Vessels and boats, except upon open boats as defined in subdivision (*a*), when fishing with drift-nets shall, so long as the nets are wholly or partly in the water, carry two white lights where they can best be seen. Such lights shall be placed so that the vertical distance between them shall be not less than 6 feet, and not more than 15 feet, and so that the horizontal distance between them, measured in a line with the keel, shall be not less than 5 feet and not more than 10 feet. The lower of these two lights shall be in the direction of the nets, and both of them shall be of such a character as to show all round the horizon and to be visible at a distance of not less than 3 miles.

Within the Mediterranean Sea and in the seas bordering the coasts of Japan and Korea† sailing fishing vessels of less than 20 tons gross tonnage shall not be obliged to carry the lower of these two lights; should they however, not carry it, they shall show in the same position (in the direction of the net or gear) a white light, visible at a distance of not less than one sea mile, on the approach of or to other vessels.

(*c*) Vessels and boats, except open boats as defined in subdivision (*a*), when line-fishing with their lines out and attached to or hauling their lines, and when not at anchor or stationary within the meaning of subdivision (*h*), shall carry the same lights as vessels fishing with drift-nets. When shooting lines, or fishing with towing lines, they shall carry the lights prescribed for a steam or sailing vessel under way, respectively.

Within the Mediterranean Sea and in the seas bordering the coasts of Japan and Korea† sailing fishing vessels of less than 20 tons gross tonnage shall not be obliged to carry the lower of these two lights; should they, however, not carry it, they shall show in the same position (in the direction of the lines) a white light, visible at a distance of not less than one sea mile, on the approach of or to other vessels.

(*d*) Vessels, when engaged in trawling by which is meant the dragging of an apparatus along the bottom of the sea—

1. If steam vessels, shall carry, in the same position as the white light mentioned in Article 2 (*a*) a tricoloured lantern so constructed and fixed as to show a white light from right ahead to two points on each bow and a green light and a red light over an arc of the horizon from two points on each bow to two points abaft the beam on the starboard and port sides, respectively; and not less than 6 nor more than 12 feet below the tricoloured lantern a white light in a lantern, so constructed as to show a clear, unform and unbroken light all round the horizon.
2. If sailing vessels shall carry a white light in a lantern, so constructed as to show a clear, uniform and unbroken light all round the horizon, and shall also, on the approach of or to other vessels, show where it can best be seen a white flare-up light or torch in sufficient time to prevent collision.

All lights mentioned in subdivision (*d*) 1 and 2 shall be visible at a distance of at least 2 miles.

(*e*) Oyster dredgers and other vessels fishing with dredge-nets shall carry and show the same lights as trawlers.

(*f*) Fishing-vessels and fishing-boats may at any time use a flare-up light in addition to the lights which they are by this Article required to carry and show, and they may also use working lights.

(*g*) Every fishing-vessel and every fishing-boat under 150 feet in length, when at anchor, shall exhibit a white light visible all round the horizon at a distance of at least one mile.

Every fishing-vessel of 150 feet in length or upwards, when at anchor, shall exhibit a white light visible all round the horizon at a distance of at least one mile, and shall exhibit a second light as provided for vessels of such length by Article 11.

Should any such vessel, whether under 150 feet in length, or of 150 feet in length or upwards, be attached to a net or other fishing gear, she shall on the approach of other vessels show an additional white light at least 3 feet below the anchor light, and at a horizontal distance of at least 5 feet away from it in the direction of the net or gear.

(*h*) If a vessel or boat when fishing becomes stationary in consequence of her gear getting fast to a rock or other obstruction, she shall in daytime haul down the

‡ Dutch vessels and boats when engaged in the "kol" or handline fishing will carry the lights prescribed for vessels fishing with driftnets.

† Also, as regards Russian vessels in the seas (excluding the Baltic) bordering the coasts of Russia.

day-signal required by subdivision (*k*); at night show the light or lights prescribed for a vessel at anchor; and during fog, mist, falling snow, or heavy rain-storms make the signal prescribed for a vessel at anchor. [*See* subdivision (*d*), and the last paragraph of Article 15.]

(*i*) In fog, mist, falling snow, or heavy rain-storms, drift-net vessels attached to their nets, and vessels when trawling, dredging, or fishing with any kind of dredge-net, and vessels line-fishing with their lines out, shall, if of 20 tons gross tonnage or upwards, respectively, at intervals of not more than one minute, make a blast, if steam vessels, with the whistle or siren, and if sailing vessels, with the fog-horn ; each blast to be followed by ringing the bell. Fishing vessels and boats of less than 20 tons gross tonnage shall not be obliged to give the abovementioned signals; but if they do not, they shall make some other efficient sound signal at intervals of not more than one minute.

(*k*) All vessels or boats fishing with nets or lines or trawls, when under way, shall in daytime indicate their occupation, to an approaching vessel by displaying a basket or other efficient signal where it can best be seen. If vessels or boats at anchor have their gear out they shall, on the approach of other vessels, show the same signal on the side on which those vessels can pass.

The vessels required by this Article to carry or show the lights hereinbefore specified shall not be obliged to carry the lights prescribed by Article 4 (*a*), and the last paragraph of Article 11.

Article 10. A vessel which is being overtaken by another shall show from her stern to such last-mentioned vessel a white light or a flare-up light.

The white light required to be shown by this Article may be fixed and carried in a lantern, but in such case the lantern shall be so constructed, fitted, and screened that it shall throw an unbroken light over an arc of the horizon of 12 points of the compass, viz., for 6 points from right aft on each side of the vessel, so as to be visible at a distance of at least 1 mile. Such light shall be carried as nearly as practicable on the same level as the side-lights.

Article 11. A vessel under 150 feet in length, when at anchor ,shall carry forward, where it can best be seen, but at a height not exceeding 20 feet above the hull, a white light in a lantern so constructed as to show a clear, uniform and unbroken light visible all round the horizon at a distance of at least 1 mile.

A vessel of 150 feet or upwards in length, when at anchor, shall carry in the forward part of the vessel, at a height of not less than 20, and not exceeding 40, feet above the hull, one such light, and at or near the stern of the vessel, and at such a height that it shall be not less than 15 feet lower than the forward light, another such light.

The length of the vessel shall be deemed to be the length appearing in her certificate of registry.

A vessel aground in or near a fairway shall carry the above light or lights and the two red lights prescribed by Article 4 (*a*).

Article 12. Every vessel may, if necessary in order to attract attention, in addition to the lights which she is by these Rules required to carry, show a flare-up light or use any detonating signal that cannot be mistaken for a distress signal.

Article 13. Nothing in these Rules shall interfere with the operation of any special rules made by the Government of any nation with respect to additional station and signal lights for two or more ships of war or for vessels sailing under convoy, or with the exhibition of recognition signals adopted by ship-owners, which have been authorised by their respective Governments and duly registered and published.

Article 14. A steam vessel proceeding under sail only, but having her funnel up, shall carry in daytime, forward, where it can best be seen, one black ball or shape 2 feet in diameter.

Sound-signals for Fog, etc.

Article 15. All signals prescribed by this Article for vessels under way shall be given :—

1. By "steam vessels" on the whistle or siren.
2. By "sailing vessels and vessels towed" on the fog-horn.

The words "prolonged blast" used in this Article shall mean a blast of from 4 to 6 seconds' duration.

A steam vessel shall be provided with an efficient whistle or siren, sounded by steam or some substitute for steam, so placed that the sound may not be intercepted by any obstruction, and with an efficient fog-horn, to be sounded by mechanical means, and also with an efficient bell.* A sailing vessel of 20 tons gross tonnage or upwards shall be provided with a similar fog-horn and bell.

In fog, mist falling snow, or heavy rain-storms, whether by day or night, the signals described in this Article shall be used as follows, viz. :—

(*a*) A steam vessel having way upon her, shall sound, at intervals of not more than 2 minutes, a prolonged blast.

* In all cases where the rules require a bell to be used a drum may be substituted on board Turkish vessels, or a gong where such articles are used on board small sea-going vessels.

(*b*) A steam vessel under way, but stopped and having no way upon her, shall sound, at intervals of not more than 2 minutes, two prolonged blasts, with an interval of about 1 second between them.

(*c*) A sailing vessel under way shall sound, at intervals of not more than 1 minute, when on the starboard tack one blast, when on the port tack two blasts in succession, and when with the wind abaft the beam three blasts in sucession.

(*d*) A vessel, when at anchor, shall, at intervals of not more than 1 minute, ring the bell rapidly for about 5 seconds.

(*e*) A vessel, when towing a vessel employed in laying or picking up a telegraph cable, and a vessel under way, which is unable to get out of the way of an approaching vessel through being not under command, or unable to manœurve as required by these Rules, shall, instead of the signals prescribed in subdivisions (*a*) and (*c*) of this Article, at intervals of not more than 2 minutes, sound three blasts in succession, viz.: one prolonged blast followed by two short blasts. A vessel towed may give this signal and she shall not give any other.

Sailing vessels and boats less than 20 tons gross tonnage shall not be obliged to give the abovementioned signals, but if they do not, they shall make some other efficient sound-signal at intervals of not more than 1 minute.†

Speed of ships to be Moderate in Fog, etc.

Article 16. Every vessel shall, in a fog, mist, falling snow or heavy rain storms, go at a moderate speed, having careful regard to the existing circumstances and conditions.

A steam vessel bearing, apparently forward of her beam, the fog-signal of a vessel the position of which is not ascertained, shall, so far as the circumstances of the case admit, stop her engines, and then navigate with caution until danger of collision is over.

STEERING AND SAILING RULES.

Preliminary—Risk of Collision.

Risk of collision can, when circumstances permit, be ascertained by carefully watching the compass bearing of an approaching vessel. If the bearing does not appreciably change, such risk should be deemed to exist.

Article 17. When two sailing vessels are approaching one another, so as to involve risk of collision, one of them shall keep out of the way of the other, as follows, viz.:—

(*a*) A vessel which is running free shall keep out of the way of a vessel which is close-hauled.

(*b*) A vessel which is close-hauled on the port tack shall keep out of the way of a vessel which is close-hauled on the starboard tack.

(*c*) When both are running free, with the wind on different sides, the vessel which has the wind on the port side shall keep out of the way of the other.

(*d*) When both are running free, with the wind on the same side, the vessel which is to windward shall keep out of the way of the vessel which is to leeward.

(*e*) A vessel which has the wind aft shall keep out of the way of the other vessel.

Article 18. When two steam vessels are meeting end on, or nearly end on, so as to involve risk of collision, each shall alter her course to starboard, so that each may pass on the port side of the other.

This Article only applies to cases where vessels are meeting end on, or nearly end on, in such a manner as to involve risk of collision, and does not apply to two vessels which must, if both keep on their respective courses, pass clear of each other.

The only cases to which it does apply are when each of the two vessels is end on, or nearly end on, to the other; in other words, to cases in which, by day, each vessel sees the masts of the other in a line, or nearly in a line, with her own; and, by night, to cases to which each vessel is in such a position as to see both the side lights of the other.

It does not apply, by day, to cases in which a vessel sees another ahead crossing her own course; or by night, to cases where the red light of one vessel is opposed to the red light of the other, or where the green light of one vessel is opposed to the green light of the other, or where a red light without a green light, or a green light without a red light, is seen ahead or where both green and red lights are seen anywhere but ahead.

† Dutch steam pilot-vessels, when engaged on their station on pilotage duty in fog, mist, falling snow, or heavy rain storms are required to make at intervals of 2 minutes at most one long blast with the siren, followed after 1 second by a long blast with the steam whistle and again after 1 second by a long blast on the siren. When not engaged on their station on pilotage duty, they make the same signals as other steamships.

Article 19. When two steam vessels are crossing, so as to involve risk of collision, the vessel which has the other on her own starboard side shell keep out of the way of the other.

Article 20. When a steam vessel and a sailing vessel are proceeding in such directions as to involve risk of collision, the steam vessel shall keep out of the way of the sailing vessel.

Article 21. Where by any of these Rules one of two vessels is to keep out of the way, the other shall keep her course and speed.

Note.—When, in consequence of thick weather or other causes, such vessel finds herself so close that collision cannot be avoided by the action of the giving-way vessel alone, she also shall take such action as will best aid to avert collision. (*See* Articles 27 and 29.)

Article 22. Every vessel which is directed by these Rules to keep out of the way of another vessel shall, if the circumstances of the case admit, avoid crossing ahead of the other.

Article 23. Every steam vessel which is directed by these Rules to keep out of the way of another vessel shall on approaching her, if necessary, slacken her speed or stop or reverse.

Article 24. Notwithstanding anything contained in these Rules, every vessel, overtaking any other, shall keep out of the way of the overtaken vessel.

Every vessel coming up with another vessel from any direction more than two points abaft her beam, *i.e.*, in such a position, with reference to the vessel which she is overtaking that at night she would be unable to see either of that vessel's side-lights, shall be deemed to be an overtaking vessel; and no subsequent alteration of the bearing between the two vessels shall make the overtaking vessel a crossing vessel within the meaning of these Rules, or relieve her of the duty of keeping clear of the overtaken vessel until she is finally past and clear.

As by day the overtaking vessel cannot always know with certainty whether she is forward or abaft this direction from the other vessel, she should, if in doubt, assume that she is an overtaking vessel and keep out of the way.

Article 25. In narrow channels every steam vessel shall, when it is safe and practicable, keep to that side of the fairway or mid-channel which lies on the starboard side of such vessel.

Article 26. Sailing vessels under way shall keep out of the way of sailing vessels or boats fishing with nets, or lines, or trawls. This Rule shall not give to any vessel or boat engaged in fishing the right of obstructing a fairway used by vessels other than fishing vessels or boats.

Article 27. In obeying and construing these Rules, due regard shall be had to all dangers of navigation and collision, and to any special circumstances which may render a departure from the above Rules necessary in order to avoid immediate danger.

Sound Signals for Vessels in Sight of one another.

Article 28. The words "short blast" used in this Article shall mean a blast of about one second's duration.

When vessels are in sight of one another, a steam vessel under way, in taking any course authorised or required by these Rules, shall indicate that course by the following signals on her whistle or siren, viz.:—

One short blast to mean, "I am directing my course to starboard."
Two short blasts to mean, "I am directing my course to port."
Three short basts to mean, "My engines are going full speed astern."

No Vessels under any circumstances to neglect proper Precautions.

Article 29. Nothing in these Rules shall exonerate any vessel, or the owner, or master, or crew thereof, from the consequences of any neglect to carry lights or signals, or of any neglect to keep a proper look-out, or of the neglect of any precaution which may be required by the ordinary practice of seamen, or by the special circumstances of the case.

Reservation of Rules for Harbours and Inland Navigation.

Article 30. Nothing in these Rules shall interfere with the operation of a special rule, duly made by local authority, relative to the navigation of any harbour, river, or inland waters.

*Distress Signals.**

Article 31. When a vessel is in distress and requires assistance from other vessels or from the shore the following shall be the signals to be used or displayed by her, either together or separately, viz.:—

In the daytime—

1. A gun or other explosive signal fired at intervals of about a minute.
2. The International Code signal of distress indicated by NC.
3. †The distant signal, consisting of a square flag, having either above or below it a ball or any thing resembling a ball.
4. A continuous sounding with any fog-signal apparatus.

At night—

1. A gun or other explosive signal fired at intervals of about a minute.
2. Flames on the vessel (as from a burning tar-barrel, oil barrel, etc.).
3. Rockets or shells, throwing stars of any colour or description, fired one at a time, at short intervals.
4. A continuous sounding with any fog-signal apparatus.

AIDS TO MEMORY in four verses, by the late MR. THOMAS GRAY, C.B.

1. *Two Steam Ships meeting.*

When both side lights you see ahead—
Port your helm and show your RED.

2. *Two Steam Ships passing.*

GREEN to GREEN—or, RED to RED—
Perfect safety—Go ahead!

3. *Two Steam Ships crossing.*

Note.—This is the position of greatest danger: there is nothing for it but good look-out, caution and judgment.

If to your starboard RED appear,
It is your duty to keep clear;
To act as judgment says is proper:—
To Port—or Starboard—Back,—or, Stop her.
But when upon your Port is seen
A Steamer's Starboard Light of GREEN
There's not so much for you to do,
For GREEN to Port keeps clear of you.

4. *All ships must keep a good look-out, and Steam Ships must stop and go astern, if necessary.*

Both in safety and in doubt
Always keep a good look-out;
In danger, with no room to turn, Ease her, stop her, go astern.

APPENDIX E.

SIGNALS TO BE MADE BY SHIP WANTING A PILOT.

In the daytime.—The following signals, numbered 1, 2, 3 and 4, when used or displayed together or separately, shall be deemed to be signals for a pilot in the daytime, viz.:—

1. To be hoisted at the fore, the Union Jack, having round it a white border, one-fifth of the breadth of the flag; or
2. The International Code pilotage signal indicated by PT.
3. The International Code Flag S, with or without the Code Pennant over it.
4. The distant signal, consisting of a cone point upwards, having above it two balls or shapes resembling balls.

At night.—The following signals, numbered 1 and 2, when used or displayed together or separately, shall be deemed to be signals for a pilot at night, viz.:—

1. The pyrotechnic light, commonly known as a blue light, every fifteen minutes; or
2. A bright white light, flashed or shown at short or frequent intervals just above the bulwarks, for about a minute at a time.

If a master of vessel uses or displays, or causes or permits any person under his authority to use or display, any of the pilot signals for any other purpose than that of summoning a pilot or uses or causes or permits any person under his authority to use any other signal for a pilot, he shall for each offence be liable to a fine not exceeding twenty pounds. [Merchant Shipping Act, 1894, section 615 (3).]

---

* If a master of a vessel uses or displays, or causes or permits any person under his authority to use or display, any of those signals of distress, except in the case of a vessel being in distress, he shall be liable to pay compensation for any labour undertaken, risk incurred, or loss sustained in consequence of that signal, having been supposed to be a signal of distress, and that compensation may, without prejudice to any other remedy be recovered in the same manner in which salvage is recoverable. [Merchant Shipping Act, 1894, section 434 (2).]

† A further distress signal is provided in the International Code of Signals. It is a distant signal consisting of a cone point upwards, having either above it or below it a ball, or anything resembling a ball. This signal has not been sanctioned by order in Council under the provisions of section 435 of the Merchant Shipping Act, 1894.

APPENDIX F.

DEVIATION OF THE COMPASS.

FOR MASTERS' CERTIFICATES FOR HOME TRADE PASSENGER SHIPS.

The candidate must answer in writing, on paper given him by the examiner, all the following questions, numbering his answers to correspond with the numbers of the questions:—

1. When taking a Meridian Altitude, how do you know when the sun is on the Meridian; or in other words, when it is noon?
2. How does the sun bear (*true and magnetic*) when on the meridian of an observer in these latitudes (Home Trade Limits)?
3. What do you mean by deviation of the compass, and how is it caused?
4. Having determined the deviation, how do you know when it is easterly and when westerly?
5. Supposing the sun when on the meridian bore by your compass———— what would be the deviation of that compass for the direction of the ship's head at the time, the variation given on the Chart being———— ———?
6. How could you find the deviation of your Compass when in port, or when sailing along a coast?
7. Name some suitable terrestrial objects by which you could readily obtain the deviation of your Compass.
8. The bearing of two objects when in a line with each other was found on the Chart to be————magnetic; but when brought in a line on board they bore————by your Compass; required the deviation of your Compass for the direction of the ship's head at the time?
9. What means are there for checking the deviation of your Compass by night?
10. Supposing the North Star (*Polaris*) bore————by your Compass, what would be the deviation (approximately) of that Compass for the direction of the ships head at the time supposing the variation given on the Chart to be————?
11. Do you expect the deviation to change? If so, state under what circumstances.
12. What is meant by the variation of the Compass, and what is the cause of it?

APPENDIX G.

(*See* Rule 65.)

EXAMINATION OF A MASTER OR MATE IN STEAM.

The examination is for the most part *viva voce*, and extends to a general knowledge of the practical use and working of steam engines and boilers, and of the various valves, fittings, and pieces of machinery connected with them and of the way in which electric lighting is carried out on board ship.

Candidates must:—

(*a*) Know the names and understand the uses of the various parts of engines and boilers, and their connecting pipes, valves, cocks, etc.

(*b*) Have a thorough grasp of the construction of the steam engine and boiler, to enable them to understand the nature and importance of any defect which may be reported to them by the Chief Engineer.

(*c*) Have a looking-on knowledge of what the principal repairs about engines, boilers and pipes are, and how these repairs are accomplished.

(*d*) Be able to form an independent opinion as to a breakdown, and the consequent propriety or impropriety of proceeding under steam with temporarily repaired or defective machinery.

(*e*) Understand how to estimate approximately the reduction of fuel required for reduced speed, and be able to satisfy themselves as to the sufficiency of the coal on board for the voyage.

(*f*) Have an intelligent grasp of the general run of pipes and connections in the engine-room, the working of cocks, the opening and closing of cocks and valves, and know how mistakes of importance may be made and how best to guard against such mistakes.

(*g*) Be capable of being left in charge of the feeding of a set of boilers, understand the working of the water gauge, and be able to guard against being misled by false indications of the gauge glass.

(*h*) Understand the operations of blowing down and surfacing, the reasons for such practices and the danger which may result from the neglect of them in certain circumstances.

A Master or Mate presenting himself for examination in steam must be understood to have made up for his want of practical experience by reading about the steam engine. He ought, therefore, to show that he intelligently understands the rationale of its action. Under this head he should be able to state approximately the quantity of heat required in the formation of steam, the relation of "latent" heat to "sensible" heat, how much steam can be raised by the combustion of one pound of coal, what horse power measure is, what indicated horse-power is, what is the action of the slide valve, the course of the steam through the engine, the advantage of working expansively, and how the expansive action is shown by the indicator diagram.

He should know the uses of the various parts of the engines and dynamos used for electric lighting, and how they and the cables are fitted in the hull; how wires are jointed, insulated and cased; why it is desirable that they should be led along places which are dry and accessible; what "short circuiting" is and what are the causes which produce it; what is its danger in coal bunkers and petroleum carrying steamers; what are the uses of switches and cut-outs, and why it is so important to prevent short circuiting taking place.

Candidates will be required to give written answers to sixteen out of twenty questions taken from the Elementary Questions (printed in Appendix C of the Regulations relating to the Examination of Engineers: Exn. 1*a*) given on the sheets marked "Steam," or questions similar to these. These questions will be altered from time to time without notice. The twenty questions will not be difficult, theoretical, or book questions, but such as any man of ordinary capacity who has a fair amount of practical knowledge of the use of working of the steam-engine ought to answer.

Examiners will require all candidates to fill up a form, Exn. 15*b*, and they will forward it to the Chief Examiner of Engineers with the report of the examination.

Masters and Mates may cancel questions A, B and C but they should fill up the form for questions D, E, F and G, as evidence of their practical knowledge.

If a candidate refers to any book, paper or memorandum, or obtains information from another candidate or any other persons during the examination, he will be treated as having failed, will forfeit his fee, and will not be allowed to be re-examined for a period of six months.

The Examiners will report, in the case of failure, the nature of the question or questions that decided the failure, or the point in the management of the engines or boilers in which the candidate was deficient.

Applicants for the voluntary examination need not necessarily have served on board steamships; all that is required is that they shall have a practical knowledge of the use and working of the steam engine.

Practical knowledge is best gained in the engine-room; and the examination of an officer who does not produce official evidence of service in steamships, and of experience of engines must necessarily be more searching than in the case of one who produces evidence of such service and experience.

The answers to the Elementary Questions are frequently given by candidates as learned by rote from a book. Candidates should, therefore, be asked such *vivâ voce* questions as will necessitate answers in different words, so as to discover whether they have the root of the matter in them.

A large part of the *vivâ voce* examination should be conducted on board a steamer, preferably one with which the candidate is unacquainted. He should be told to look about and try to find out the arrangement of the machinery without assistance, and the Examiner should be in the engine-room to see that this independent examination is properly carried out. When the candidate reports that he thinks he knows the arrangement, the Examiner will question him on the uses of the parts, get him to point out the different cylinders, pumps, valves, condenser, etc.; also the dynamo, its field magnets, armature, commutators, brushes cables, etc. The candidate must show that he understands the run of the pipes in the bilges, not necessarily that he has gone over every one of them, but he ought to be directed to trace, at least, one important range of pipes, and to thoroughly satisfy the Examiner that he could be safely trusted to manipulate the valves or cocks in connection therewith. It will not often be practicable for the candidate actually to work engines under steam, but he must satisfy the Examiner that he knows how to do so, and that he is aware of the precautions to be taken in regard to water in the cylinders, etc. It is most important that a candidate should show that, in the event of an accident depriving him of the assistance of Engineers, he knows what to do to safely take his vessel to an anchorage, or to stop the engines and proceed under sail alone.

The examination of a Mate in steam is the same as that of a Master. The knowledge required has no reference to the Mate's position.

The Mate may be examined, but such examination implies that the Mate may one day be a Master, when the possession of the knowledge will be an advantage to him in the discharge of his duties.

APPENDIX H.

(*See* Rule 24.)

SIGHT TESTS.

Details as to the conducts of the tests.

These tests must be conducted under the strict personal supervision of the Examiner. A careful record must be kept of all mistakes made by the candidate both in the form vision test and in the colour vision test.

Examiner must keep a record of all candidates passed by him for reference when required.

I.—LETTER VISION TESTS.

1. **Letter test to be passed first.**—The first test which the candidate is required to undergo is the test for form vision, and until he has passed this test he must not be allowed to proceed further with the examination.

2. **Apparatus used.**—The letter test to be used for all candidates is that conducted on Snellens' principle by means of sheets of letters.

3. **Object of the test.**—The object of the letter test is to determine whether the candidate can reach a sufficient standard of visual acuteness, or, in other words, to find out whether his eye sight is good or bad.

4. **Standard of vision required.**—Every candidate for a first certificate of competency will be required to possess normal vision. With the exceptions indicated below (*see* paragraph 8), every candidate for a second or higher certificate will be required to possess normal vision.

"Normal vision" is defined, for the purpose of these Regulations, as ability to read correctly nine of the twelve letters in the sixth line and eight of the fifteen letters in the seventh line of a test sheet placed in a good light at a distance of 16 feet from the eye.

The candidate will have the option of using either eye separately or both eyes together.

5. **Spectacles not allowed.**—During the examination for form vision candidates must not be allowed to use spectacles or glasses of any kind, or any other artificial aid to vision.

6. **Method of testing.**—The test sheets should be hung on the wall, *in a good light, but not in direct sunlight,* of a height of five or six feet from the ground. The candidate should be placed at a distance of exactly 16 feet from the sheets, and exactly opposite them. This distance should be carefully measured, and should never in any circumstances be varied.

One of the sheets should then be exposed, and the candidate should be asked to read the letters on each sheet, beginning at the top and going downwards. Any mistakes which he makes should be carefully noted. If then it is found that he has read correctly at least nine letters in the sixth line and eight letters in the seventh line of a sheet, the candidate may be considered to have normal vision, and should be marked "passed" in the appropriate column of the form of application (Exn. 2 or Exn. 2A, as the case may be).

7. **Passing or failure.**—If at the conclusion of the test the candidate is found to reach the required standard, he may be considered to have passed, and the examiner should proceed to test him for colour vision. If the candidate fails to reach the standard required for the certificate entered for, he should be tested with at least four sheets, and the Examiner should fill in a Form, Exn. 17b, and should forward it, with any remarks he may wish to make, to the Principal Examiner for his instructions as to whether the candidate is to be regarded as passing or as failing in form vision.

8. **Lower standard required in certain cases.**—Candidates who are in possession of certificates obtained before January 1st, 1914, may be regarded as passing in form vision if they can read correctly with both eyes at least five of the eight letters in the fifth line of a test sheet.

9. **Tests to be varied.**—The Examiner should take care, by varying the order of the test sheets and by every other means in his power, to guard against the possibility of any deception on the part of the candidate.

10. **Result of examination to be reported.**—The result of every examination in form vision should be reported, in the case of a candidate for a certificate of competency, to Government on Form Exn. 2, and to the Port Officer on Form Exn. 14; and, in the case of a candidate for the sight tests only, to Government on Form Exn. 2A.

II.—LANTERN TEST.

11. **Apparatus.**—A special lantern and a mirror have been provided for this test. The lanterns should be placed directly in front of the mirror, so that the front part of the lantern is exactly ten feet from the mirror. Care should be taken that the lantern is properly placed, that is to say, the lights reflected in the mirror must show clearly when viewed through the rectangular aperture on the left of the lantern. The examiner should always satisfy himself that these conditions are fulfilled before commencing the examination.

12. **Darkness adaptation.**—*It is essential that a candidate should be kept in a room which is either completely or partially darkened for at least a quarter of an hour before he is required to undergo this test.*

Before the examination commences the Examiner must satisfy himself that the room in which it is conducted is so darkened as to exclude all daylight.

13. **Method of testing.**—The lantern supplied for the examination is so constructed as to allow one large or two small lights to be visible, and is fitted with 12 glasses of three colours—red, white and green. At the commencement of the examination the Examiner should show to the candidate a series of lights through the large aperture, and should require him to name the colours as they appear to him. Care should be taken in showing the white light to emphasise the fact that the light is not a pure white. If a candidate makes a mistake of calling this light "red" a proper red light should be shown immediately after and the candidate's attention directed to the difference between the two.

After a series of lights through the large aperture has been shown, the examiner should make a complete circuit with the two small apertures, requiring the candidate to name the colours of each set of two lights from left to right. To prevent any possibility of the order in which the lights are arranged from being learnt, the Examiner should at least twice in each circuit go back a varying number of colours.

A record of any mistakes made with either the large aperture or the two smaller apertures should be kept on Form Exn. 17c in accordance with the instructions thereon.

14. **Passing or failure.**—If a candidate with either the large aperture or the two smaller apertures of the lantern mistakes red for green or green for red, he should be considered to have "failed" in Colour Vision.

If the only mistake made by the candidate with the lantern, is to call the white light "red" and if after his attention has been specially directed to the difference between the two he makes no further mistake of this nature, he should be considered to have passed in Colour Vision.

If a candidate makes any other mistake with the lantern, *i.e.*, if he calls white "red" repeatedly or red "white" at all, or confuses green and white, his case should be reported to the Port Officer and he should be told that the decision as to whether he is passed or failed, or a further examination is necessary will be communicated to him in due course. Pending the receipt of the Port Officer's instructions such a candidate should only be allowed to proceed with the remainder of the examination for a certificate of competency on the express understanding that the latter examination will be cancelled in the event of failure in the Sight Tests.

15. **Further examination and appeals.**—If in the cases covered by the preceding paragraph the Port Officer decides that a further examination is necessary, arrangements will be made for a special examination to be held and the third class travelling expenses necessarily incurred by a candidate in attending such an examination will be paid by the Government together with a subsistence allowance at a rate which will be notified to the candidate, but which will not in any circumstances, exceed Rs. 4 for each day necessarily occupied in attending the examination. In these cases the above expenses will be paid whatever may be the result of the final examination.

If, however, on the report of the Examiner the Port Officer decides that the nature of the mistakes made shows conclusively that a candidate is so colour blind as to be unfit to hold a certificate, the candidate shall be considered to have failed.

If during the progress of a special examination a candidate with defective Form Vision is found to be suffering from a permanent defect of the eyes such as to render him unfit for a sea career, the Port Officer may finally reject such candidate and he will not be allowed to be again examined in the Sight Test on any future occasion.

In cases where, upon the report of the Examiner, a candidate is failed by the Port Officer, as well as in the cases covered by paragraph 14, Government will be prepared to allow a candidate who is dissatisfied with this decision to appeal for a special examination, but Government will not pay the travelling expenses of any such candidate unless he is reported by the Special Examiners conducting the appeal examination to have passed.

III.—REPORTS.

16. The result of every test in form or colour vision should be reported to the Government on the Form Exn. 2, and to the Port Officer on the Form Exn. 14, when the candidate is up for examination for a certificate of competency; and to the Government on the Form Exn. 2A. when the candidate is up for examination in vision only.

All cases of failure should also be reported to the Port Officer on Form Exn. 17B, to which should be attached Form Exn. 17C, containing the record of any mistakes made with the lantern.

Every report relating to such an examination must be signed by the Examiner who conducted the examination.

APPENDIX I.

TABLE SHOWING THE REQUIREMENTS AS TO SEA SERVICE NECESSARY TO QUALIFY FOR EXAMINATION FOR CERTIFICATES OF COMPETENCY.

Note.

A candidate for an Ordinary certificate of any grade who has not previously held an Ordinary certificate of a lower grade must prove that he has served twelve months in the foreign trade or eighteen months in the home or coasting trade in a square-rigged sailing vessel.

Where foreign-going certificates are required to be held to qualify candidates for examination, they may be either the Ordinary certificates, or those for fore-and-aft rigged vessels, or for foreign-going steamships.

It must be clearly understood that the amount of service laid down in the Regulations for each grade of certificate of competency is the absolute minimum that can be accepted, and unless a candidate can show the full amount he must in no case be allowed up for examination.

Rank.	Minimum Age.	Total Sea Service (Years).	Officers' Service in Merchant Vessels.		
			Years.	Lowest capacity.	Lowest certificate required.

APPENDIX J.

TEXT-BOOKS TO BE USED IN THE EXAMINATIONS.

For Naval Architecture.—"The Modern Practice of Shipbuilding in Iron and Steel," by Samuel J P Thearle. Published by William Collins, Sons & Co., vol. I, Seven Shillings and Sixpence, vol. II, Twelve Shillings and Sixpence nett.

"Ship Construction and Calculations," by George Nicol. Published by James Brown & Sons, 52-56, Darnley Street, Pollokshields, E Price 23 Shillings nett

For Stability—"Ship Stability and Trim," by Percy Hillhouse. Published by Gieve's Publishing Co. (John Hogg), 13, Paternoster Row, London, E.C. Price 12 Shillings and Sixpence

For Deviation of the Compass—The "Admiralty Manual for the Deviations of the Compass," to be obtained through any bookseller, or directly from His Majesty's Stationery Office, or Edward Ponsonby, 116, Grafton Street, Dublin Price Six Shillings "The Elementary Manual for the Deviations of the compass in iron Ships," by E W Creak, published by J D. Potter, 145, Minories, London, E I. Price 10 Shillings

For Meteorology, including Barometer, Thermometer and Hydrometer—"A Barometer Manual for the use of Seamen, with an Appendix on the Thermometer, Hygrometer, and Hydrometer" (issued by the authority of the Meteorological Council) Price One Shilling Sixpence And "The Seaman's Handbook on Meteorology" Price Three Shillings Sixpence. To be purchased through any bookseller, or directly from His Majesty's Stationery Office; or Edward Ponsonby, 116, Grafton Street, Dublin

For Prevailing Winds and Currents of the Globe.—"The Principal Winds and Currents of the Globe, etc.," compiled from the various Admiralty Sailing Directions, Weather Charts, etc, by Captain Robert Jackson, R N., and to be purchased either directly or through any bookseller, from Simpkin, Marshall and Company, Paternoster Row, London, or Henry Lewis, 114, High Street, Portsmouth Price One Shilling

For Trade Routes.—"Ocean Passages," compiled from the various Admiralty Sailing Directions by Captain Robert Jackson, R N., and to be purchased, either directly or through any bookseller, from Simpkin, Marshall and Company, Paternoster Row, London, or Henry Lewis, 114, High Street, Portsmouth. APPENDIX M.

No. 122 Marine, dated the 12th August 1921.

NOTIFICATION—By the Government of Bengal, Marine Department.

In exercise of the power conferred by section 10 of the Indian Merchant Shipping Act, 1859 (I of 1859), and in supersession of the rules published under Bengal Government notification No. 84 Marine, dated the 22nd July 1919, the Governor in Council is pleased, with the previous sanction of the Governor General in Council, to make the following rules for the grant of certificates of competency as masters and mates of home-trade sailing vessels of a burden exceeding 300 tons, but not exceeding 1,000 tons. These rules are supplementary to the rules for the examination of masters and mates in the Mercantile Marine in force in Bengal:—

Rules for examination of candidates for certificates of competency as master and mate of home-trade sailing vessels exceeding 300 tons, but not exceeding 1,000 tons burden.

A.—MATE'S CERTIFICATE.

1. **Mate.**—A candidate for mate's certificate must be not less than 19 years of age and must have served four years at sea in the performance of deck duties in a sea-going vessel of not less than 100 tons burden. Eighteen months of this total period of service should have been rendered in a square-rigged sailing ship. He must be able to read and write legibly an Indian vernacular language or to read and write legibly English and speak an Indian vernacular language. He must also satisfy the Examining Board that he has an adequate knowledge of elementary arithmetic, simple and compound, in his own language, up to the standard required in the duties of a mate.

2. **Examination in navigation.**—He must be able to take a bearing by compass, be conversant with the use of a Mercator's chart and be able to find on either a "true" or "magnetic" chart or plan, the course to steer and the distance from one given position to another. He must also be able to find the position of the ship on the chart by the following methods:—

(a) cross bearings of two different objects;
(b) two bearings of the same object, the course and distance run between the two bearings being given.

He must understand the reduction of soundings, the variation and deviation of the compass and the way in which to apply such variation and deviation; also the marking, signs, and abbreviations shewn in a chart. He must also have a working knowledge of the International Code of Signals.

3. **Examination in Seamanship.**—He must possess a thorough knowledge of the Rule of the Road as regards both steamers and sailing vessels, their regulation light and fog and sound signals. He must be able to describe the signals of distress and the signals to be made by ships wanting a pilot, and the liabilities and penalties incurred by the misuse of these signals, also the use and management of the rocket apparatus in the event of his vessel being stranded. He must be able to mark and use the lead and log lines and to manage a ship's boat in heavy weather. He must have a a thorough knowledge of anchor work, mooring and unmooring vessels, boat hoisting and lowering and making and furling sail. He must be able to read and understand the Barometer, the Thermometer and Aneroid. He must also understand the general requirements of practical seamanship and be able to answer any questions of a nature appertaining to the duties of a Mate which the Examining Board may think proper to put to him.

B.—MASTER'S CERTIFICATE.

1. **Master.**—A candidate for the Master's certificate must be not less than 21 years of age and must have served five years at sea—

(a) in the performance of deck duties of which one year must have been in a capacity not lower than that of first or only Mate of a home-trade sailing ship of not less than 100 tons burden whilst holding a Mate's certificate for home-trade sailing ships or a second Mate's Certificate for foreign-going vessels; or
(b) in the performance of deck duties of which two and a half years must have been in a capacity not lower than Second Mate of a home-trade sailing ship of not less than 100 tons burden in charge of a watch while holding a Mate's certificate for home-trade sailing ships or a Second Mate's certificate for foreign-going vessels; or
(c) one year of which must have been in command of a sea-going vessel of not less than 100 tons burden.

He must be able to read and write legibly an Indian vernacular language or to read and write legibly English and speak an Indian vernacular language and he must satisfy the Examining Board that he has a sound knowledge of elementary arithmetic, simple and compound, in his own language, up to the standard required in the duties of a master.

2. **Examination in navigation.**—In addition to the qualifications required of a Mate, a candidate for a Master's certificate will be required to find on a chart the course to steer by compass in order to counteract the effects of a given current and to find the distance the ship will make good towards a given point in a given time. He will also be required to find latitude by a meridian altitude of the sun and find compass corrections by amplitude or azimuth and prove that he is familiar with the use of the sextant. He will also be required to work out practically the correction to apply to soundings at a given time and place, to compare with the depth marked on the chart.

3. **Examination in Seamanship.**—In addition to the qualifications required of a Mate, a candidate for a Master's certificate must understand how to rig a sea anchor, and how to get a cast of the lead in heavy weather. He will be examined as to his resources for the preservation of the crew and passengers in the event of wreck, and the steps to be taken if his vessel is disabled and drafting towards a lee shore, and will be required to answer any other questions appertaining to the management of a home-trade sailing ship which the Examining Board may think necessary to put to him. He must also understand elementary ship's business and the general duties of a Master. He must satisfy the Examining Board that he has an adequate knowledge of the storm signals as used in home-trade waters, and that he is thoroughly acquainted with the different routes to be taken at various seasons of the year in home-trade waters.

Pleaders' Survey Training Classes, 1925.

1. Classes for the training of pleaders in surveying will be opened in January 1925 in connection with the Bengal Engineering College, the Bihar School of Engineering, Patna, the Dacca School of Engineering, provided sufficient candidates register their names at each centre.

2. The course will last for six weeks and will consist of practical work combined with class instruction. The routine and hours of attendance will be settled by the heads of the institutions, who will also decide the exact locality in which the classes will be held and date of the opening.

3. Pleaders must make their own arrangements for attending this course. No tents or other residential accommodation will be provided.

4. Credit for attendance at these classes will not be given unless the pleader has been present for 80 per cent. of the working days and for the full working hour for each day. The attendance must be distributed over the course so that no subject is neglected.

5. Candidates who desire to undergo the course of training must apply to the Principal, Bengal Engineering College, in the case of candidates practising in the law courts of Bengal, and to the Principal, Bihar School of Engineering, in the case of candidates of Bihar and Orissa, for registering their names not later than the 30th November. The application of a candidate must be endorsed by the District Judge. It should state the centre which the candidate wishes to join, *i.e.*, Bengal Engineering College, Patna or Dacca, and should be accompanied by a remittance receipt from the local treasury certifying that the fee of Rs 100 has been paid into the treasury to the credit of the Secretary, Pleaders' Survey Examination Board.

6. The registering officer will allot candidates to the centres, consulting their wishes as far as possible, giving not more than 24 and not less than 8 to a centre. He will then inform the candidates as to the locality and the date of opening of the class.

7. The following is the syllabus of instruction :—

No definite text-books are prescribed :—

(*a*) Practical work—

Chain surveying, prismatic compass surveying, plane tabling and levelling.

(*b*) Class work—

Use of mathematical instruments, construction of scales, mensuration of area, plotting, variation of compass, preparation of field-books from maps, elementary principle of levelling and plotting of level sections.

Candidates who obtain the required percentage of attendance at this course are qualified to appear at the Pleaders' Survey Examinations to be held in 1926, 1927, 1928 and 1929.

1. The next examination will be held in February 1925 and will be conducted at the following centres (provided that not less than five names be registered at each centre) :—B. E. College and Dacca in Bengal, and Patna in Bihar and Orissa.

2. Each examination is complete in itself. A candidate will be required to pass by every test and will not be exempted from any test on the ground that he has previously satisfied the examiner in it.

3. Candidates practising in the Courts of the Presidency and Burdwan Divisions will be required to present themselves at the B. E. College ; those practising in Patna, Tirhoot, Bhagalpur, Orissa and Chota Nagpur Divisions, at Patna ; and those in Rajshahi, Dacca and Chittagong Divisions, at Dacca.

4. In the event of more than 20 or less than 5 names being registered for examination at any one centre, the Secretary may direct the candidates to present themselves at any other centre.

5. No candidate will be admitted to the examination unless he has been enrolled as a pleader, and

(*i*) has obtained credit for attendance at the special course of instruction at the B. E. College, Patna or Dacca, in 1921, 1922, 1923 or 1924 and has not previously appeared at the examination more than twice, or

(*ii*) has been registered for admission to the Intermediate Engineering Examination of the Calcutta University, or

(*iii*) has passed the Sub-Overseer examination, or

(*iv*) has obtained the Surveyor's certificate of one of the Government Survey Schools, or

(*v*) has been specially exempted from the operation of this rule by the Board controlling the examination

6. Candidates wishing to appear at the examination will apply upon the prescribed registration form, obtain the necessary countersignature of the District Judge in whose Court he is enrolled, and forward the same so as to reach the office of the Principal, Bengal Engineering College in the case of candidates practising in the law courts of Bengal, and to the office of the Principal, Bihar School of Engineering in the case of candidates of Bihar and Orissa, not later than the 12th January 1925. The form may be had from the Principal, Bengal Engineering College, or from the Principal, Bihar School of Engineering.

7. Each application must be accompanied by a receipt from the local treasury certifying to the receipt of the examination fee of Rs. 50, which fee will in no case be returned.

8. The exact date of the examination and the proposed programme will be communicated to candidates by the office who has registered their names.

THE Bengal and Madras Service Family Pension Fund which is provisionally managed and assisted by Government has for its object the provision of monthly pensions for the maintenance of the widows and children of subscribers and is open, with certain exceptions, to all active and pensioned members of the Uncovenanted Service of Government (except those serving under the Government of Bombay), and to Local Fund servants earning pensions from Government. Some of the special features of the fund are—(1) that widowed daughters incapable of remarriage or children labouring under such mental or bodily infirmities as incapacitate them from earning their livelihood or preclude the possibility of marriage (in case of a daughter) are admitted to its benefits; and (2) that subscribers to the Widows' and Daughters' branches are entitled to a refund of 30 per cent. of the premia paid, should the nominees predecease them after five years of admission. The second quinquennial valuation of the fund has been completed by the Actuary to the Government of India and his report discloses very favourable results. For forms of application and rules of the Fund apply to the Accountant-General, Central Revenues, Imperial Secretariat Buildings, Calcutta.
